funny how idiots mainstream media tries to portray blacks as the victim yet they made things worse when they give blacks affirmative action and state other races are racist truth is giving any race a upperhand over any race by affirmative action is racism in itself because elite university is for those who are smart not those who are handpicked by race why did lori Laughlin and felicity Huffman get charged for bribing university to let their kids in yet blacks get in through affirmative action that sounds backwards to me.blacks with affirmative action will be known from now on as cheaters who never made iit to elite university on their own merritt which they will be demonized for. I've actually had many conversations with many non- racist white folks. And I do know from the bottom of my heart that these folks are not racist because I've known them for many years and they are genuinely good people... The keyword is fear, although the vast majority of white folks are not racist they are absolutely terrified of black people... all they have to do is watch the news and read the newspaper and keep their eyes open when they're in public. It's the behavior and culture of black people that makes other races fear us... We left at the old adage of when the old white lady clutch is her purse in the presence of a black man. That's not funny, that's true. Black folks are bullies and have a high propensity for violence and crime and that's why these white folks for us. We have to change our behavior in order to get other races to have a better perspective of us. Because right now when they see us all they see is a criminal and somebody that may harm them. The answer lies within us. It's time for us to face the facts and get ourselves straight and then people will stop fearing us so much. But we have to prove it to them... We made this mess, now we have to fix it.	Black, Old, Racist	Age - Over 65s, Ethnicity - Black, Ethnicity - General	8/227	3.524

When things go on right in front of your eyes like the same people blasting the same music 24/7, the same people stopping at intersections when they can make a right turn on red but choose to sit there and wait until it's your turn to use the crosswalk to hit the gas, when you constantly see them throwing their trash down wherever they stand, when they get right in your face and start yelling at you for no reason, when they start fights on the bus with random people for no reason it's kind of hard to not see what they really are. I'm not saying all black people are like that, I'm saying the stereotypes are so goddamn proud to flaunt the fact that they re shitty human beings and then when people like me out, you have politically correct white people who come to their aid and despite thinking the exact same thing I am, make a public spectacle out of tearing me down and trying to make me look bad for saying something that everyone is too scared to acknowledge. Running Hamburger yes, one of the worst things that happened around that time. Terrible. And generally during the Second World War the Japanese did some really barbaric stuff. However, today if Japanese people move to a community outside their native country, the people living there don't start moving out. My point is that whites stereotype black people based on particular behaviours and measurable trends. That does a huge disservice to black people who don't indulge in crime, etc. But people inevitable stereotype groups in order to navigate the world. It's not always fair but it is that way. I live in london and while not all young white males with pit bulls, smoking skunk on street corners are a threat, enough are that something in my brain kicks in and says 'maybe walk the other way'. Little do you you know that you originated from Africa and because of environmental changes, genetic drift, and all other observable changes that would be better elaborated on in an anthropology classroom if you took less time berating people with darker skin tone in a online comment section. Child, little do you know that the only reason you may be lighter is not because of some divine right. No, it's because homo sapiens traveled into different regions which doesn't take more than 1,000 years for a simple adaptive change like skin tone to develop. <p>Lots of refreshing racism in these comments from ppl claiming that blacks are racially obsessed which is funny when whites invented the concept of race and racism just to complain any time anyone who has been historically oppressed by whites in this country has something to say regarding race. No doubt personal choices play a part but what choices do you have when your community has been systematically destabilized and sabotaged by racist politicians through red lining and redistricting to subvert black involvement in the voting process, militarized police, easy access to drugs and guns while restricting access to quality jobs, education, health care etc. It's easy for some random white person from some gated community to troll through the hood and see all the drugs and gang violence(both white innovations) and broken