Funny how there are Whites that want to be seen as one minority or another, they want to be seen as a victim for sympathy I suppose. I'm referring to the older guy that obviously has either <b>zero</b> or less than 1 Aboriginal blood. Also in that whole video there are no pure blood Aborigines.	Zero	Age - Youngsters	1/55	1.818

White people wanna be anything other than white!!!! And also these so called aboriginals ARE MIXED WITH WHITE BLOOD MEANING THEY ARE MIXED <b>RACE</b> NOT ABORIGINAL!!! There's a lot of people that look white here in the United States that are <b>black</b> and a lot of people that look like their Puerto Rican but they're <b>black</b> Americans because of the Native American blood even today I read about people in Ohio that are <b>black</b> but they look white only have to do is speak out and tell them that they're in the day as fry and the children of Jacob and not Esau	Black	Ethnicity - Black	3/77	3.896

What's going on ?! Some of the people talking here don't look like any particular <b>race</b> , they can be classed as white or <b>Indian</b> or Mexican of Middle Eastern or southeast Asian , I'm very confused with the fact that some <b>black</b> Australian Aboriginal people have silky blonde hair ! I guess it makes perfect sense to have a fair hair in a sunny place as it would reflect the sun's harsh rays So why is it that the <b>black</b> people of the <b>African</b> continent don't have this genetically beneficial blond hair ?! And the fact that the Australian Aboriginal people can look so much like other races is something that is not being investigated, I think they have the most amazing genes on the planet , my personal opinion is that the Australian Aboriginal people are probably the progenitors of all other races on earth , and I think one day this idea of mine will be established as a possibility?! Or maybe I'm just more related to the Neanderthals !Lol	African, Black, Indian, Race	Ethnicity - Black, Ethnicity - General, Ethnicity - Native-American	5/173	2.89

A lot of them are mixed with white people. They is only one that might be mostly Aboriginal. So if you are a descendant of whites, they will offer more support to you, which free you from some of the stereotypes. But if you are pure Aborigine, you will continue to face stereotypes and high <b>racism</b> . Right here cause a divide and Aborigines to want to mix with whites so they can have the privileges to succeed.	Racism	Ethnicity - General	1/77	1.299
I'm aboriginal but I'm not <b>black</b> I'm proud	Black	Ethnicity - Black	1/9	11.111
Do you know when the Australian whites separated the mixed <b>race</b> white skins aborigines from the dark original aborigines? Maybe that's why the Latinos, Cherokees and all these so called native Americans are white skin people.. can you imagine how white skin these aborigines look today? Ain't it it a shame?	Race	Ethnicity - General	1/51	1.961
to the people who assume they are "white " or too white, what do you expect? do you realise these people who were innocent got invaded by a bunch of whites that raped and abused them in so many other ways? ofcourse they'd take on the culture and ofcourse they are aboriginal, even if they are 90 some other <b>race</b> . a lot of aboriginals are mixed anyways so what should they identify as?	Race	Ethnicity - General	1/73	1.37
Why are all the dudes <b>gay</b> ?	Gay	Sexual Identity - General, Sexual Identity - Male homosexuality	2/6	33.333
So many people commenting that these people are: 'not really Aboriginal' or: 'not dark enough' or: 'mixed not Aboriginal' or: 'only a bit Aboriginal'. Would you tell an African-American person (for example) that they aren't allowed an opinion on being <b>black</b> because they're not dark-skinned enough? Would you tell them they don't qualify as <b>black</b> because they're mixed? Horrible parade of hatred in these comments, under the guise of being woke. Who are you to argue with anyone's factual genetic heritage? Who made you the god of what's 'Aboriginal enough'? Smacks too much of the 'one-drop rule' kind of thinking to me. Yes, all the people in this video happen to be light-skinned, did it ever occur to you that perhaps BuzzFeedYellow chose them specifically because they don't look like the stereotype of Aboriginal people that the video was made in order to debunk? It certainly got all of your attention and got you discussing the issue. It's a roundabout way to do things, but there are other paths of logic in the world than: "Hurr durr light skin bad, must be <b>racist</b> ."
