Death to the careers of every single fox news personality, put them on celebrity rehab in 5 years with the American foot on their necks and make them repent for their sins against the American humanity. Their <b>sexism</b> should get them groped, their climate denial should get them locked in a hot car, their <b>homophobia</b> should get them beaten and their demonizing of the poor and minorities should get them robbed until they submit in tears and we wipe their horrible immoral influence in this country off the map like Larry Nasser in USA gymnastics. Fuck fox news and their sympathizers	Homophobia, Sexism	Gender - General, Sexual Identity - General	2/101	1.98

Gotta love how the think <b>sex</b> work is so "degrading", yet they are fine with <b>sex</b> being used to sell everything, they also ignore how the most religiously and sexually respsted states, also consume the most porn.	Sex	Gender - General	2/37	5.405

I agree alot with mediamatters. But no, modern feminists in general are manhaters period. You can be leftist without being a <b>crazy</b> feminist supporter.	Crazy	Physical Identity - Physical (and Mental) Impairments	1/24	4.167

Ryan Rentfro its blanket statements like this that makes modern feminism a half ads social media trend at best. The landscape is already there for women to pursue whatever career they want, there's societal benefits to being a <b>woman</b> , arguably more structural benefits than being a man, <b>gender</b> pay gap is a disingenuous argument comparing apples to oranges, the fact is women can go to college work their ass off and make it happen	Gender, Woman	Gender - General	2/74	2.703
SuntzuMocro you're talking to me about problems you haven't experienced. The real problem you have is that you don't have enough self awareness to realize what's happening in the world around you. You're just the <b>old</b> world dieing as the new paradigm emerges. You can't handle that change so you act out and try and deny away real issues cause well, you're entitled and not all that bright. Ryan Rentfro you dont know a thing about me. You fucking idiot. Not every <b>woman</b> is a feminist you know. You fucking fool.	Woman	Gender - General	1/23	4.348

Okay, I'm gonna go cut out my tongue and fry it in acid for saying this, but FOX NEWS IS 100 RIGHT!!! Other than that <b>racist</b> bullshit they put out there about Serena Williams.Feminism IS about hatred of men and women RULING, <b>nothing</b> about equal treatment, because any real man WANTS to see women succeed. We WANT to see women get ahead. We DO wanna see women treated equally at the work place. But NO man is gonna see women as our equals, because, news flash, WE'RE NOT EQUALS!! No real man is gonna allow a <b>woman</b> to rule over or run him. Never has been that way, and it never will be.That stuff they said about young boys being around other boys being mandatory and having a girl there throws things off IS FUCKING TRUE!!! And every one of you know that shit is true. You white people have now made it so that being masculine is a damn BAD thing. There are so many young boys out here putting on skirts at very young ages and these <b>dumb</b> fucks telling them that shit is okay. So many young boys out here are confused about themselves because these damn morons calling themselves parents, and dip shits like whoever the hell made this media matters video, are trying to push this <b>gay</b> agenda and spreading this "toxic masculinity" bullshit. Masculinity is SUPPOSED TO BE put on display. It's something you're SUPPOSED TO BE proud of. It's something you're SUPPOSED to flaunt. And it's THE MAIN THING you are supposed to guide a boy through to become a damn man.And yes, women DO love MEN...REAL MEN...That's how it's always been. But these days, white people are trying to promote these damn girly boys out here wearing their pants off their asses, arching their eyebrows, wearing women's clothing, accessories, hairdos, etc, as if THAT'S the new "man". And I say WHITE PEOPLE because preventing a boy's masculinity goes directly against ALL OTHER RACES ETHNICITIES' CULTURES.I'm getting some serious <b>gay</b> agenda vibes from media matters after this video. m. rude wild imagination? Try the existence of a creator-god...now THAT requires some wild imagination! I suppose your world view includes the notion that women were created from a rib? And that man was "placed" in a beautiful garden until god had a hissy fit when the <b>woman</b> he had just created ate an <b>apple</b> !So here's one for you, who created your creator-god?? And don;t you dare say he's infinite, because if he's infinite, why can't existence of matter itself simply be infinite. God is an pat answer to everything for people who have no interest in what really might have happened,(men, btw are created through <b>sex</b> ...like all the other mammals). west the term <b>sex</b> work is disingenuous for the amount of jobs it falls under. women in the category of it think they are less whorish than another. Because of all that we never will move forward. Along with that women wanting to dictate what others do an calling every one a victim.	Sex	Gender - General	1/53	1.887