families and just arrogantly and ignorantly claim that the negative stereotypes about blacks are true, as if we can't find a million negative stereotypes that accurately describe most white people. Of course you would expect someone who is descendent of slaves in a country that was built off the brutal slave labor of their ancestors after being kidnapped from their homelands in Africa for over 200 years and never had a chance to recover afterwards(100 years of Jim crow laws, kkk lynchings, police brutality, the introduction of drugs such as heroin and crack to inner city black communities, tuskegee experiments, aids, civil rights which destroyed the economic sovereignty of blacks through integration etc). I have enough common sense to know that not all whites are ignorant racist white supremacist terrorist assholes the same way that not all blacks are gangsters, thugs or drug dealers despite the way we are portrayed in mainstream white culture or the ignorance that some unenlightened blacks display on social media. Just remember to look in the mirror before stereotyping an entire race of people based on the corrupt actions of a few. There are great people and pieces of shit in EVERY RACE no group is inherently better than any other. Only ones who benefit from beef between blacks and whites is the ruling class whose political and profit interests depend on dividing and Conquering the poor and working class American people while the powers that be wage war on us all. The Real war is about class not race because poor whites will face a lot of the same bs a poor or working class person from any other race will.</p>	Black, Common, Crow, Jim Crow, Race, Racism, Racist, Red, Terrorist	Ideological and Political Identity - General, Ethnicity - Black, Ethnicity - General, Ethnicity - Native-American, Religious Identity - Muslim, Social Class - Working class	18/410	4.39

Other countries cannot use it, because their slaves had same skin color. What was as a historical inheritance of the family wealth by white people is now considered a racism . Really, the only country that has such problems with races is America. It is not a mature point, it is now an abused leverage for people, who are lucky to have a darker skin color. Wtf. <p>Stereotype : If you go to poverty-stricken neighborhoods and notice that most of the people who are "green with pockadot ears" are always on the corners selling drugs. These same people are always in the news for robbery. These same people are the ones that are publically known for certain crimes. Common-sense would dictate that you will be very CAUTIOUS around them. Asians: Science, Math, Martial Arts —— Blacks: Crime, Drugs, Murder, Robbery ————— - WHY???? It's not fair but there is some truth in it, that's how it becomes a stereotype in the first place.I'm a black man, born & raised in USA! I served in the Armed forces etc. etc. This is my take.Black people for instance that are opposed to Christianity are always those who truly have no true knowledge of the Word itself. You can use it as an excuse, but truth be told, one of the real downfalls of the black community came about in the 80's when black neighborhoods were flooded with this new drug called "CRACK" cocaine that devastated the black community & family. We have 3 generations of crack babies & children raised by their grandparents. Not to mention the fact that because this generation lost the respect factor for elders that used to be an intricate part of the black family. Black men are primarily raised by black women that are basically lost and devoid of the education and ability to raise a black son alone. They produce feminine and soft-minded black men who have no true direction due to lack of true knowledge. Black women say black men are terrible but who primarily raised them? Black women. I'm not bashing all black women, I'm simply stating a truth. As long as black people stay in a state of confusion and refuse to love one another truly, we as a people will always remain at the bottom of progress. Africa is predominately composed of black people, why are they being controlled by everyone but black people? Africa is worse than America in so many ways as it pertains to the black man, that's why so many come to America. Wake up & realize that in order to gain control, you must first realize self, love your wife black man. The bible says a man is to RESPECT his wife! A black woman will love you if you TRULY love her! Raise your children in that love & build a new generation of black men & women that truly live respecting self and fellow black people and all people. Anything less than that is producing more crabs in a barrel! PEACE</p>	Black, Woman	Ethnicity - Black, Gender - General	23/440	5.227

