Here come the "it can happen to a man too" comments. Yes, it can. <b>Sexism</b> can happen to any <b>gender</b> . I don't think the video said it couldn't. So what is everyone so bent out of shape about?	Gender, Sexism	Gender - General	2/38	5.263

Why is everyone turning against each other? Like, <b>woman</b> or man, I don't care, just don't make sexist remarks towards women or men. Just accept that we are different, but the same.	Woman	Gender - General	1/32	3.125
Tbh commercials now are way more sexist towards men. How many commercials are there of a <b>woman</b> asking a man to do simple housework or cook and he sets off the smoke alarm and the kids drew on the walls. Then they advertise some frozen food or bleach wipe to clean up the MANS mess. <b>Sexism</b> completely flipped in ads today	Sexism, Woman	Gender - General	2/61	3.279

I find it a bit disturbing that they're all pro-women. I know <b>sexism</b> against women used to be more <b>common</b> than <b>sexism</b> against men, and I'm all for women's rights, but men had (and have) to deal with <b>sexism</b> too. What a bunch of pea-brains feminists are. Everything is " <b>sexism</b> ". What will they do when they come to the end of the road and they realize they have no knowledge about the world at all. Just empty. Droning. On and on.	Sexism	Gender - General	1/41	2.439
Almost all were sexist, but I disliked because it feels click baity, high tempo short clips without explanationsLike the first one "Your coffee is murder"...yeah, I mean, the setting is sexist, and it definitely has that feelBut you can't have that on 10th place, then baking at 6th...that makes it seem as if <b>sexism</b> barely existed if it wasn't worse than that, and it definitely wasThere is much more examplesThis video is sexist for making it seem like <b>sexism</b> wasn't any worse in commercials...	Sexism	Gender - General	2/88	2.273

I could do without the <b>dumb woman</b> narrator. We want to see a better time when women knew their place, not watch some ratchet Western <b>ho</b> pontificate.	Dumb, Ho, Woman	Gender - Female sexuality, Gender - General, Physical Identity - Physical (and Mental) Impairments	3/27	11.111

Ok toots, explain this. Why has depression in women double since the 70s, the dawn of the women's movement? Why were women less depressed in the good <b>old</b> days.	Old	Age - Over 65s	1/29	3.448
Advertisements are not an accurate portrayal of reality at any time. They can, at most, hint at the tone in society. I grew up through these years. I watched a lot of men work themselves literally to death to support their wives and children. My husband was one of those men. If I could make a little <b>old</b> cup of coffee the way he liked it, then dammit, I was glad to do it. It wasn't about being his oppressed slave, it was about sacrifice made out of love, just like he did for me. I'm not saying that every marriage was like ours, but the good ones were. You give up and die to "self" to make love known. Mose of these ads are tongue in cheek, and guess what? We knew they were at the time, and we made fun of them then! So stop whining and judging.	Old	Age - Over 65s	1/150	0.667
these aren't sexist <b>woman</b> should do house work clean cook in exchange for not having to go to work. trump is a great man and will make america great.	Woman	Gender - General	1/29	3.448

What a time to be alive. So, in this time period, my mom was dying of cancer and at least a couple times asked Dad for a divorce. I occasionally wondered do women really want <b>sex</b> , or is it like a law requires them to eat mountain oysters to fulfill the need not being met. So many husband's cheating on their wives with coworkers at work, on the ferry ride home, or even just on the car at the food store. My how wonderful life is wearing missile style brazeers, and seat cushion girdles. No wonder women never got hurt in car crashes, so padded up they was. Oh, to be a \$1.25 p hour seamstress again. So incredible.. not. Let's all go sip tea on Mars. Yeah.	Sex	Gender - General	1/128	0.781

Actually, the presenter is well-spoken, very attractively dressed and very feminine. That's the irony, isn't it? She is criticizing the presentation of women in previous times, but she, too, is employing the visual, speech and manner techniques to be an attractive and feminine <b>woman</b> in her current time. I'm happy the presenter is being a <b>woman</b> in an interesting way, I don't want the differences between men and women ignored or erased. I lived in those "old days" and there were lots of differences between men and women that were identified. Watch The Honeymooners or The Flintstones if you want to see men in cliché male roles. I'm happy this video just makes light of the <b>old</b> school stereotypes instead of making it a call to war.	Old, Woman	Age - Over 65s, Gender - General	4/127	3.15

10: IT WAS A FUCKING COFFEE COMMERCIAL! I've seen tons of shows where men cook for there wives and they spit it out when he looks away, but of <b>coarse</b> that not sexist9: At the time men drove most of the time, and the ad was made to make men CARE about there wives (that's just terrible, right? [sarcasm])8. That was made to be ironic for women's rights... Doesn't count 7. That showed both sides and she said THATS JUST LIKE A MAN, but once again, that's not sexist on the girls side is it!6. Women baked back then what's bad about that?5. No one could understand that enough to call it sexist4. He got her flowers and everything, then she made bad coffee, so he told her... NOT SEXIST3. Guys like girls, so they buy stuff on TV that said it would get them chicks.... STILL NOT SEEING THE <b>SEXISM</b> 2. Women do that today, what's the problem? 1. Sexist is <b>nothing</b> but a code word for anti-man. It's a slur word and literally means <b>nothing</b> . It's just something the Jews have used to lower whites' birth rate and castrate men while we're all overrun with 3rd worlders to the point that we're minorities in our own countries and have no political power, since it's all been given by people who have no concept of or allegiance to our country, but instead to the leftist party, the majority of the donations to which, and therefor is controlled mostly by, Jews. i am tired to even speak about the idiocy of the comments i read. cry babies. women are women and men are men. you cannot call something from the past sexist based on the norms we have today. and honestly? said it before will say it now too. f off cancerous new wave feminists. cause of you men' chivalry is dead. in a while you will start peeing standing. i give 0 fucks for being like a man. we have our differences in strengths and weaknesses. what i know is that i am a ceo and the western society has all the rights it needs for both genders. when women work well they get rewarded. when i see emotional cry babies in my work causing constant drama i fire them. and then they call me hard like a man etc. equality bitch just like you asked for it. you are clueless if you think we got the right to vote for any other reason than being taxed. cause world was set up for milleniums by and for men. things change, life evolves. all good and we should be happy. but no, we will always have to whine . now not just for imaginary issues in western world between sexes, but about the past too. "why didnt the guy fix his own damn coffeeee?? " for the same reason you <b>dumb</b> bitch didnt fix the light bulb. grow the f up, there is <b>nothing</b> wrong with diversity , i laugh too much when i see a metro-sexual man who looks like a <b>woman</b> equally to laughing at a <b>woman</b> who sits, walks, behaves like a man. whoever wants to alter the nature of things do it but you cannot f force the whole society to follow. idiot feminists of this decade are turning men away and make them be f dicks. i enjoy my life perfectly by being a strong <b>woman</b> making excellent money with my career but also taking care of my man. if that is sexist for you then enjoy your cats . No. 10 has subtle <b>sexism</b> in the woman's apparent shame when her husband says "Your coffee really is murder!" She should've just told him to make his own goddamned coffee. No. 9 isn't really "sexist," though it does assume only men bought tires (which may well have been true in those days). What it does do is appeal to the male instinct to protect his mate, and I'm not sure that's "sexist" in the negative sense.The rest of 'em — yup.	Sexism	Gender - General	1/82	1.22
Why tf this <b>nigga</b> cryin	Nigga	Ethnicity - Black	1/5	20.0
Today's commercials are more sexist than they were then. Most of these were trying to be silly. Just like commercials are now. Most women worked in the home back then. They were who saw these commercials. They were supposed to be funny and catchy to housewives. Women then were essentially managers of the home and they did a great job at it. That is <b>nothing</b> to be ashamed of. It's not easy to properly manage a household. My grandmothers home was kept hotel clean. We rarely ran out of anything. She prepped all the meals did all the purchasing and day care. There is <b>nothing</b> sexist or demeaning about doing one of the hardest jobs, without a day off or even an hour off. You're always on duty. I know this because at 40 I became a stay at home dad. And I suck at it. Try if you can. You'll realize women were stronger, smarter and more capable than most are now.	Nothing	Age - Youngsters	2/163	1.227

