So? Millennials and gen x and baby boomers were just as dumb as us when they were teens. Baby boomers probably called gen x the worst generation. Gen x probably called millennials the worst generation. Now millennials call us the worst generation. We are probably going to call gen alpha the worst generation. Bitch what the fuck, first of all what did we even do? we are not even adults yet, lmao. And second of all, this is entirely incorrect, there is a reason why old people lecture younger people. It is because our grandparents grew up in a time where everyone was polluting the entire planet, and not giving a crap about it. The mistakes that they did teaches them wisdom and when they get kids or grandkids, they will teach their mistakes to the younger generation to not make the same mistake and fuck up the whole newer generation that way we wont get a nickname for ourselves. Yet, you a 'Gen Z' is completely trashing our own generation that was meant to be better than our last generations, and you entirely ruin that by giving out reasons why Gen Z is bad, when it was not really the Gen Z's problem, but the generation before them. And to be completely honest, you yourself is ruining our own generation by making people think that this generation sucks. In which I can tell that 'That' was not your point.	Old	Age - Over 65s	1/187	0.535
Yes, us pre-teens who are barely old enough to get a job, are one of the worst generations.	Old	Age - Over 65s	1/18	5.556

Okay listen here you uncultured dumba*s swine. If you had a little bit of a brain, you would realize that most of Gen-Z people are CHILDREN. Literal CHILDREN AND TEENS. How can we be the 2nd worst generation on earth while we're just going through puberty?? Like... I know there are some dumb , uneducated, crazy and whatnot people out there, but you, my dear, DEAR rude shait of a person are one of the worse cases.We are all humans. Gen-Z is the first generation that was most fully born in the modern technological age . We were born when phones were already invented. Who were phones invented by? Baby Boomers! So don't you dare tell me something so rude, SO INSULTING like this! Don't you dare tell me we're bad people, while YOUR generation made us like this! If anything, YOUR generation is more at fault than ours! We didn't CHOOSE to come to life at this age ! On the other hand, You guys were the generation that MADE us like this! You're the generation who constantly criticize US for something YOU have caused! Generations BEFORE Millenials and Gen-Z's has caused us to act like we do. If not, then tell me why are most of us younger people unmotivated?? Because people like YOU make us feel like SHAITs!! That's why! I don't want to insult any older generations or any younger generations, unlike this guy. I don't care about what generation you're from, but when you go out and PURPOSELY insult any other human being, that's when you've crossed the line of being a dumbass, to being a literal scum of the earth. So please, for the love of god, go back to playing games in your mom's basement, and shut your dirty ass of a mouth. 7:24 'Some take it to the extreme with autism' tf is that supposed to mean? Let me just say, if you're like those people who use autism as an insult... honestly just stop. It's not funny and it never will be. Autism is an actual thing and I have a brother with it, and it's difficult for the person who has it, and it takes a large toll on their family and is not something to make fun of. Personally, I love my brother, but living with very strict parents and being given harsh expectations, along with dealing with constant stress and anxiety has taken a large toll on my health both mentally, and emotionally. Before even saying that to try and insult people, do some actual research. Also, as you can obviously see, pretty much nobody likes this video, unless they're another jerk just like you.	Nobody	Age - Youngsters	1/147	0.68
ArcticFoxyFox i absolutely get your arguement, but he wasnt giving autism a bad name on purpose. Its like calling people 'faggots'. Its a stupid and offensive thing to say, but some people say it. Youve gotta just realize that peoples speech on the internet means nothing , and just because he speaks of autism like that doesnt mean that autism is something that should be talked down on. You have every right to defend your brother, but just expect people to give you crap for having sensitivity on it i guess	Nothing	Age - Youngsters	1/90	1.111
Theres one good thing I can think of with everyone under the age of 40 being fucked.. more community awareness, I can only hope. When everyone older dies or doesn't support us anymore, we'll have to turn to eachother and the best of us better come out then. We're not the guaranteed success stories anymore that older generations were. Of course with some of X not doing well either on the younger end. It will be up to older X either to corral everyone else, or if not, we'll all have to turn to eachother, everyone from 38 to 15 yrs old and then generational lines will be erased and it will just have to end up being the everyone under 40 generation. We'll be like some big merger.	Age, Old	Age - General, Age - Over 65s	2/129	1.55

As one of the oldest gen zers('99) I can be certain we aren't as bad as millennials. While there is a huge dependence on technology, this is technically not a bad thing as we find continuously use the internet to fuel our curiosities. It has been easier than ever to learn a new skill. Also, how can you be certain our jobs opportunities are scarce when the economical state of this country is better than it has been in a crazy long time and our unemployment rate hitting all time lows. How did you make not going to college, but going straight into the workforce to receive and education and job training to avoid debt sound like a bad thing. I am in college right now, however I know plenty of others who opted out and are upward projecting in the workforce."Millennials on steroids" ok, first off we're typically more conservative than millennials. Jesse martes Our Earth is quite literally dying because of fossil fuel use, our oceans are polluted with plastic, moronic leaders are taking charge, U.S economy is getting f*****, college debt is increasing, taxes, minimum wage is decreasing, a majority of all malls and stores are closing, and SO much more. Our Earth isn't even making progress, and we've gotten so far into pollution that there's nothing we can even do anymore. We're all screwed.	Nothing	Age - Youngsters	1/75	1.333