I don't know a white person whose worked as an employee for customer service so that means no white person works for customer service? Your opinion is flawed, what gives you the right to say all black people are 'stuped' when you've yet to meet every single black person in the world and analyze their IQ. By your words I'm able to say all white people are ignorant because I've never met a non ignorant white person. Ivan Van Sertima, Amos Wilson, and Walter Rodney. All scholars who've proven that just because they are black doesn't make them any less likely to learn, to process, or to engage than the next person over. Maric, you may have never met a black person with an IQ over 50 but that doesn't mean that they don't exist. And even so, you act as though IQ of ones self can never change. As if no matter how much one learns they will always be put inside this slot of stupidity.	Black	Ethnicity - Black	4/195	2.051

milos maric on top of this the average human IQ is 90 to 110 but more than 90 of the population has an IQ over 70 to 130. You are less likely to meet someone with an IQ of 180 for any race though it is possible for people to reach that level of intelligence. So, you are denying that black people who are apart of the general population are either incapable to reach or just genetically aren't able to reach the average IQ of a normal everyday person? Mind you that they are included in the general population meaning they are your equal meaning that just like you who has ten fingers they also have ten fingers. milos maric your grammar is proving otherwise. Listen, if you call out a race for being stupid at least have the decency to sound like you have at the very most a basic 95 IQ. From your sentences-'How much black scientist you know.' And '99 black are stuped' you sound as if you're a five year old trying to write simple sentences. Also, 100 black ? Everyone is mixed with something so the small amount of people that are pure black is close to nonexistent which raises the question of who exactly are you talking to? It can't be the blacks of America because most if not all are mixed with Indian or etc. In which case you're statement filled with grammar errors of a five year old is pretty much irrelevant. Even though I am 14 I am relatively smart. Now I am always told "why do you sound like a girl" " black men can't dance" "Why are you crying toughen up" "Don't you play basket ball" and I say nay to all of that. I am a black African America male I cry I laugh I enjoy friends my heart warms when I see a kitten in my neighbor hood I am very dramatic and love to act I dress pretty well and not matter the year I wear a scarf and hide my arms and legs I am funny and I hate flirt with the boys at my school and I'm gay I get asked all the time " Black men can't be gay so your lying right!" stupid question but I happens often I love crochet knitting sewing drawing singing karate piano and taking care of children but It breaks my heart that when I walk down the street and a white person is on the same path that they find it necessary to try what ever way possible to avoid me I give them a slight "Hello" and they look me down until I pass. I try to keep my head up because it is not all over yet I believe that certain movies have put a image into the minds of people that does say that we deal crack or we want to steal your wallets or other stereotypes I hate chicken.... I'm a vegetarian once in public the lady who was serving me said "would you like the chicken?" and I said "no I'm a vegetarian" She replied "oh" as if that really surprised her. I won't even go on about the times i was in public with my boyfriend holding hands and people whipped out their phones and pointed them in our direction. But what ever happens don't pop because the way things are if you respond to them like they want you to then you will fall into the stereotypes of an aggressive black male. Thank you. Benjamin Yates I am blaming it on ws "I mean imma hate you cause of your skin" and black people don't fight back so we're just going to continue to have problems	Black	Ethnicity - Black	1/32	3.125
Yea, still sounds retarded. With all the anti discrimination laws out there and the fact that it is easier for blacks to get into schools these days just because of their skin color, shows that the world is literally handing blacks a get out of the ghetto free card, but instead of working hard and applying themselves, seems they'd rather be a bunch a gangbangers who steal and deal drugs within their own communities continuing the endless cycle of violence and poverty. And even though white people created these laws and literally fought and died to give black people a chance, they want to continue to play the victim and get hand outs even though at this point in time America is a country that runs on a merit system and if u work hard and apply yourself u can succeed, regardless of skin color. And if u can prove that u didn't get a job or a promotion or a bank loan because of ur skin color, u can sue the shit of them, as long as u can prove it.	Black	Ethnicity - Black	1/182	0.549