There is no question that there were some stereotypes being taken advantage of to make a point in the commercials and I'm dam sure life wasn't perfect back when. So by posting this are you suggesting that there are no stereotype these days? No commercial now would dream of belittling a <b>woman</b> , No they are all superhuman out there saving the poor little man who is to dump to figure out which insurance to buy, and so on. How's that working out for the good <b>old</b> USA. Respect isn't in such short supply that there is only enough for one <b>sex</b> at a time. If your point is that these commercials are denigrating, and they are, then you should understand that people where being made to feel less worthy. Not <b>woman</b> , not Blacks, or Chinese, not people with long hair, or <b>red</b> hair, not people with freckles, or a stutter; just people, and when anyone is degraded, we are all made smaller. So if you don't like what happened , I agree unfortunately it did, but the past is hard to change; it is useful though if we learn from it, and we could do something about how each of us treats the people in our worlds today. So how are you doing with that?	Old, Red, Sex, Woman	Ideological and Political Identity - General, Age - Over 65s, Ethnicity - Native-American, Gender - General	6/215	2.791

<p>The preponderance of comments here show complete ignorance of the <b>sexism</b> that existed throughout most of the 20th century. My mother was denied her divorce petition by the judge, who said "and how will you be able to support your children?". When I was 19 and working at a major food company that paid for its employees to go to school, I was turned down for photography because "a girl wouldn't be able to carry the equipment". (My super-slender <b>gay</b> guy friend was approved for the same class). Our classified ads were divided into "Help Wanted: Female" and "Help Wanted: Male".</p> <p>The female pages were entirely filled with secretarial and waitressing jobs. In high school, I wanted to play the drums for my music curriculum. I was told "you can't play the drums – you're a girl!" When I was 18 I went down to the newspaper to sub for my 13 year <b>old</b> brother (who managed a newsstand) when he was sick one day. The cigar-smoking circulation manager and a roomful of boys laughed me right out..</p> <p>"imagine, a girl selling newspapers! hahaha!" I had many jobs – and all of them had male bosses. I never even saw a <b>woman</b> doctor, dentist, or cab driver (to name a few) until my late 30's. Men were pretty much given free rein to beat their wives. In many cases, a <b>woman</b> couldn't make a major purchase without her husband's signature. I haven't even scratched the surface to give you an inkling of the discrimination females (of any <b>age</b>) faced every single day – I just wanted to list a few instances off the top of my head. It is an entirely different world today for females, who can pretty much do anything they want to do, and are not pressured by society to wait on men hand and foot, and to "shut up and look pretty".</p>	Age, Gay, Old, Sexism, Woman	Age - General, Age - Over 65s, Gender - General, Sexual Identity - General, Sexual Identity - Male homosexuality	7/316	2.215

<p>I directly contradict your <b>racist</b> sexist thought. Never had a dmv ticket EVER, been driving for 12 years. None of the women or men in my family have ever had a ticket either (all clean driving records, no crashes or tickets in all our years of driving). We're all Asian. That's a stereotype that was created in the 70's-80's by stand-up comedians/movies, maybe earlier (the bad asian driver stereotype, they claimed it was due to having "slanty eyes"). As for the bad female driver stereotype, that came probably when cars were invented: women were expected to stay home back then w the kids, men would often drive their wives to places instead. It was a way of controlling where they went, hence "bad female driver stereotype" became a thing as a consequence of them not driving as often, as they were expected to stay and care for the household.</p> <p>But women, and any <b>ethnicity</b> drive the same as everyone else, it depends on the INDIVIDUAL PERSON...skin-color/sex has <b>nothing</b> to do with it. But a damn fact in life is that you ARE sexist, and <b>racist</b>. And only sexist and <b>racist</b> people say something sexist/<b>racist</b>, then say they are NOT sexist/<b>racist</b>, when their beliefs about others prove otherwise.I can't saying something like, "All Whites are the KKK, that's just a fact of life." and not be <b>racist</b>. Ruby Hypatia I guess the last quote is questionable, but other than that I don't see how is it worse than feminists' videos and discussions you can see on the internet. Both parties may be making unfair generalizations and both are pumping up for the hatewagon because of which <b>nothing</b> good will happen, only weakening of the society as a whole.Censoring stuff like this is a bad idea though. Simply because not being able to express yourself will only make your hatred even bigger. And the information someone could pull from those videos would never be put to an actual good use; it's a waste of someone's experience. Because you don't have to agree with the person entirely to draw some conclusions from their opinion pieces, yourself.	Nothing	Age - Youngsters	1/128	0.781
turbotrup96 All those quotes are questionable. Seriously? Women running amok? He doesn't like women having the same freedom as men. Ruby Hypatia Of course, if you are going to quote his words without context, or if political correctness is all you care about, anyone can hate him. The problem is that feminism goes much further, which is why such male groups go far as well. But you just kinda came out as proving you just want revenge for the lack of freedom that btw you always had during your lifetime anyway...Okay, so rape and murder is a domain of men, but caring more about opposite <b>sex</b> than ourselves, seems to be also our domain, as suicide ratio, death rates during work and homelessness is much bigger on men, for instance.The fact that feminists don't see this and think they live in some extremely unequal world for their <b>gender</b> , is funny to say the least. Homeless women are more likely to stay with friends and family, and therefore are less likely to be counted as homeless. Women are still more likely to be in poverty. No, your <b>gender</b> isn't anymore selfless than women are, don't flatter yourselves when there's a <b>misogyny</b> problem among humanity. Yes, this is just so much worse than our modern times where pop culture, rap and hip-hop music refer to women as Bitches and Ho's. Where we willingly import middle eastern immigrants that culturally and religiously treat women like personal property. Cutting off their clitoris so they can never experience <b>sexual</b> pleasure. Honor killings of women for the slightest perceived insult or imagined disrespect. The 50's and 60's American attitudes were just so much more horrific than any of these modern times treatment of women.	Sexual	Gender - General	1/85	1.176
The results of the feminist movement pleased the female activists, who incidentally were a minority among women. But, the majority of women lost out once they were no longer treated unequally in their favor. Inequality has two sides, and does not always mean adverse discrimination. In the <b>old</b> days women could expect protection, financial support, the kids, the property and everything else in perpetuity; and all at the male's expense. Ok, so some women don't need that. It's true. Some don't even want it. But deep down everyone knows that being treated on the good side of inequality ain't a bad thing.	Old	Age - Over 65s	1/102	0.98

<p>Tony, most men cannot possibly understand the frustration of intelligent and well-educated women when faced with <b>sexism</b> in American culture. I didn't get a 50 cut in my college tuition when I earned my engineering degree (late 1960s), but I was expected to accept 50 of the salary paid to the kid at the drafting table behind me with a vocational-technical certificate from high school. I was expected to endure the patronizing pats on the head by chief <b>engineers</b> when, protesting the salary inequity, I was told not to worry, that some man would marry me and take me away from all this.</p> <p>I couldn't get a charge account unless my father agreed to co-sign it, although my landlord expected his rent from me, as did the light company, the water company, the gas company, and the grocery store. I couldn't buy a car without my father's consent, although I was <b>old</b> enough to vote. A <b>woman</b> who got pregnant out of wedlock was at the mercy of her boyfriend's decision whether or not to marry her—and, if she chose to sue for child support, all he had to do was find 3 friends to say they took turns with him that night and he was free and clear of paternity. My life is NOT circumscribed or determined by the men in it. I love my father, who encouraged all that independence—which was unheard of for a girl of my day or a father who was Eastern European by <b>ethnicity</b>. Women of my generation revolted against such inequity, and rightly so. What man would tolerate second-class citizenship like that which women endured? What father worth the name could possibly stand by and watch that happen to his daughter without rising in righteous anger at a society that would permit it?</p>	Engineers, Ethnicity, Old, Sexism, Woman	Age - Over 65s, Ethnicity - General, Gender - General, Nationality - General	5/300	1.667

