With the cat calling, I don't really think it's a kind thing to do in general, with the misandry question, I thought about who or what the butt of the joke was (is it a woman joking about men or is it someone joking about misandry as a concept). We have this fat ass chick working, and she takes like a 15 minute break every 30 minutes, while all the guys are slaving over the hot asphalt or stream. But whenever I take a 3 minute break to catch my breath my soup gets on my ass for just catching my breath, but he's totally okay with this morbidly obese lesbian to take 15 minute breaks throughout the day and he even extends her lunch because he doesn't want her turning him in for being sexist or whatever because she's a female or a lesbian . KIRI GAMES feminism is a joke they just want entitlement. ik u kno this tho lol. women r equal its just propaganda no wage gap. women didnt "fight for their voting rights" majority actually didnt want the right to vote because tht entailed u had to sign up for the draft. which ment women would have to participate in war. ina time there wasnt much non infantry jobs for women. men made this possible because they thought it was important and also a minority of women wanted it. chivalry will be dead soon because of feminists they are a disgrace to women. my room mate is a butch lesbian and she hates feminists more than anything and says it makes lesbians especially of her type look bad and when ppl see her they think shes mean and a man hater till she speaks to them and realizes thts the polar opposite of the truth she just dosnt like dick she loves men and is a sweet person and these people are ruining the image of women and girls all over the country straight and gay . theres stats tht show men r much less quick to help women now because of this and its essential to survival we do. ofc the elite do not want this. this is why youtube illegally copystrikes and why twitter and fb illegally but legally b.c its a company and fb and twit aint part of the law filter activists or just normal ppl like me and u speaking out. they mark as spam and remove if it goes against the establishment and agenda of the elites. all the companies r linked if u dont believe me look into it. if ur just going to call me stupid and cuss and not take the time to then thts self explanatory and your statements r irrelevant u have to look at both sides even if u r biased ina area which every1 is we need to come together and be unbiased and look at stuff in a objective and technical manner. thank u everyone. I hate it when they complain about how they don't have equal rights, but then also expect for men to be 'gentlemen' when it's convenient. Where's the equality in that? If I ever became someone like them, I would want to be euthanized. I'm not joking. I almost feel bad calling myself a feminist. Btw, I would've chosen all the same answers as Birdman. What am I now? Ok so I’m British, you’re american so you probably won’t know this but the page 3 newspapers are wrong, not sexist, but wrong because they are always placed on the bottom shelf in newsagents or any shop that sells mags and newspapers, and most people are concerned that impressionable children will be able to pick it up and see it, and maybe even buy it if they aren’t supervised (no one’s gonna care that a kid is buying a random newspaper) so it’s not really about the woman . It’s more about the people seeing the topless model. They also have them hanging around cafe tables for customers to read (and again children could see it).These types of newspapers and other porn mags used to be on the very top shelves and covered, but now they are all on display at children’s level. That is what I object to. The women can do whatever they want.The other point is that there are amillian porno mags out there, and even porn on the internet, so I don’t really think it’s necessary to have a random porn picture in a f*cking NEWSpaper. It’s a news magazine not a porn magazine.The only thing I will say that is actually sexist about the topless page 3 model think is that it’s always women. you never get a topless man. And you also never get male porn mags.	Woman	Gender - General	1/235	0.426

Fight now men suffer from sexism more than women do. Most sexism towards women is offhanded at this point where sexism tends to define a mans whole being. If hes raped and admitts it hes ridiculed. He cant lkke dolls. He cant cry. A man has to live by a set of rules and arnt allowed to complain about it. I think its time people stoof up for mens rights because theyre taught not to stand up for themselves. Feminists are ao selfish. Women in america have it all and just keep crying for more. There's an example of the true meaning of the word sexist. A man draws a clothed woman with a little bit of skin showing and then draws a shirtless man, sexist will only see how wrongfully the woman is dressed but don't complain how the man's torso is showing. Well there's a reason why it's like this, because a man drew that and they're going to see that he's a pig on how the woman looks. Now if it was the opposite that a woman drew the clothed woman with less skin showing but then draws a shirtless man, sexist will now only see how wrongfully the man is shown but don't complain how the the woman