Benjamin Yates tell me have you read the Willie lynch letter is my first question second those drugs and guns are in gun crates found by random people third they put felonies on black people meaning they can't get jobs or apartments or live with someone else so they have no choice but to steal witch lands them in prison. It's all in the letter and it was planned so the 13th amendment comes into play so jobs black people cant get they do it for free in prison. Afermative action was helpful until everyone else got benefits for what black people fought for and white women sit on top of affirmative action while black people get nothing . Tell me what sounds more retarded you go near people you hate you can't stay out an entire continent full of them but you hate you steal everything they say and do or does leaving people alone you don't like sound completely idiotic cause it seems their group of people chooses to mess with us	Black, Nothing, Witch	Age - Youngsters, Ethnicity - Black, Gender - Female age and physical appearance	6/173	3.468
All I have to say is hahaha u believe in the conspiracy about people just leaving drugs in crates in black neighborhoods. Oh and lived in a predominantly black neighborhood for a while because I had no choice, so it was either shop at the rude black peoples stores or waste the gas for customer service. Quit making excuses for people stealing and doing/selling drugs. It ain't the white mans fault anymore, maybe it was but it sure as shit isn't anymore. Accept some responsibility and admit that a lot of people, of all colors btw, just love to rob, get high, and murder people. White guy enjoys murdering people, he is a serial killer, black guy gets off on murdering people, he becomes a thug gangbanging piece of shit.	Black	Ethnicity - Black	4/130	3.077

<p>Benjamin Yates so how about them opioids though they was blasting the the crack epidemic and putting people in jail but when its white people oh mental health and I know there's gun crates because me my friend found one. If you're black and buy guns they'll look at you funny deny concealed carry and have FBI at your door and the only reason us want to talk about Chicago and gangs is cause the police do nothing but keep the violence there funny how the most policed neighborhood has violence. <p>Yea yea yea, still no accountability. Ur friend found a crate of guns. If this happens as often as u say then the smart thing to do is call the cops and wait until they show up and claim them. For all u know this crate could end up being the one with enough evidence on it to put away whoever dropped them off and there may even be a reward. But no, let's take them and sell them ourselves and endanger our all ready at risk community. U can try to give me all the justifications u want, it doesn't matter. No one is telling u that u have to be a gangbanger, well except ur friends and family who r gangbangers. It all comes down to choice. At some point u people chose to be thug gangbanging pieces of shit. Even if the white mans racist government is leaving crates of drugs and guns all over the place, ur still choosing to claim them. So says every conspiracy theorist out there. I could provide a letter written by Stanley Kubrick saying he faked the moon landing but that doesn't necessarily make it so. And u r justify being a gangbanger. I haven't once seen u denounce being a gangbanger, all u have done is spouted off a bunch of bullshit lies and conspiracies that take as much personal accountability from u and the rest of the gangbangers and give them more reason to blame the white man. And I am being sarcastic because u r an idiot. Ur the only black person to actually admit that being a gangbanger is part of ur culture, and then instead of saying what bullshit it is and how more black people should aspire to be better for themselves and their communities, u say it's ok to open and the mysterious crate and take the contents and build a criminal empire. U r a fool. Even more proof is u say that putting my name at the beginning of every post because it's an automatic function, but then ur last post doesn't start with my name. Get a real job, have some babies with ONE woman , and raise them to respect law and order and not to open up random crates they find in random places. Low birth rates have to do with the fact that our women go to schools and have careers as opposed to ur women who get knocked up over and over again just to keep that welfare check coming so they can buy their weaves. I know about this thanks to Sotamayor. Go check out his videos. And my first post was a question about why gangbanging is part of black culture and u said, and I loosely quote imma tell u why, and hen u said something about crack. It's right up there at the top. U didn't say it isn't ya part of our culture but here is why u would think that, no u just jumped into justifying it. Once again, no one forced u to open the crate. No one forced u to sell whatever is in the crate. No one forced u to give up on school. No one forced u to sell/carry the drugs that u had on u when u got caught by the cops. No one forced u to run from the cops. I have no sympathy for anyone who makes their life from crime, gangbangers, mob, yakuza, pimps, u should all be shot in the streets and burned in front of people to make a point. And as far as white people problems, I'll discuss them, u just have to bring them up. I already admitted that white men become serial killers and