Well when the guys face losing 50 or more of their assets as she can claim loss of future earnings as well, they built up over decades because the relationship fails after 2 years and they will lose their kids many have grave doubts.No this has not happened to me but I see it with my friends. As a result guys will keep relationships superficial in the future and women will decry the lack of serious guys out there. It's hard to imagine, really. But that's speaking from our current perspective. Which view is right? <p>How to Deal With a <b>Woman</b> When She Says "Excuse Me?" "I Beg Your Pardon?" Etc.Hi. I'm Professor Cos. When a <b>woman</b> responds to something you say to her with "excuse me" or "I beg your pardon" or any type of "how dare you" tone, let her know that whatever effort she put into making her shrill shrieking <b>woman</b> voice sound stern and threatening only makes it sound cute. Let the cunt know that you won't be reconsidering what you said, nor will you be correcting yourself, or apologizing. This broad is just exercising her sense of entitlement and expecting you to correspond. This jaw dropping state of being appalled, is an expression made by women who have never been taught that respect is earned. She can't possibly believe that a man could ever talk to a <b>woman</b> like that.Unlike men, who live in the real world where anything can be said to anyone at anytime, and for any reason, most women think that the rules on what not to say to a "lady" shelters them from anything that shouldn't be told to a "lady". They also seem to think that the female <b>gender</b> is installed with some type of anti "don't talk to a <b>woman</b> like that" software. And this is why it's very important to talk to women "like that". Be a <b>chauvinist</b>. Be a <b>misogynist</b>. Be disrespectful. Speak in ways that offend women. Treat women like sperm receptacles. Refer to women as sperm depositories. Use women like human toilets. Knock those semen extractors off their pedestals.You see, when a cunt knows that you're not someone that can be shamed into respecting anything just because it has a vagina, that demanding "empowered" attitude either takes a backseat or goes right up her backside where it came from. Unless a bitch is willing to learn the hard way that you have no problem slapping her or knocking her out, she doesn't give you the "excuse me, don't talk to a <b>woman</b> like that" cuntfrontation.Now, it's one thing to acquiesce out of fear, and it's another thing to try and put someone in their place only because you think they might acquiesce to you. Have you noticed that feminists don't make much noise when middle eastern migrants start running amok on bitches? They don't dare confront those men because they know that those men will drag them by their necks and turn them into <b>sex</b> slaves. They get up in western men's faces because they are used to western men being pussies and apologizing for anything that a <b>woman</b> gets offended by. Women only have as much power as men give them. Women's empowerment relies on men's weaknesses.From my observation, the same women that say "excuse me, don't talk to a <b>woman</b> like that" to a guy that would acquiesce to them, are usually the same women that acquiesce to men that they know will clobber them half to death if they get up in those men's faces. I've seen so many women who were with men that treated them like shit, demanding respect from beta males while those poor suckers nodded obsequiously, thus providing those weak females with a false sense of empowerment. I've also seen women who listen to rap music telling men not to treat women like <b>sex</b> objects, while they themselves were dressed in tight clothes. By the way, these are the same types of women that bitch about why women get shamed for sleeping around!Since these women aren't respectable creatures, the only way they can get anything close to respect is to demand it from</p>	<p>Chauvinist, Gender, Misogynist, Nothing, Red, Sex, Woman, pussy</p>	<p>Ideological and Political Identity - General, Age - Youngsters, Ethnicity - Native-American, Gender - General, Nationality - Chinese</p>	<p>17/1112</p>	<p>1.529</p>