looks, because a woman drew that. Therefore, she's known as a slut for drawing a shirtless man. Why do they think this way? So it's not just how men treat women, but also how women treat men. Anyone understand where I'm getting at? The problem is how the joking of these two things is sexist. whilst both, I believe, are morally wrong to joke about, it isn't really sexist to joke about rape because both a man and a women can be subject to rape meanwhile only a man can be subject to misandry . They just use morally wrong things in this quiz to distract you from wether they are sexist or not and makes your awnser based on the problems with say, joking about rape rather than how sexist it actually is. Warden I agree with your comment and actually as soon as I saw that I started looking for comments about it... what Alexandros Nikitopoulos and back up fail to see is that birdman explains at an earlier point in the video how he thinks "it's honestly acceptable to joke about *anything in the world*, like *nothing is really off limits*". The only like key factor to it is that your joke actually has to be funny..." (btw that is a direct quote, you can check video at 4:42 if you really think that i'm wrong). However after saying this he goes on to say that if someone jokes about misandry it's different, and I think that that attitude and way of thinking is shared and mirrored by feminists, hence why we have this type of content. It's the idea that it's okay to do as long as it's not happening to me and my race or gender that makes this man and the extreme, 3rd wave feminists two sides of the same coin... (Edit: Honestly please feel free to comment again if I am wrong, and before you say it no, I am not a feminist.)	Gender, Misandry, Race	Ethnicity - General, Gender - General	3/196	1.531

<p>You see what they do here is actually split the vote of the people they want to lose the vote and get the result they want. That's exactly why you feel like you are in the minority if you don't agree with them every time. That's the point. You may not be, but it "feels" that way. To pressure you into agreeing with them."Is it ever acceptable to cat call", there are 3 Yes answers and 1 No answer, its a Yes or No question, so it means that Yes, even if it wasn't the majority answer is heavily favoured to win."Do you think some jobs are better suited to one gender": 2 Yes answers and 1 No answer: as you can see the majority of answers are in "the affirmative" but "No" comes out on top in the ranking. Just check the actual percentages and realise how they divided up the people they disagree with. You can see exactly the results when its actually perfectly balanced with the Quota question, they didn't manipulate the vote and you got an actually relevant result. The only issue with this logic is the marketing to boys and girls question, but the split is fairly even, you can expect a high proportion of feminists to be in there doing the quiz and the quiz is doing its job of filtering out dissenting opinions, people that don't agree might have actually gone ahead and left, realizing the exact type of echo-chamber they have entered. It is sexist to hold doors open and hold bags, the issue here is whether thats a problem or not, something being sexist doesn't immediately mean its a problem, thats not how logic works. "This is discriminating" => "This is wrong" is not a real chain of sound reasoning, discriminating, judging is just choosing between things, there are no issues with doing that, depending on how you're applying it, things like preferences of who you want to date or be nice to are not affecting anyone else negatively so there's no issue and its not anyone business. Its when you start limiting others freedoms, choices, safety and security in an unreasonable manner that it becomes an actual issue worth discussing or being mad about.</p>	Gender	Gender - General	1/376	0.266

Sexist is about making a decision on the basis of sex . It has nothing to do with whether or not that act is a good or bad thing, just how the decision was made.There is simply nothing wrong with making decisions on the basis of sex as a general practice.The only issues are when that decision causes to you do something that negatively affects others in certain contexts.(the reason i word it this way is because its technically sexist to only want to date women as it limits mens dating options who'd be interested in you, but that kind of "affecting others negatively" isn't relevant because its okay to have preferences. most of this shit isn't really sexist. some are problematic, alright, but not sexist - like the one about commenting on a female politician's clothing. politicians in general are expected to follow a dress code and as long as they do just that nobody should be commenting whether that congresswoman's pantsuit is a versace or that congressman's jacket is givenchy, because this isn't important in the conversation. the door holding thing, as well, is a pretty pathetic question. holding the door open to someone that is coming in after you is something people do out of politeness, independent on their gender . t-shirts are just t-shirts, music is just music, people need to stop making a big deal about shit like this. ”for example, male-to-female trans people