that they do and should be put to death. Talking to you is very comical it seems your all over the place with your argument and the reality is that the abortions and interracial marriage is the cause so u can't bring school into this if school was the issue then Asians and nigiarrians would plummet so you tried it on that one and as far as choices go Its the situation at hand I say lock the killers up and throw away the key but most people are in jail because of none violent affences child support,tax fraud, shoplifting,drugs,parking tickets and more. Do u believe someone should be killed or given 20-life cause of shoplifting and parking tickets. The media tries to justify the killing of these people because if they feel if you have a past it's a right to kill you. Police for broken tail lights and reaching for an ID. Anyways, as I keep saying, it all comes down to a choice. It doesn't matter how poor and neglected u were as a child, how discriminated u were because of ur skin color, or how low ur intelligence is, at some point these people chose to break the law and then when it was over they justified it and continued breaking the law. I remember something that stuck with from the first and as far as I am concerned, only Tales From The Hood, the third tale is all about a black gangbanger who shoots and kills some other black gangbangers. He gets into this rehabilitation program and his doctor says something, ' It's up to you to change things, it's up to you TO BREAK THIS CYCLE!!!' HA! It cost way less than to provide food shelter and medical care to a large group of people that could rebel and riot at any time. Just one more question. The reason I asked my first question about gangbanging being apart of black culture is because when that frat house wanted to throw a pimp and hoe party, where people make fun of gangbangers, and the black community called cultural appropriation. a fundamentally flawed/strangely formed question, but i think i understand the intent. the 'thug' thing is popularized in media (primarily film and music) and has really nothing to do with the actual reality of gang culture here in america or the impetus for young black men to join gangs. its more a question or concern of economic stratiation, the absence of a father figure, and the shared desire for belonging and validation that all men have regardless of race . i would sadly say that most black youth do not envision themselves as a cog in the greater corporate machine, rather glamorizing the 'street life' as a far more effective way to the so called 'rite of passage' (proof of ones true manhood) than running to the office with a suit and suitcase, thats the basics of it. Wow, I didn't get a single notification on any of these posts except the last one. First I wanna point out that I wasn't the one who said it, the so called leaders of the black community did when they claimed pimp and hoe parties to be cultural appropriation. pimp and hoe parties make fun of gangbangers and their bullshit urban lifestyle. So by their own admission being a gangbanger is a part of black culture. Now before I get the typical responses, what do they do at pimp and hoe parties. They wear baggy ass clothes, tacky gold chains, drink 40s in brown paper bags and listen to shitty gangsta rap. What do gangbangers do? They wear baggy ass clothes, tacky gold chains, drink 40s in brown paper bags and listen to shitty gangsta rap. That is what the sjw identity politic playing assbats r claiming is purely black people behavior. And cultural appropriation is bullshit anyways, it's a term made by a bunch of white hating bigots who don't realize that the political forces r using the sjw outrage as a tool to get unamerican censorship laws passed. And if anyone wants to insist that cultural appropriation is real then fine, I demand every black owned pizza place be closed down just like those white chicks in Oregon had to close their taco truck because of the bullshit appropriation nonsense. Umm inclined too think the later especially since ur statements on Asians and Latinos being white as if those racial categories aren't a separate box that people check on anything that asks the question of what race r u. With the amount of blatant white hate being thrown around, I highly doubt that people r purposely checking the wrong box. Whites r the majority of this country, and even if u say we aren't, ur still only 13 of the population of this country so quit acting like U and urs rightfully own half of it. They wear baggy ass clothes, tacky gold jewelry, drink 40s in brown paper bags, while listening to shitty gangsta rap. These r the traits of a gangbanger which is what a pimp and hoe party Is supposed to be making fun. So therefore, if pimp and hoe parties r cultural appropriation, then the so called leaders in the black community have basically said that being a gangbanger is part of black culture. its ya boy cash First of all your response is nearly unintelligible. Secondly, you did not answer the question. He asked why black people consider the violent gang oriented part of the black community black