<p>Mother Nature Is A Chauvinistic Pig. Hi I'm Professor Cos. THUNDER CUNTS!!!</p> <p>Have you noticed that men don't need to say things like "I can do anything a <b>woman</b> can do, and do it better, and do it in briefs"?! Ladies, nature doesn't care that you understand politics. Nature doesn't care that you can do anything a man can do, and do it better, and do it in heels. As a female, you shall be sought after for reproductive purposes, in other words, <b>sex</b>. As long as you're somewhat <b>sex</b> appealing, the very first thing a man cares about is figuring out how to get you to put your left leg by the 12, and your right leg by the 3. It's the card nature dealt you, therefore deal with it. Don't take it out on men, and don't shoot the messenger. Men didn't choose human biology any more than you did. You are a sperm receptacle, a sperm depository, a human toilet.It's also very interesting how we call nature "mother nature" (I suppose for the sake of "empowering" women), yet we have feminists saying that nature is sexist, while women are bitching about the nature of things and blaming it on men! Bitches...</p> <p>Nature is supposedly female! And I guess she likes things the way things are! Like women, Mother Nature is a control <b>freak</b>. Hey, "women are smarter than men", right ladies?! Mother Nature knows what she's doing! "Leave her alone", right ladies?! "Don't talk to her like that", right ladies?! "Don't be mean to her", right ladies?!</p> <p>Ladies, she wants you to shut the fuck up and get back in the kitchen! Then she wants you to unzip my fly and start gobbling! That right darling, on your knees you bitch!Men can only PRETEND to see you for more than what you are in order to comfort your penis envy and avoid the wrath of gynocentrism because they are terrified of being called misogynists and "not a real man". Female animals and female flowers don't get to choose what role to play. They get pollinated and impregnated and they reproduce. Then they die. There's <b>nothing</b> you can do about it. But on the bright side, "women live longer than men", right ladies?! Here's the thing... Unlike men, who grow in gravitas and become more prominent with <b>age</b>, women just become dried up <b>old</b> prunes, over the hill turkey necks, and used up semen samplers. So what I'm saying is, you might as well be dead, you <b>old</b> bag!Not to mention, no amount of money a <b>woman</b> has will get her <b>sex</b> if a man has no interest in giving her the high hard one. No amount of social engineering will make anything better, it will just make it worse like it's doing right now. "Where are all the "real men", right ladies?! They've become a bunch of submissive, whimpering, feminized beta males. But that still hasn't stopped them from wanting to fuck you DIRECTLY in the <b>pussy</b>! So the feminists haven't managed to change the nature of things because you're still a walking sperm bank. All those idiots managed to do was reduce the masculine qualities in men and delude you into thinking that men are sexually attracted to you for your career and your blabbing and your interests and hobbies and how many "guy things" you can do. Ladies... You are the fuck-EES!!!And guys: Since women know so well how much we suck at pickup lines and making small talk, let them be the experts since they're so superior. Ladies, I thought you were smarter than me and had this thing all figured out already! Ladies, plants grow up, reproduce, then die. Animals do the same. What makes humans any different?! Everything around us is to accommodate and distract us while we reproduce, or engage in the act of reproducing. This is why I want to thank the disney company and all these pop culture icons for turning women into brainless sluts! It's disappointing to know that you ladies haven't given life much thought beyond your glamorous fantasy and fairy tales. No wonder men are happier than women! We understand, and are more than satisfied with life being about eating, drinking, sleeping, pissing, shitting, and having <b>sex</b>! Those are our main needs! So what makes you think we need to talk to you?? Ladies, the only reason we talk to you is because we want to fuck you DIRECTLY in the <b>pussy</b>! <p>Penis Envy... And Why Women Have It</p> <p>WARNING: THIS ESSAY CONTAINS CHAUVINISM!</p> <p>Hi. I'm Professor Cos. Women seem to think that they can change millions of years of hardwired instincts just by doing everything men do, and then shoving it in men's faces as if that proves something. Yes ladies, you really showed us!</p> <p>You sure taught us a lesson! These <b>dumb</b> little harpies have no idea that all this chauvinism that they're bitching about, is simply the result of them being hoisted by their own petard. Throughout history, all a female had to do, was make her vagina available to the alpha male that she wanted to breed with. Males don't require females to provide for them or their offspring, they are just wired to impregnate females. And in order to be able to gain access to females, men had to have qualities of power and strength. As a result, women never developed themselves into anything interesting beyond being sexually desirable.</p> <p>If you look at activities and forms of entertainment that are derived from female creativity, you will notice that almost everything women do to make themselves interesting to men is done either in a <b>sexual</b> way, or to make themselves the centre of the universe. Men aren't wired to give a fuck about women who emulate the things that men do. So when a bitch is busy trying to show men how interesting she is, men are busy considering their chances of getting her on her knees so she can unzip their fly and start worshipping. Shortly after worshiping a man's penis and ingesting his semen, she will start bitching about how guys are creeps who just want <b>sex</b>! This is why I love being a guy!</p> <p>Because women are attracted to men that are better than them, they can't help but be led by their hypergamous nature. But not too long after fulfilling their hypergamous objectives, they run into one little problem. You see, because they managed to attract men with their vaginas, or because the men attracted them with their masculine qualities, they quickly realize that they are just decorated sperm depositories that men get to enjoy as a result of developing themselves into attractive individuals. So that of course leaves women feeling inadequate. The same way these women ignore and overlook men they think they're better than, and because women don't understand cause and effect, they fail to realize what will eventually happen when they attempt to bring men down to their level or one up them.</p> <p>As soon as a bitch starts bitching about <b>gender</b> roles and demanding to be an equal, it's time to dropkick the cunt straight through the uprights. Because if you don't, she's gonna continue challenging you until you give in to her nagging and caterwauling and allow her to overpower and control you. And once a <b>woman</b> gets herself in a situation where you're no longer in control, or where she starts to feel like she's better than you, she will start to become bored with you, and, or, lose respect for you. The novelty of you being that powerful man that attracted her to you will be gone once she accomplishes her mission of emasculating you or turning you into a beaten dog. Now that you know women hate themselves, also understand that it's not their fault. Women are just naturally fussy and dysfunctional. <p>Ladies... You Are The Fuck-EES. (but I have so much more to offer, right ladies?!)</p> <p>There's a reason why women weren't generally created as "brainy" creatures. After all, even smart women have to try extremely hard to think logically without concluding with emotional rationale! Estrogen is a hell of a force. Try taking testosterone without using estrogen blockers. Before you know it, you'll be growing tits, wearing pink, watching makeover shows, and baking cupcakes. That being said, ladies... I forgive you for being idiots!</p> <p>Hi. I'm Professor Cos. Today ladies, let's have fun! Repeat after me: "Ummm"! "Oookaayy"! "Soooo"! "Like", "OMG"! Alright, now shut the fuck up and listen!</p> <p>Ummm, ok, so like, OMG, this bitch is in like her 50's and she just like found out that if a <b>woman</b> doesn't want to like have <b>sex</b> with a guy like right away, he will just like, bugger off and like look for a <b>woman</b> who is like interested in like having <b>sex</b> with him like right away. Like omg really?! Guys are <b>pigs</b>! Well duhh! And she goes on to ask, "is <b>sex</b> all I'm good for"?? Man I love being a guy!</p> <p>Cunt, in terms of biology, women are sperm receptacles, sperm depositories, human toilets. Men are sperm donors. Men are the fuckers. Women are the fuck-ees. So yes darling, take your vagina out of the equation and horny heterosexual men have no reason to talk to you!</p> <p>Guys don't want to sit down over a candle lit dinner and get to know you. Darling please! Maybe after we bang you and we think we like you. The dining and dating is just a time filler to delay the inevitable. That's what guys tell you because you won't understand why he just sees you as a very suitable place to deposit his sperm. What better place for a man to deposit his sperm!</p> <p>Charging a man a depository fee (being a <b>sex</b> worker/needng him to have a good job/needng him to be "generous"...blah,blah,blah) makes the fact that women are ideal sperm depositories all the more true!</p> <p>A man's ideal <b>woman</b> is a <b>woman</b> that transforms into a six pack and a sandwich once he ejaculates. The only reason why guys get good jobs is to get more places to deposit their sperm. So modern women are technically prostitutes! It's a lot easier to fuck a drunk slut or hood rat hoochie who will do you for free no matter how broke you are!</p> <p>So if you ever find yourself asking: "why would he cheat on me with that ugly skank"? The answer is: She got on her knees at the drop of a hat. Actually, her knees hit the ground before the hat! Then she got to gobbling, then she got to guzzling, then he pulled his pants up and went on about his business. No sandwiches were needed that time. Indeed none were served.</p> <p>Seriously ladies, If a guy wants to hang out and have fun and joke and talk about politics and issues and important stuff, he hangs out with his buddies. A guy doesn't want that from you. So stop trying to be more than what a guy really wants from a <b>woman</b>. A guy wants you to cook him his meals, iron his shirts, and fold his socks. And don't forget to lick and suck anything that he wants to be licked and sucked. Don't wait for him to ask! Oh, and remember to shut the fuck up. Please don't make him have to tell you! He knows just how important your feelings are and how detrimental his honesty is to your "self esteem"!</p> <p>Women's "self esteem" is based on vanity, compliments, and male attention. <p>What Kind Of <b>Woman</b> Did You Dickheads Expect To End Up With? Hi. I'm Professor Cos. Among the many places you can find men, you can guarantee to find them in jails, in warehouses, in homeless shelters, in the back alleys smoking crack, or in sleeping bags outside of 7 eleven. Many more of them are in their graves after committing suicide. These were the "happy wife, happy life" buffoons, and the Homer Simpson simpletons of the western world.Guys, if you are living the western lifestyle, you are most likely going to get women who are influenced by the images portrayed in western culture. And you are most likely going to get the worst of the worst. In fact, you buttheads are so brainwashed and naive that you'd be lucky to get a <b>woman</b> that's even half as decent as the cunts you get fucked over by.As a 32 year <b>old</b> male, I'm disgusted with the lack of dignity and self respect that men have. First, it's almost impossible to meet a group of young men who have anything to talk about that doesn't involve cars, sports, female celebrities, and how much money some other person is making. And when I do meet guys who have interesting things to talk about, they have almost no knowledge of the way women are, and how to deal with women other than the information they got from the media, or from women who tell them what women want. These are the same men you will hear bitching about the way women are, as if they can do any better. These are also the same men who turned themselves into human toilet paper for women to wipe their asses with.<b>Nobody</b> is gonna hold your hand and guide you to the right <b>woman</b>. That's what life skills are for, you thick headed invalids. If you decide to date a <b>woman</b> who watches daytime talk shows, reads women's magazines, and is invested in pop culture, don't bitch about her mindset. That's what you signed up for. SO WHAT if she cooks and does your laundry?! And if you or she thinks that the key to a healthy relationship is to simply not be like the "other bitches", and that you can just toss your feet up and live in blissful ignorance while she has absolutely no sense of self awareness, you're a disaster waiting to happen to yourself.It is YOU who chose a <b>woman</b> who has <b>zero</b> understanding of your perspective and fails to see anything from a man's point of view. And it is YOU who is responsible for it as a result. But like the coward and the <b>pussy</b> whipped nimrod that you are, you blindly tolerate her irrational state of mind, and accommodate whatever ditsy qualities she has, until there you are pounding your fists on the table because she has no communication skills and no insight whatsoever. Many of you <b>dumb</b> suckers just won't admit that you are clueless and are at the mercy of a <b>woman</b> understanding you, let alone being reasonable with you. You can't trust your good judgement because you have none. And the reason why you have none is because you haven't trained yourself to have any. And the reason why you haven't trained yourself to have any proper judgement is because you've always chosen women with your dick and not your wisdom. Wait, you have no wisdom, and the reason why you have no wisdom is because you're a dickhead.Now ask yourself... How does your <b>woman</b> dress? How does she talk? How does she walk? What types of women does she idolize and, or keep company with? <p>Why Men Pay The Bigger Price Of Admission... Then Bitch About itHi. I'm Professor Cos. A man will become somebody in order to qualify for a <b>woman</b> who demands him to be somebody in order to be with her, while he just needs her to look good, have <b>sex</b> with him, and cater to his ego. Then without realizing how stupid he is, he will be expected to be monogamous to this <b>woman</b> who now no longer needs to look good, have <b>sex</b> with him, or cater to his ego, now that he's locked in a contract. So he becomes a slave who must continue to be the man that he's expected to be, while tolerating whatever type of treatment he gets, and complying with whatever demands are made.That same man will bitch about being nagged and treated like an ATM even though he volunteered for the position by being a brain dead, dick thinking simpleton that bases his masculinity on female approval and fulfilling his societal obligation.Because a man hardly uses his brain when it comes to dealing with women, he doesn't realize that his dick and his ego are preventing him from realizing that he's just a 2 legged mule that has been deluded into thinking he's a hero or a "family man" for being a 2 legged mule. His desperate need for being looked at as a man that women admire, and as a man that is strong and capable, will weaken his spine and drain him of his dignity. A man sees getting a <b>woman</b> as an accomplishment, while the ego boost he gets will prevent him from seeing that he had to do all the work to get this <b>woman</b>. He doesn't respect himself enough to see that all he's doing is earning the privilege of being with someone who expects to benefit from being with him, while demanding him to live by her rules and be financially responsible for her after they breakup.That same man will bitch about his <b>woman</b> being unreasonable and irrational even though he was stupid enough to not realize that living by the "happy wife, happy life" code, and "picking his battles" meant that he was with a <b>woman</b> who was emotionally retarded.While it's part of human nature for men to be attracted to fertility and to think with their dicks, and for women to be attracted to power and strength, men don't hold themselves to any standards as far as self respect. Actually, a man will create his standards based on what a <b>woman</b> considers attractive. So he will earn money and create a lifestyle that attracts women, only to have it co opted by women. He will put so much value in the outcome of his efforts, and <b>zero</b> regard for the fact that he is paying the price of admission. See, even if a <b>woman</b> has her own money, she still expects a guy to either have more money than her, or at least jump through some hoops. Unlike a man, a <b>woman</b> is hardly satisfied with a person who is good looking, has <b>sex</b> with her, and caters to her ego. Keep in mind that I'm talking about general prerequisites here, not specific details.Being good looking, having <b>sex</b> with someone, and catering to them, are not skills that you have to spend years developing, they are just things that you're born with and things than you can simply do. So when a man spends the first half of his life creating himself into someone just to be eligible to be with someone who just had to be born good looking enough to be eligible to be with him, it's almost impossible for me to feel sorry for him when I see the knucklehead spending the second half of his life</p>	Old, Sex, Woman, Zero, pussy	Age - Over 65s, Age - Youngsters, Gender - General, Nationality - Chinese	18/948	1.899