who haven’t had surgery” Do you have any idea how ridiculous that statement is quinintheclouds? It is literally impossible to have a sex change without the surgery, as in you can not just claim your gender . If you can’t get that through your likely thick skull, I am glad to give a brief explanation.male/māl/adjective1.of or denoting the sex that produces small, typically motile gametes, especially spermatozoa, with which a female may be fertilized or inseminated to produce offspring:”male children”synonyms:masculine, virile, manly, macho, manlike, ... antonyms:femalenoun1.a male person, plant, or animal:”the audience consisted of adult males”fe · male/ fē māl/adjective1.of or denoting the sex that can bear offspring or produce eggs, distinguished biologically by the production of gametes (ova) that can be fertilized by male gametes:”a herd of female deer”noun1.a female person, animal, or plant. In order to be able to correctly claim your gender identity, you need to fill 100 of the criteria. This movement that you can be whatever gender you want to be without proper body reconstruction, needs to come to a stop. Although the content produced and posted on the World Wide Web to push your movement is completely and utterly hilarious, it is incorrect. Maybe it's too open to interpretation.I entirely disagree with you about the final question because I have no problem with traditional gender roles as long as the option for women or men to fulfil whatever role they qualify for is still there. I would've said a solid yes to the final question without the idea that people "suffer from stereotypes" because realistically stereotypes about men and women are generally just banter After watching this I think, and I'm sure you'll agree, that most people just need to live and let live and not be so concerned by the choices of others insofar as they're not harmful to others	Gender, Misandry	Gender - General	2/133	1.504

<p>A more detailed response to all of these because Buzzfeed’s answers they provide are retarded:1. Do you think it’s ever acceptable to cat call?Yeah. Do whatever you want.2. Do you think some jobs are better suited to one gender?I mean, if a job requires a dick for some reason, I guess it’d be more appropriate for men (biological men before SJWs get all triggered at me). If we’re talking about neurology as well, women, naturally, have different brains to men, so I guess that could affect jobs too, but I feel like it’d be wrong to judge applicants on gender because there are plenty of exceptions to the brain’s norm. If you literally need tits and a vagina for a job though, sure.3. Do you think misogynistic lyrics in popular music are harmful to society?You could make a song about heiling Hitler and it wouldn’t be harmful. It’s a fucking song. Nobody is going to suddenly hate women because they hear something ‘objectifying’ women in a song.4. Do you think quotas are ever acceptable to get more women into certain roles, such as corporate board members or MPs?No. Hire them if they’re good for the job, not just because they have the right set of genitalia.5. Do you think it’s ever acceptable to joke about rape?Get over it; it’s a fucking joke. If you’re a rape victim, then okay, you have a right to feel uncomfortable. And joking about rape around a rape victim who hasn’t expressly said that they didn’t mind would be insensitive and inappropriate, but I wouldn’t say that you can’t. You’re just socially retarded if you do that.6. Is it sexist to call a woman ”sweetheart”?No. Unless if you literally call her ‘sweetheart’ BECAUSE she’s a woman and nothing else. But that’s really vague anyway; is it sexist to sit next to a man, for example? Well, are you doing it because of their sex? I mean, it’s kind of irrelevant what you’re doing and who you’re doing it to. Sexism is about the REASON you do it.7. Is it sexist for a man to offer to carry a woman’s bags?It’s called fucking manners. That goes for anyone of any gender towards anyone else of any gender. Just hold people’s bags if they’re struggling. Jesus Christ.8. Is it sexist for a man to hold open a door for a woman?When I was in primary school, one of the first things they taught us was that we should always hold doors for people. It’s polite. I’ve seen plenty of girls and plenty of boys hold doors for people at that school. So, no, men should hold doors for women and vice versa and do so for your own gender as well. Just hold doors. Fucking manners.9. Do you think it’s OK to market toys to boys and girls separately?What do you mean by market? All products are marketed towards certain demographics, including gender demographics. And how is it marketed? I’m assuming that it’s just designed with one gender in mind, in which case that’s fine. The other gender can still play with it and there’s no harm done.10. Is it OK to wear T-shirts like this?Yeah, it’s a T-shirt. Wear literally whatever you want. If you want to wear a swastika, that’s your choice. You’ll receive public backlash anyway.11. Do you think it’s acceptable for the media to comment on what a female politician is wearing?I’ve seen ‘your side’ so to speak comment on Melania Trump’s outfits plenty of times, so I’d assume that we both agree. Yes. Feel free to comment on what any celebrity is wearing.12.