culture. I cannot speak for the black community but I am going to take a guess that not all black people embrace or even consider thug behavior part of their culture. I'm sure other people like thugs would Identify with this but reasonable people might not. You gave some vague reasons as to WHY the community may have developed these behaviors. And on that note I wholeheartedly agree the black community has not been treated well. Thankfully recently things are much different. I have seen impoverished youth in the black community make the change in their lives and break free of the cycle of crime and violence. I think to make this a reality the first thing is to realize we cannot excuse our behavior, own our faults and have to face them head on. Selling hard drugs lends itself to a dark world of the worst of human behavior. Why on earth would you want to invite the behavior of addicts into you life? The begging, stealing, killing, high risk sex and trading of sex , and more. The only reason is they are being taught by their elders, community, music, and environment that this is the way. Hopefully it will change someday, but it might not considering how ingrained a lot of this is. A boy growing up rarely seeing his father and when he does he is watching him cut up dope on a table and him and mom are bagging it up. These are powerful images and lessons to a child, they help shape and build his core beliefs. A proactive effort is needed to stop this unhealthy lesson that violence and crime are any kind of life choice. Yes things have been unfair. No it is not just a product of oppression and systematic racism . There has been choice involved. Make a a better choice. The better choice might not be the easiest or fastest money but piece by piece better choices lead to a better life. Jonathan why do drugs lend you in the dark world but for a black person but a white person can murder people all day and claim I feared for my life. Yes there's no excuse but the discrimination in jobs leave people desperate so they sell drugs and get 20-life while rapist, murders and attempted murders get less years and some dont get felonies but a drug case does, so when they get out they can't get a job anywhere but a killer does just fine so the drug dealers have to do the same thing that lands them in jail and some people take it upon themselves to represent a thug mentally usually rappers and influence the listeners. It's ok to talk about killing black people but white people talk about killing other white people it's an issue this is only half of the reason but I'm not typing a book. Stop trying so hard, what do you have to prove	Black	Ethnicity - Black	2/162	1.235

<p>U know why more white people who commit murder get less time than black people who get busted selling drugs do? Murder is harder to prove than a drug case, so murderers often get offered plea agreements. Part of plea agreement means admitting what u did and confessing in front of judge. It's like the lynchpin of the whole process. Now, since drugs cases r open and shut, u get caught with drugs on u, u go to jail. The plea agreement there is usually tell me who sold the drugs and u get less time. But in the black community that gets labeled a snitch and u lose all ur street cred right? Can't be having that now can we. Or u can try the always substantiated and always true argument of the cops or someone else must have planted it on me defense. But that gambit comes with a max sentence if u get found guilty. But what it all boils down to in my mind is, there r certain people who refuse to accept reality when they get offered a plea bargain, they refuse it on the belief that the judge or jury will buy whatever bullshit story they tell them, and then they cry conspiracy when they get found guilty. No, that isn't all black people, not even all black people who get arrested, but a realistic number would be about 85 of black people who have been found guilty since the year 2000. But once again Cash, u still think that's it ok to open random crates of drugs and guns in the street and decide to sell them to ur community rather call someone, the cops, the local news, the fire department, someone who can start an investigation into who is leaving the phantom crates. Ur part of the problem.</p>	Black	Ethnicity - Black	5/306	1.634
<p>Well that's a lot of questions, ones that I'm sure have a valid answers that all boil down to prejudices on both sides, but u will find someway to justify ur brainwashed nonsense instead. I ever tell u my husband is a black cop. He says a lot of black kids choose to gangbang because they've been told all their lives that the only way to make it life is by rejecting everything that the white man does. Screw the laws the white man made. Abuse the system that's supposed to help us, the white man owes it to us. So afraid of being white washed by admitting that it's not all the white mans fault and there isn't a racist around every corner. And almost all this shit boils down to black were slaves so therefore we shouldn't have to prove ourselves as equals, nope gotta keep on