<p>Why Do Women Feel Used After One Night Stands, But Men Don't?Hi. I'm Professor Cos. As you may or may not know, a female's primal function is to serve as a sperm depository for the production of new life. And in order for a female to naturally reproduce with a male, she must submit and allow herself to be penetrated, thereby making her the fuck-ee! Now, is there anything dehumanizing about that? Well, put it this way, I prefer to be on top! However, something about the reality of a female's biological role doesn't seem to sit quite right with the wimmins! Being the insensitive troll that I am, I plan to get to the very bottom of this in the most chauvinistic manner possible! MAN I LOVE BEING A CHAUVINISTIC PIG!!!Because women don't spend much time analyzing the reality of nature, thanks to disney, and hollywood, and in touch weekly, and entertainment tonight, and glamour, and cosmopolitan, and the oscars, and the emmy's, and the golden globes, and female talk shows, and fashion, and shopping, and shoes, and hair, and makeup, and much much more, they tend to live life in their imagination and through their emotions. As a result of living life as mindless dingbats and emotionally retarded women babies with golden uterus syndrome, women end up becoming emotionally superior and more spiritual than men!Since women are under the impression that men choose mates the way they do, they become deluded into thinking that they're perceived by men as "one of the guys", while being a beautiful, superior, sacred lady that can "create life", that a man must bow and scrape to. Then when they begin noticing that men and women are perceived differently, they become terribly disenchanted and start expressing their displeasure for the reality that they perceive as chauvinism! What's more, they get in touch with their "inner beauty" and start demanding men to see women as equals and to want women for more than <b>sex</b>!Wait a minute... I have a few questions!!If women are so superior, then why would they feel the need to be acknowledged by their subordinates as equal to them? If anything, it should be the other way around! But it isn't the other way around! If women are good for so much more than <b>sex</b>, then why do they have to demand men to want more than <b>sex</b>? Men wanting more than <b>sex</b> should be a given, don't you think? Furthermore, the problem with men only wanting "one thing" would of never existed! So why do women feel violated by men who just have <b>sex</b> with them and leave? Stay tuned as I answer my own questions!You see, when women first become aware of their biological function, they get carried away after developing a severe case of golden uterus syndrome, which prevents them from understanding the male biological function. The male biological function not only gives women a hard dose of reality, no pun intended, but it causes women to see their female biological function in a different light, meaning, without their false sense of preeminence and inflated sense of divinity. That's when you hear women trying to shame men out of their natural instincts by calling them animals and a bunch of primal, primitive blah blah blah, which we are by the way, and very happy to be!It's pretty obvious that these miserable bitches don't have a problem with "primal instincts", because they exercise their female primal instincts religiously. <p>Why Do Women Feel Used After One Night Stands, But Men Don't? Pt. 2Hi. I'm Professor Cos. It's not hard to see that women want to use men without being used.</p>	<p>Sex, Woman, pussy</p>	<p>Gender - General,</p>	<p>25/1126</p>	<p>2.22</p>
<p>But it's impossible for a <b>woman</b> to use a man without his male primal instinct reminding her that she's a sperm depository! So even if she manages to use a man for his money or any other resources, she was counting on his male primal instinct, which makes him see her as a sperm depository! Should a <b>woman</b> decide to prostitute herself or have a one night stand, she can only do so if the man sees her as a sperm depository! A man can't really be used for <b>sex</b>, and even if a <b>woman</b> thinks that all some man is good for is his dick, his male primal instinct is what causes him to reciprocate by having <b>sex</b> with her, which means he most likely just sees her as a sperm depository!By using the word "used", one is implying that whatever they're being used for is their prize possession. Women can be used for their money by some mooch, and they can also be used for <b>sex</b>. Men can just be used for their money. Imagine a <b>woman</b> knowing that you got with her just to bang her and spend her money. That would be a double whammy! Unless a man is delusional, he knows he's being used for his money, but he's ok, so long as he's getting to fuck her right in the <b>pussy</b>. By banging the bitch, he isn't giving anything away except money, which makes the <b>woman</b> he's with a prostitute. She's getting his money, but she's being used for <b>sex</b>. Now imagine a <b>woman</b> getting with a man because he has money, then ends up spreading her legs and never gets any money. She will feel like she got something taken away from her.So what exactly makes a <b>woman</b> feel this way?Let's say a fish ate your bait without biting your hook. That fish doesn't want to be with you, that fish doesn't care about you, that fish just wants your bait. Likewise, you don't care about the fish, you're not really trying to feed the fish, you just want to eat it. A <b>woman's</b> primal instinct is to use her vagina as bait to hook a man into commitment. That <b>woman</b> doesn't care about the man, that <b>woman</b> doesn't care about his <b>sex</b> life, she just needs to fulfil her biological objective. By the same token, that man doesn't care about her, nor does he give a rat's ass about her financial situation, he just wants some tail. When that man ejaculates and goes on about his merry way without paying any money or getting her pregnant, he gets the bait without getting hooked, which leaves her feeling used, even though she was trying to use him! This is why women try to redeem themselves by falsely accusing men of rape.Women manipulate men into relationships they don't want to be in by using their vaginas, which is the only thing they're good for. Willing participants don't need to be manipulated, so the fact that women have to manipulate men should tell you enough. A <b>woman</b> feels entitled to compensation after a breakup because she's parting with a man who got to have <b>sex</b> with her in a relationship that didn't work out in her favour.</p>		<p>Nationality - Chinese</p>		
<p>Instead of admitting that she hates the idea of a man getting away with all that free vagina while she has to go look for another sucker, she rationalizes by saying things like, "I spent time taking care of his kids or tolerating his crap". Sure! Assuming that's the truth, what makes her think that her crap wasn't being tolerated, and who afforded her</p>