Leo's Universe "your experience" and the material realities of feminism are two different things. There's a reason anecdotal evidence is borderline useless in data: a single person's experiences may not reflect the broader trends and movements within, say, an institution. I'm sorry you had shitty experiences with people purporting to be feminists, but those shitty people are not representative of feminism itself, which has centuries of history, involves countless thousands of people, and has historically been much more beneficial to society than detrimental, especially for women (obviously). A couple of shitheads who posse as feminists saying mean things to you on the internet is really **lame**, but those few losers don't represent the movement towards **gender** parity, no matter how much they may claim to do so. "Even in my industry many Ashley/Gloria thumpers"? What is "your industry"? I'm sorry, but I have no idea what an "Ashley/Gloria thumper" is, unless you're referring to Ashley Crossman and Gloria Steinem? In which case I'd remind you that both of them took CIA money, some from the Dulles brothers, and some from COINTELPRO programs (although, so did Jackson **Pollock**, Andy Warhol, and many other prominent artists, as well as film directors, musicians, architects, writers, and pretty much anybody in a creative field) and that Steinem herself is the one we have to thank for the Bernie Bro stereotype, once infamously stating that the only reason women volunteered for his campaign was to look cool "for their boyfriends". Does she sound very feminist to you? Look my dude, I understand the hell of being surrounded by lib "feminists" who basically just want more poc women dictators and CEOs, and give not a fuck at all about the actual, urgent necessity for **gender** equality (which means making improvements in the material conditions of the lives of men, too) while they're simultaneously exuding embarrassing levels of smug self-righteousness. It's not fun. You're basically letting these **lame**-ass normie feminist try-hards poison the entire well of feminism for you, when in reality feminism is so much older, complex, beneficial, and non-elitist than they can possibly imagine. Think about it this way: if I worked with a couple of gamers, right, who are really obnoxious, elitist, and preachy about video games, and if I don't really know all that much about video games to begin with, I'd probably be pretty inclined to think that not only are gamers **lame**, but video games as a cultural institution is full of self-righteous gamers who are exactly like the shitty gamers I do know. Do you see how you're kind of falling into this trap? Look man, I'm not really interested in arguing with or shitting on other people on the internet anymore, so if your goal is to actually have a good-faith discussion about your perception of feminism, and are open to hearing perspectives that don't come exclusively from the center or right wing, I'm happy to talk this over with you. Unfortunately, many people, especially on YouTube comment threads, have no interest in this and just want to call the other person an "NPC" or talk about racial differences in IQ tests, because phrenology is making a comeback I guess.

<p>west excuse me dont call me man! I'm a women and I know. I just went back an reread all their bs not a single opinion. The whole thing surrounding gloria from the beginning targeted us. I missed points because I have a different view about dominate men they pure shit, however, in that others like them in no way were we calling to ban an target women who want to submit to them. That included singling out conservative women who fetishise that crap. What they choose and who they are has no barring on me. But they come at us tooo they sing in unison with being anti <b>sex</b> anything. I have risked my life literally reporting stuff these bitch cunts allowed gov to attack me into my jobs an toss me on the street. I'm a gov kids I'm not a dumbass and they covered crimes for decades, im also a victim an witness to corruption yet they leak my info an no protections. Im not allowed to talk to gov enties or funded by on any of this. Youre a clueless twat</p>	Sex	Gender - General	1/218	0.459

It wasnt for the reasons ppl like say breitbart thinks... deeper but truth is yes they are harming us. Terribly an their issues they have are self caused now.</p> <p>Teaching ppl to hate us.</p>	Misogynist, Racist, Sex	Ethnicity - General, Gender - General	3/217	1.382

Leo's Universe I'm not sure I understand what you're trying to say. "**Sex Work**" actually refers to a pretty narrow set of economic occupations. If it involves **sex**, and there is money exchanged, it's **sex** work. Besides, how many jobs a term covers is not a point against it's legitimacy at all in any way. Think of how many jobs fall under the category of "manual labor" for crying out loud! The whole point of having an umbrella term like "**sex** work" in the first place is precisely so many different jobs and professions can fit under that umbrella term ! What do you mean by "the women in the category of it think they are less whorish than another"? Because no matter their "degree" of "whorish"-ness, all of them are **sex** workers as long as their jobs involve **sex** or providing **sexual** services in some way. As for the hypothetical prospect of some **sex** workers looking down on other **sex** workers, this is an extremely flimsy and frankly total bullshit reason to not improve the lives of all **sex** workers. Have you considered that, perhaps if all **sex** workers were better taken care of, **sex** workers wouldn't be able to look down on each other as much as they do now? You're rejecting the solution by using the problem itself as the reason why, and honestly my dude it's not making any sense to me at all. Your statement of "Because of all that we will never move forward" is nonsense to me, sorry. I'm not saying you're stupid or even trying to insult you at all, but this argument is just stupid, my dude. We will never move forward because some minority of **sex** workers is going to be arrogant towards other **sex** workers ? So it's not the structural impediments of the system itself, the ghosts of Christian religious morality baked into that system from it's inception, or the fanatic Christian fundamentalists who control (more than) half of our politicians (particularly the right wing ones) who have a very vested interest (from either owning shares of, or receiving campaign/Super PAC contributions from, private corrections industries, Bail bonds lobbies, and law enforcement groups/unions/lobbies) in keeping **sex** work criminalized, and the punishments increasingly brutal and severe, the actual problem is just snide shade being thrown? Come on, that's ridiculous and we both know it. Trying to blame the horrific conditions of labor **sex** workers face every day on **sex** workers isn't just the weakest conservative argument I've heard on the issue, it's so unnecessarily cruel and dismissive I honestly don't know how you could be unashamed of such a brazen display of an utter lack of compassion, humility, and basic human decency towards one another. I really hope this isn't emblematic of the rest of your beliefs, because we are all only human, and we all deserve help and a better life no matter who we are. What were you talking about when you said "Along with women wanting to dictate what others do an [sic] calling everyone a victim"? Can you provide some examples, or data, or even just some context to this statement? Because without any of that, it just looks like the tired talking points that incelgtow/pua types fall back on after their arguments about how awful women are (mostly because they won't sleep with them, but also because they want equality and their internet friends/daddies have been telling them how bad they and "SJWs" are for the last three years nonstop) get shown to be nonsense with no grounding in data, facts,
