Anyone can say anything, anti - Christian, white, woman , Hindu, Muslim, Sikh, whatever but the minute anyone criticises Jews and/or Israel then it's 'anti Semitic' and must be punished with the full force of the law.It's fucking disgusting. This is what happened in Russia after the revolution. People were executed for being 'anti Semitic' even though the Jews were responsible for the murder of tens of millions of non Jews.Horrible, vile, disgusting faith. The reason the world is the hell it is is for one reason and one reason only - JEWS.	Woman	Gender - General	1/94	1.064

Such stupidity and hypocrisy. Too many double standards. There are plenty of songs about breasts, dicks, sex , guns, rape, drugs, war, niggahs, hoes, poverty, ridiculing the French, the Americans, the Russians, slamming the Arabs, the Israelis, the Africans, the Chinese, and so on. Nothing wrong with speaking the truth: "My body is more defined than those of Auschwitz inmates." Well, yeah, duh. Those prisoners suffered. They starved. They died. He's essentially stating a fact. Absurd. It's art, it's not meant to be literal. Antisemitism means hatred for Jews, it doesn't mean offending Jews. This is an attempt to censor free expression, no different than Count Dankula and his Nazi pug. Screw people's hurt feelings, offense is a choice. It's taken NOT given. Thomas believer,The Jews have no more rights to demand anend to criticism of their behavior/history than any other group!Europe needs to repeal its anti- hate speech laws!(enacted post-WW2)Both Jews and Muslims in Europe support laws that punish others for speaking out about them.But both feel free to attack European culture, thenative (White) people of Europe and Christianity. The Leftists join these two groups to destroy the ethnic nation states of Europe. There is nothing wrong about being a native European(no more "evil" than the rest of humanity) and wantingto live in a country that is composed of one's ethnic group and choosing to have a society with Christianvalues.*****Jews have Israel, Muslims have Mecca/Medina.... where their religious laws are the law of the land. apropo0FREEDOM of SPEECH should be for everyone;even if some are offended by that speech, art,media presentation. Toughen your hide and stopbeing such a whiner ... I say that to SJW of everyilk ... Black , Jew, Muslim – To name three groups that frequently cry about and complain of other's opinions of themPerhaps they (the complainers/whiners) should look inward to see if those opinions are valid .. Usually those doing the mocking have hit upon a kernel of truth that the listener/whiner knows is an uncomfortable truth for the complainer/whiner.	Black	Ethnicity - Black	1/95	1.053

Anonocore1If you aren't being sarcasticEver hear of Barbara Lerner Spectre?(videos about and of her on YT)Her and the Leftist SJW have almostruined Europe and until recently, theywere gaining ground in the USA.Historically, Jews and Muslims have joined forces to persecute/kill Christians:In pre- Reconquista Spain (there was one anti-Jewish pogrom; when a Jewish man was given the position of a judge over Muslims).In the Ottoman empire – Against the Armenian, Assyrian, Pontic and Thracian Greek Christians of the Ottomanempire. (The Arabs, Kurds and ethnic -Turkomen alsobenefited from the land-grabs against Christians inthe Ottoman empireEastern Turkey used to be majority Armenian; now Kurds are the majority. The Euphrates river basin and the areaaround ancient Ninevah used to be the area that wasmajority Assyrian. Now Arabs, ethnic Turkomen andKurds are the majority ... But the Kurds had been alongthe (modern) Turkish/Syrian border area since 313 BCE.It has been only since the creation of Israel that they(Jews and Muslims) repeatedly have turned against each other. With Jewish property being seized andJews forced to leave Muslim-majority countries.	Ethnic	Ethnicity - General	1/192	0.521

Here We Go Again2 yes I was and I am amazed of your knowledge of history , I think , on a serious note that you my friend should have your own you tube channel or best on steam it and other platform and educate the ignorant out there . Make it interesting enough for kids to be interested and that's how you can change the persecution of the mass out there .Jordan Peterson is doing amazing right now educating the massironically people like us are now the weird one for having knowledge and historical fact . I choose sarcasm , you choose detail definition. Somehow , you will be more successful then I on this. Might get some massive flack but if like Jordan or TOMMY ,you can take it , then you have a chance .as long as you understand that Catholic and Christian too have their fare share of dark age , remember that the motive is more important then the mean . In the mean time if you ever find the true motive ,as in the end game for it all , please contact me a share your view , because that is the only piece of the equation I am missing(when you conquered all and own all and everyone , it's only a round little ball floating in space , why allow ,from 1970 to 2018 a more then double in population? Annoncore1Thank you for replying to my comment. :)I am pleased to find a civil person to communicate with on YT.>”In the mean time if you ever find the true motive ,as in the end game for it all , please contact me a share your view , because that is the only piece of the equation I am missing ...”<AND>” it’s only a round little ball floating in space ...”<That is a question for the philosophers and theologians!(I certainly am not one of those!)I don’t have all of the answers; I don’t think that anyone, any humanbeing has the answers for what have been massive changes in oursocieties in the past few decades. I too suspect that western societies elites have ”upped the ante” (so to speak) and are attempting to bring about rapid changesin our societies; that they believe are beneficial to themselves.The importation of millions who will be a drain on the resourcesof the welfare state for generations is not something that favors native Europeans. And, in the end may not favor the elites, who have sought these changes (Maybe they, most of them, really do not understand the result of their actions) I respect Jordan Peterson for his intellect and his willingnessto share what he has learned with others. I also respect peoplelike Tommy Robinson who are defending their culture and heritage. Western civilization is, in my opinion, worth defending.Western civilization would not exist without Christianity or therise of city-states in Greece. Western civilization was synthesized by Greek philosophy and Christianity.Christianity and Islam would not exist without Judaism and the Roman empire. Rome had created the Pax Romana, the road systems, migration of people within the empire and toleranceof regional religions that became popular with people throughoutthe empire; as people migrated for trade. This occurred slowly,over a period of centuries. In our **age**, we are experiencing rapid changes made possible by modern communications and transport. We as individuals. may or may not beable to adjust to the new realities; but our societies suffer because change is bewildering and (sometimes) painful. Also, one has to decide what changes are beneficial for a society andwhat changes are detrimental for that society. Do we, as a species,have the wisdom to decide what is beneficial? ”Change” is a natural part of existence; **nothing** in this world is staticThe rapidity of change is what is the problem for most people. Slowlymoving changes to a society are barely noticeable to the average person.>”remember that the motive is more important then the mean.”<Motive is more important than the mean to achieve a goal. The core motive for both organized religion and government is control of the realm and controlof the religious structure. Both involve control of the people.>”Catholic and Christian too have their fare share of dark **age** ,”< The so-called Dark Ages (which we, as moderns, refer mostly to Western Europe) were caused my many factors. Some of the same events that brought about thedark ages were climate-induced. Other areas of the world were affected as well as Western Europe by natural events such as volcanoes, earthquakes/tsunamis;and in some cases asteroid/meteorite bombardment of our planet.Scientists are just beginning to piece together changes in climate by analyzing ice cores from glaciers; sediment cores from oceans, seas, lakes and tree rings.Scientific knowledge is restrained by budgets (i.e.