<p>When Feminism Reigns, It Poors.Hi. I'm Professor Cos. Ladies, if you build something strong enough to work for you and against others, what the fuck makes you think that that same power won't be a force to reckon with when you try to work against it! If I build a brick wall to prevent you from entering my yard, it will also prevent me from entering your yard! LOL logic ladies, LOGIC!!! Women think feminism is something they can just "stop wanting", and that it will just go away simply because they stop wanting it! Dummies, if it was that easy to destroy feminism, then feminism would have never been able to destroy men!These gynocentric female men's rights activists are trying to "fight" feminism. Yea, they're gonna need the luck of every single Irish with a horseshoe up their ass. And with all that luck, they might only be able to get through to some open minded female students or get some feminist housewives to stop calling themselves feminists. In other words, they're not fighting "feminism" in a million years! The same feminists that these women are trying to "fight" are the same feminists that these women allowed themselves to unfairly benefit from. These are the feminist lawyers and judges and politicians that gave women their social advantages over men. Ladies, these are the feminists that will ensure that your sons get ripped off in divorce court and get falsely accused of rape and lose access to their kids.What's even more disgusting, is that many of you harlots are not even bitching about how unfair feminism has been towards men, you're bitching about how it's affecting your own lifestyle and happiness as a <b>woman</b>! Knowing your own nature as a <b>woman</b>, were you really expecting feminism to end as soon as women got equal rights? Knowing your own nature, you should have known that women are NEVER satisfied! Women will ALWAYS think that they don't have enough rights! As a proud feminist, I think women still need feminism!I don't want feminism to go away, I want women to get a taste of their own medicine. I don't want women to be independent, I want women to depend on feminism. I don't want women to have equality, I want women to be privileged to their own detriment. I don't want women to act like adults and be reasonable and considerate, I want women to cuntinue being infantilized and cuntinue being selfish, emotionally retarded snack pack throwers. They had no problem benefitting at the expense of men, and now they're paying the price. It's affecting women's dating lives as well as producing more personality disordered campus feminists. And I couldn't be more proud of the results!What can I say, I get great joy out of watching women self destruct. As dangerous as feminism and gynocentrism is for men, I want women, especially the women who showed no concern for men, to watch helplessly as their sons, brothers, fathers, grandfathers, uncles, and any other men they care about get destroyed by the system they supported with their own self interest. I won't be surprised if the current backlash escalates to the point where blood gets spilled and women start getting randomly murdered.Btw, have you noticed that women have become both wage and domestic slaves? As I was pacing around the kitchen one morning waiting for some water to boil, I started thinking about all these western women that are trying so hard</p>	Woman	Gender - General	3/698	0.43

<p>Men Should Be Prostitutes And Charge Women For Conversation. MGTOW (men going their own way) is the primary cause of the ubiquitous articles about men being little boys and refusing to "grow up" or "man up". These <b>dumb</b> bitches are oblivious to the fact that they are turning into <b>frog</b> soup. They are so involved in the <b>woman</b> world and stuck in their state of delusion and entitlement that they have no idea what is actually working from the inside out. But it's perfect synergy if you think about it!Hi.</p> <p>I'm Professor Cos. Every day I hear a bunch of aging broads who missed the boat saying that they can't find a "real man" or get a man to "commit". Ladies, you can find them at any one of the following locations... Family court, divorce court, jail, homeless shelters, or on a yacht with some hot 23 year olds. These women still think they have options like a 21 year <b>old chick</b> and are complaining about broke guys and guys who only want "one thing"... As if they can do much better than that! They have no idea that they're swimming with the other frogs in water that's slowly starting to boil.</p> <p>"Women against feminism" is an example of the frogs jumping for dear life to escape the covered pot of hot water. I can't wait to see how this is gonna play out!Guys, if you're with a <b>woman</b> that thinks men should be "gentlemen"... D.T.B.. DUMP THAT BITCH. And the reason I don't take women on "dates" is because I generally just bang hoodrats and baby mothers and nymphomaniacs and skanks. In fact, every bitch I bang thinks I'm funny and cool and smart and likes how witty I am.Here's my attitude... My company is more valuable than a <b>woman's</b> company because I just need <b>sex</b> from her and she enjoys a lot more than just <b>sex</b> from me. Plus she actually enjoys <b>sex</b> from me more than I enjoy <b>sex</b> from her! I don't find her funny or cool or interesting or "amazing" the way chicks find interesting guys. An interesting <b>woman</b> to a man is a <b>woman</b> that comes equipped with a remote control that has a transform button, a mute button, a food and beverage button, a multiply button, a multitask button, and a timeout button. A transform button for when he wants to turn her into a younger <b>woman</b> when she gets <b>old</b>, or into a new bitch when he's tired of banging the same <b>old</b> broad, or into a big screen when he wants to watch the game... A mute button for when he wants her to shut the fuck up... A food and beverage button that automatically puts her to work in the kitchen... A multiply button that can turn her into multiple bitches... A multitask button for when he wants her to iron his shirts, make his breakfast and give him his morning blow job all at once, and a timeout button for when he wants the bitch out of the house.You got all these "cool girls" trying to talk to us and become "one of the guys" and get involved in all the cool shit guys are doing. And most guys are just doing women favours by listening to their boring stories and pretending to be good listeners. So guys, if a <b>woman</b> wants to spend time with you that doesn't involve <b>sex</b>, she has to pay! Bottom line. I'm a guy! I have all the swagger and charisma that she enjoys. And I'm obviously smarter than most women. Plus I don't ever look at a <b>woman</b> and go, "man"! "I like her style"! I wish I was just like her! <p>Advice For Women Who Want To Find The Right Guy Before Having <b>Sex</b>Hi. I'm Professor Cos. There is a very good chance that whoever is reading this, is a misguided, misinformed, delusional western <b>woman</b> who thinks that the world revolves around her emotional sense of reality. Now I'm not saying that I expect you to take any responsibility for your ignorance and lack of consideration for anything that isn't your female perspective, I'm just saying that I understand why you're in the situation you're currently in, and why you're so cynical and disgruntled. Since your self help gurus and dating coaches didn't do fuck all about your situation, except take your money, boost your sense of entitlement, and leave you even more out of touch with reality, Professor Cos has decided to step in and save the day. So before I get too carried away laughing at how much of a dumbass you are, let's get this thing underway.Should you be a non religious <b>woman</b> that's planning to wait until your wedding night, or at least wait for the "right man" to "come along" before you decide to put out, you are most likely in one of two categories...You're a naive virgin who has no clue about men or the environment that you're currently living in, and you're hoping for some magical Prince Charming to sweep you off your feet and take you to a far, far away land where you will be a princess and live happily ever after.Or, you're a <b>woman</b> who has "had her fun", meaning you've had <b>sex</b> with many different men and you're deciding to make some new rules for your <b>old</b>, used up cooch.To the women who see themselves in the first category, I have some late news for you. The little boys that you think you're so much more mature than have become men. In other words, it's your turn to grow up. For many of you, growing up might mean trying really hard to sound intellectual and using a bunch of unnecessary big words. But that's usually a cover up for how clueless and immature you are. The little boys who are still little boys that you're still complaining about are the only people <b>dumb</b> enough to expect you to be good for anything more than a blowjob in the parking lot.If you're a non religious <b>woman</b> expecting a non religious man to wait until you decide that he's the "right guy", you're gonna have a hard time finding someone to take you seriously. Because you never bothered to stop and study the reality of your situation, when you finally came to terms with it, your first reaction to reality was to dismiss it, argue with it, then express your disapproval for it. Your way of dealing with being disillusioned was to try and re delude yourself by insisting on waiting for a man that you think all men should be like to show up and put his <b>sex</b> life on hold until further notice from you, and without noticing how your ignorant idea of what every man should be looks to every man.When you start spewing your pipe dream fantasy to a grown man, the first thing he notices about you, other than your looks and your expectations, is how selfish you are, and how much of an unreasonable pain in the ass you're likely to be. If you have <b>nothing</b> going for yourself other than your idea of a perfect relationship that requires a man to be your emotional tampon who understands you, and "gets you", and listens to you, and does things your way, while you remain oblivious to anything about him, or his needs, or his perspective,</p>	<p>Dumb, Fruit, Hooker, Nothing, Old, Sex, Woman</p>	<p>Age - Over 65s, Age - Youngsters, Gender - Female sexuality, Gender - General, Physical Identity - Physical (and Mental) Impairments, Sexual Identity - Male homosexuality</p>	<p>27/1258</p>	<p>2.146</p>