letting the white man hand out freebies and calling racist whenever something doesn't our way. Know where he learned this from? His parents. Both black. He is a doctor and she is a lawyer. His sister is a manager of a Walgreens. Because when Italians immigrated here a lot of them held onto the ridiculous notion (the same one black tend to hold onto) that the police and local city governments were not too be trusted. Back in the old days and in the old country, the mob was more trustworthy and seen as necessary thing. But then they stared getting greedy and the organization turned into what is today, an organization filled with lazy assholes who would rather take the easy way out and get rich by extortion, murder, drugs, etc. than get a real job. And whenever one of these assholes is killed or put away, I see it as a good thing for the world, because animals who break the law deserve jail. They chose a life of crime and deserve whatever happens to them. See what I did there? I answered the question by saying y it's considered part of Italian culture, not white culture though since u have to be pure Italian to be a full fledged member, explained when the organization turned into what it is without assigning blame on anyone else but the idiots in the mob, and then I condemned the mob. Something that only a handful of blacks, Ya Boy Cash not being one of them, seem to be capable of. It's their own damn fault they r a bunch of criminals, and if I ever saw them committing a crime, I would risk my head on a chopping block to put them away. Yep, I would, will, and have snitched on a criminal. Because I care about my community and about the future of my species. Humans.	Black, Old	Age - Over 65s, Ethnicity - Black	3/275	1.091

Reaper, I'm not sure y I'm not seeing the post u left me, either my phone don't want to display it or u deleted it, but first off as far as the difference between the mob and the black gangs: the main difference is that the mob is ORGANIZED crime and black gangs r all about hit and runs. The mob is more successful because they don't just target random people and houses on a whim. The mob studies where and when they attack. They run better rackets, they offer better protection, they r better at being criminals. This doesn't excuse their behavior and they all deserve to be ass raped in prison, but they have a less flashy way of going about breaking the law. And of course u see racism every where u go, because u WANT to see racism everywhere u go. People like u need to see racism everywhere so u can continue to go on blaming everything wrong in ur life on the corrupt and evil white man. U refuse to believe that even after all the hand outs and government programs and private charities dedicated to helping black people make something out of themselves that maybe, just maybe, a lot of ur problems come from within ur own communities and not from an external force. Is the government corrupt, fuck yea it is, but it created all the welfare and food stamp programs that a lot of people, all colors, have come to depend on for survival. Is there racism in the the police force, yea, but not nearly as much as people like u would have us believe. U know y cops catch more criminals in black neighborhoods than in upper class, rich bitch, neighborhoods, once again, because they r better at being discreet along with the clientele. And finally, don't bitch about my spelling, this is a fucking YouTube comment section, I'm not writing a paper on quantum particles for a god damned science publication. Seriously, it seems like for black people it will be white people's fault until the end of time. And they will keep scratching their heads and wondering why they cant get ahead. It's very, very simple. Change your culture into an education focused culture and you will prosper. Keep up with this victimhood mentality and you will stay poor. Because as much as pathetic white liberals love to whip themselves for their ancestors sins, it always stops when the rubber meets the road and they wont actually give up their money for you. TheReddPerkins When you see an Americanized Asian person, what's the FIRST thing you think? For me it's, 'smart, probably has a really really good job.' When you see a Latin American immigrant of diminutive stature, what's the FIRST thing you think? For me it's 'low wage earner likely getting paid in cash.' When you see a white lady with the side of her head shaven off, while wearing a hodge podge of both men's and women's wear, what's the FIRST thing you think? For me it's, 'she's very feminist.'My point here is that stereotypes are true. We make up 6 of the population but commit 55 of ALL violent crime. 72 our children are born out of wedlock. 60 of us depend on Gov in some way shape or form. Either we have a low level government job (DMV office, working for public housing in NYC, social workers for the state, etc), or are receiving government benefits. Name ONE POSITIVE stereotype about black people. 'They can sing...' um ok. 'They can dance...' um ok'They can run and jump...' um ok. So for me, I've embraced the stereotypes.