<p>But Women Created The Men That Invented Everything, Right Ladies?! An angry feminist who has a degree in women’s studies tried to humble me with her logical fallacies and false information. I must admit, I could feel both my intelligence and masculinity being threatened by a strong powerful feminist who doesn’t need a man and is out to destroy the <b>patriarchy</b>! But instead of trying to entertain you with my <b>lame</b> sarcasm, how about I give you what you enjoy from me the most, which is my exploitation of the stupidity of the <b>dumb</b> bitches that try to argue with me. And for those of you who were guessing who this <b>woman</b> was... No, it wasn’t Jessica Valenti. Actually, I left this poor little <b>feminazi</b> bathing in female tears! Here’s how it went:Hi. I’m Professor Cos. Darling please! It’s really not that hard to put your left leg by the 12 and your right leg by the 3. Plus as you should know, women are more flexible than men, right ladies?! Now, in an attempt to create the men who created the things that exist in this world, a man had to do all the humping and pumping while you layed there as stiff as a board. ”Why does rough <b>sex</b> always have to be portrayed as the man dominating the <b>woman</b>”, right ladies?! Dummy, because no matter what position you’re in, you’re the one on the receiving end of the dick. You’re the one getting fucked. You are the fuck-ee!And men who built and invented things did so on their own merit, not by simply being squirted through some <b>woman</b>’s bloody cunt. So expecting men to give women credit for things men invented is like blaming women for all the rapists and serial killers who came out of some <b>woman</b>’s vaginal crack 9 months after some guy came into some <b>woman</b>’s vaginal crack. I can give credit to the food, water, air, and bed that I slept in that kept me alive and energized, but it was my work that created the outcome of my efforts, not some human toilet. Btw, I gotta thank all the men who work in the sewers as well as the plumbers who provide me with a place to shit. And I must not forget to give a shout out to all the human toilets, who over the years provided me with a place to deposit my sperm. Now you can bitch about how unfair it is that only women get periods, and only women carry the burden of pregnancy for 9 months...”I wish men could have periods and feel the pain of childbirth”, right ladies?! Then you can brag about how superior you are to men because men can’t make babies. Women are the givers of life, right ladies?! Bitch, it’s not a man’s fault or problem that biology is the way it is. Btw, <b>nobody</b> forced you to have babies. How can you <b>lump</b> the entire female <b>sex</b> together as if we are all of one (infantile) mind. If you haven't met any women who are adults, I am sorry for your lack of experience, but you cannot categorically state that we are all irrational and devoid of logic, because that statement itself is completely irrational and devoid of logic. I abhor irrationality. It is obvious that you have issues with women and that in fact, yours is the reasoning that is purely emotional and completely lacking in reason. Well, that's enough of my time wasted on you.	Lump, Sex	Gender - General, Physical Identity - Physical Features	2/98	2.041

<p>Women Have Shot Their Prospects in the Foot and They Can't Understand Why They're Limping!Hi. I'm Professor Cos. Ladies, if you have already ovular merged, or should you be seeing this message post ovular merging, this message is outdated. You must destroy and discard this message immediately!!! How you managed to have the technology to see this message when men are no longer around to update it is a question that I'm sure all of us would have. But because we're not around to hear an answer, we'll just assume it's because a <b>woman</b> can do anything a man can do, and do it better, and do it in heels. Better yet, it's because a <b>woman</b> needs a man like a fish needs a bicycle! I'm an able bodied man and I still need men to survive. So when I hear you cunts say that women don't need men, it's <b>nothing</b> short of comical.Men made it possible for women to say "women don't need men". In other words, women need men in order to not need men. Even the dildos that you bitches are fucking yourselves with are made by men.I just saw 3 petroleum trucks and they were all being driven by men... On roads built by men. It's funny how women ask questions like "what's gonna happen to society if all men stop getting married and having kids?" without asking themselves "what would happen if all women have careers and no longer need men?". This just goes to show you that male disposability and keeping women in the kitchen barefoot and pregnant is the cruel way to keep civilization going. Liberating men and women weakens civilization. Civilization is not natural, it's man made. Btw, I'm gonna stop maintaining my man made place so that I can liberate the grass and trees and let the vines run amok.Mgtow and feminism is the result of our natural response to being enslaved to a man made system. It's amazing how the truth always gets revealed! Nature always takes over!Women combat this issue by demanding men to comply with solipsistic women who want men to pay the bigger price of admission, do half of the housework, make most of the money, pay most of the bills, think and act like women, and treat hormonal, emotionally retarded child women like equals. They must also tolerate being in a sexless marriage that results in short hair, weight gain, bad communication like silent treatment, emotional reasoning, disrespect, nagging and haranguing. Then when it's all said and done, they can expect to be stripped of their property, separated from their kids and ordered to pay alimony. And someone thought giving women the right to vote was a good idea!So men are simply opting out and going their own way... To which women respond "but what's gonna happen to society?". Ladies, I thought "ovular merging" (discovered by a male scientist) meant you don't need men? I mentioned before that monogamy and marriage was designed to prevent us from breeding like the animals that we are. Women want to be able to comply with their primitive instincts without considering the results. In other words, they want to bitch about men who correspond with their own primitive instincts while relying on those very male primitive instincts, then they want women to be liberated from their role of being responsible for the aftermath of complying with their female primitive instincts. What's more, women want to destroy the system that they must cooperate with in order for their offspring to</p>	Nothing, Red, Woman	Ideological and Political Identity - General, Age - Youngsters, Ethnicity - Native-American, Gender - General	6/1123	0.534

They were called "The Greatest Generation" by Tom Brokaw due to his book by the same title. In point of fact, the 50s and 60s parents were born and raised during the Great Depression and WW II. They endured poverty, joblessness, hunger (my own father tells of frying homemade bread on top of a coal stove "battered" with lard as they had no frying pan), deprivation, and lack of upward mobility not to mention hope for a future. Then they lived through WW II fought on two fronts and burdened with rationing coupons, blackout curtains (my high school still used them when showing filmstrips in classes), gasoline rationing ( <b>doctors</b> were among the few with A stickers on their cars allowing them pretty much unlimited gas purchases). Post WW II, the wartime industries geared up to produce goods and services that were unattainable by most in the previous two decades such as appliances, clothing (look at vintage patterns to see how fabric was	doctors	Nationality - General	1/162	0.617

<p>Captain, that is undoubtedly true! It's the men who have fought and died for the women and children. Only recently (the last year or two) have women been allowed to be the ones getting shot, losing a body part (arm or leg), and risking life. The more they try to be like men, the worse it is for the <b>gender</b> differences that made them special. Now, there is almost <b>nothing</b> special about them, and they have lost that special allure that men have always loved about them. This explains why younger men proposing marriage is down sharply from just 10 years ago and before. There are so many drawbacks for this insane drive to try to be "equal" to men, when actually they were superior in so many ways. But now (since the 1970s) that has to take a back seat for the extreme, radical feminists who can't stand to be treated like women. The hell with the feminists with their ugly tattoos, nose, mouth, eye (and other places) rings that make them look like primitive foreigners, instead of the exciting American women, they used to be. Now, they are (almost literally), "one of the boys." I hope they enjoy being dragged down to become and treated like "men" they have craved to be all their rotten lives.</p>	Gender, Nothing	Age - Youngsters, Gender - General	2/218	0.917
<p>No doubt. Men treat each other like shit. Why on earth do these feminuts think the grass is greener on our side? Everything is harder for men in this world, because men are the disposable <b>sex</b>. We don't get sympathy and help like women do. Charities everywhere for struggling women, not so much for men. That's why we commit suicide 5x as often, and no one gives a shit. We do more time for the same crimes, and we pay the majority of the taxes while women collect the majority of the tax-funded entitlements. It's funny how through socialism, women have gotten us to support them through the state instead of marriage, and now they don't have to give us any <b>pussy</b> in return. Rip off. No wonder men are dropping out of society in droves, choosing to be homeless of just poor, living off welfare, food banks, dumpster diving. Why not? If women won't give us families to bust ass for, why not just go to the bottom and live of the detritus? The only reason to voluntarily choose corporate enslavement is to support our wife and children who we love enough to sacrifice our freedom for. If that's no longer on the table, fuck it, I'm gonna lay around in my undies and play video games, jerk off to porn, and live off taxes paid by feminist bitches instead. No surprise that the latest feminist complaint about men is that so many of us have basically gone on strike and stopped working, paying those taxes to fund their lazy, greedy asses.</p>	Sex, pussy	Gender - General, Nationality - Chinese	2/263	0.76

Yo, Captain: men fighting wars has simply been a function of division of labor. Ultimately, someone has to tend to hearth and home. 10 - It's the historical context. Back then when the coffee brand was shit the <b>woman</b> was blamed for failing in her duties.7 - The title says sexist, not <b>misogynist</b> .6 - "Every <b>woman</b> needs to be herself at times. The answer? Baking." Again, context. A <b>woman</b> was expected to be an uneducated obedient housewife/pet. So basically it's saying a <b>woman's</b> aim in life is to bake and serve. Don't get me wrong, I absolutely love baking and it makes me happy, but in those times it was different.4 - Same as 103 - Guy whistles at a random <b>woman</b> on the beach.2 - Again, women weren't supposed to do sports, so it's basically mocking them.In conclusion, not all of them show men beating their spouses for adding a sugar too much, but they are products of a time where women were expected to marry at a young <b>age</b> , give birth to kids, and be a housewife and subordinate to their husband for the remainder of their life. It's the underlying idea behind those ads that makes them sexist.	Age, Misogynist, Woman	Age - General, Gender - General	6/184	3.261

Most of these are not sexist. Being a dick about bad coffee is not sexist. Whenever a male/female interaction is presented as sexist I always do this test: I replace the characters with 2 <b>gay</b> men. Does the issue go away? Usually not. +Hailey if only that simple explanation were the truth then there would be no reason for people to hate on feminists. but feminists themselves have made it impossible for anyone with a free thinking mind and an inkling of <b>common</b> sense to support them. the new feminist agenda includes such important things as making the government pay for tampons and pads, making it illegal for swimming pools to ask nursing mothers to not whip out their tits in a crowded wave pool, to raise the minimum wage nation-wide but for women only because why not, and, my personal favorite, encouraging females all over to forgo hygiene all together and bleed all over their clothes and public places, which at the least makes the first issue obsolete since they're not going to be using the tampons they forced the government to pay for. with such backwards thinking as patronizing all males for even glancing at a pretty <b>woman</b> then turning around and have that same <b>woman</b> participating in an all nude slut walk it's kind of hard to separate the real issues that need to be addressed and those of batshit <b>crazy</b> women who have image issues and a chip on their shoulders. what this <b>woman</b> in this video is doing is comparing and nitpicking plain and simple. none of what she's bringing up is important, none of it helps anybody in any way, and frankly people are becoming tired of hearing it. feminism has become that immortal mosquito in your ear that you keep swatting at but god dammit if that sumbitch keeps coming back. So... kind of <b>weird</b> , I work, she stays home with our four children, she cooks, cleans, shops... I mow the lawn or have one of my teen sons do so, I change the oil in our cars, I drink beer, go to the gym, fart (laugh), swear and basically AM a man... she does none of those things and loves me anyway. funny how women complain about <b>sexism</b> of the 1950's - 1960's which just got reversed unto men today in 2015. How many commercials are sexist against men these days?	Sexism	Gender - General	1/29	3.448

So, let me think about this. In the first clip her coffee actually KILLED the plants, and HE wasn't supposed to say anything about how bad it was? That silence would lead to her improving it, how? In the next few it is suggested that a <b>woman</b> attempt to always look her best—Tab was a DIET drink, remember?—so that he would be proud to be seen with her. Compared to modern day when you are out with sweat hogs in stretch pants, no make up, hair not done, shoes rundown...yeah, I see how suggesting that one 'fix herself up' when out in public could be 'oppressive'. So the take away here is, guys, don't waste your time worrying about your wife's safety when she drives alone. Guys, don't look to have any pride in the <b>woman</b> you have or intend to marry—just be grateful that she has a pulse. Yikes, times have changed, and no, not for the best. +Emily Tran Actually to set the record straight my husband is a house husband due to illness. He helps out where ever he can. He can have multiple pseudo seizures a day, which means some days he is confined to bed as he can't stay fully conscious. Don't be so quick to judge because he jokes. Despite having his life turned upside down, and having his independence taken away from his. He still has his sense of humour. I don't know how <b>old</b> you are, but as you <b>age</b> I hope you become less quick to judge. People and situations may not be exactly what you think then to be. Be thankful for you health not every one is so lucky. The wife.	Age, Old	Age - General, Age - Over 65s	2/123	1.626
+Emily Tran No worries Emily. my wife is just being protective of me because of my condition. I got a sense of humour that can be a bit off handed at times , I'm glad you see the funny side of it . In saying that I do a lot of the house work at home mainly due to the fact that I've not been able to work for 10 years due to the Siezures I get. In some ways I'm very supportive of what women do , I may not be the most politically correct , but I do empathise with the role a <b>woman</b> plays in life and not just as somebody who's domesticated and a homemaker. but also the ones who go out working and making a living as my own dear wife does. I just like taking the piss at times 'Cause that's what my sense of humour is like	Woman	Gender - General	1/155	0.645

So, it is sexist to tell a <b>woman</b> that men will be attracted to good coffee makers, but to make an ad implying that a man with some nasty grease in his hair will attract women is sexist. Got it! Next...	Woman	Gender - General	1/41	2.439
6 - yes, men who have bought flowers for their anniversary ALWAYS say stupid shit like that, and their wives respond a few hours later with, "Sorry, but my coffee was to awful to drink, so I am too tired for <b>sex</b> now." Again, this guy was less of an ass than the first, but it is the MAN being unrealistically and unflatteringly portrayed - not the <b>woman</b> . The ad is designed to play on her worst fears about men and portrays them as if they are real. Verdict - sexist - towards men.	Sex, Woman	Gender - General	2/94	2.128
4 - sexist both ways! The man is an ass, and the <b>woman</b> is stupid.	Woman	Gender - General	1/15	6.667
These are funny, but what is funnier is that you left out the thousands of ads in which men are told that they will not be acceptable to women if they lack the right razor, cologne, after shave, car, beer, or clothes! Apparently, when advertisers appeal to insecurity in <b>sexual</b> relationships, it's only sexist one way!Oh, wait! I am wrong! All of the ads, including those I mentioned, are sexist against WOMEN!Telling men that they had better use AXE body spray, or be ignored by women is different from telling women that they should use another brand of coffee. Modern <b>sexism</b> in ads. Men are stoopid. Dads are stoopider.Women are brilliant angels of superior light and reason.If having a vagina meant one was so intelligent then why were most scientists innovators leaders men?Sorry; I forgot the <b>Patriarchy</b> held back women.
