feminism: a.movement which gives women their rightsYou should know that before the feminist movement women didn't have their rights, they were practically slaves of menThey fight for gender equality, don't want anything more, and if someone asks for more then,She is not considered a feminist..Please don't take this negatively! And if you think I said something wrong then let me hear you	Gender	Gender - General	1/65	1.538

Women already have equal rights. Feminism is based on Marxism, hence the socialist fist in the symbol for feminism. You do not have to be a feminist or a marxist to believe in equality. Thats like a religous person telling somebody that they must be a christian if they believe in god, or a communist telling a person they must be a communist , if they believe that people should be treated equally. The modern version of feminism has little to do with equality and is verging on being a hate movement. The historical narrative pushed by feminists is false. In the uk for example, nearly all men could not vote till about the same time as all women got the vote. Women worked less in the past, largely because contraceptives had not been invented, and they had most of the same rights as men. You may think that the great majority of men in 1900 for example, had it much better than women. However life for the great majority of men involved engaging in 12 hours per day worth of manual labour (as nearly all of the work then involved physical labour) and periodically being sent off to die in a war. Thats not exactly something to be envied. Men and women had different roles, but it is ridiculous to argue that women were treated like slaves. When I finally got her to articulate her position, she said essentially: "I got a raw deal because I am a woman ". I was floored of course. I finally understood her "feminist" perspective. I told her to take it up with God. And that was the end of that. Somehow women were told that they got a bad deal. Men were the obvious target for their vitriol...I guess because God would not respond. Lots of men gave up on dating. Many women now understand they were scammed out of pursuing one of the Nobel -ist of professions. That of motherhood. And now many are alone and ruefully regretting that they fell for the lie. Feminism...another social experiment that failed catastrophically...or perhaps it was a grand success if the motive was to reduce the population....of a certain segment (class and race) of society. Frankly I think most women are too smart to believe the poison Hillary, celebs, and feminists are trying to cram down their throats. woman voters are American too,and can make their own decisions. A real feminist wouldn't even call herself a feminist because using your gender actually takes away value of your own hard work to get to where you are now. e.g Judge Judy in an interview even says she never took into account her gender when achieving goals, she credited her own hard work as an individual (just like any other men would do). So many grown ups in this country(mostly liberals)are adults in name only. Badgering women to vote for a female candidate solely because she is a woman is totally irresponsible. You vote for the candidate who youbelieve will be the best person for the job, period. But I am not surprised by any of this. So many liberals haveapparently decided that it is their way or the highway.....They seem to believe that their "moral superiority" givesthem the rights to break the rules. Feminism is a discriminatory sexist movement to further separate people. All men, women, and all races deserve equal treatment. Everyone brings different things to the table and that's ok! Notice how intelligent women say think instead of feel. If you hear a intelligent woman speak she always says I think this is what is best in this moment. But Left women are always saying I feel like this isn't what we should do or I feel like this is right. It is once again women on the right use there brains. Women on the left use emotion. Emotion is not a good way to make a decision. Emotion gets in the way of truth and justice. Emotion don't care about facts! Emotion is also a very selfish way of doing things. Because if you judge things on the way you feel there is no true balance there. Emotion makes you look at things from a point of view that is basically not the rule. When it comes to be a soldier you don't use emotion. Because emotion can lead to making a bad decision. I love how idiots on the left believe that soldiers use emotion.. They don't, they use duty and there code to make the decisions that save lives. They follow orders but they have a code that if the orders do not follow the code they are not to follow those orders. But of course some idiot Left thinks that if a soldier doesn't feel this order is right he can choose not to follow it. NO YOU HAVE TO FOLLOW ORDERS you have to LIVE BY THE CODE!!! Emotion has no place in WAR! Emotion can get you killed in WAR! Being a Soldier is the most unselfish thing you can do. Your giving your life for your bother or sister in arms. You have to lay down your life and you have a beautiful Wife and children at home, or a wonderful husband and children at home.. You think emotion is a good thing in that decision? No person who has a wonderful family at home wants to die or even be away from them. I not saying it's not emotional.. I saying using emotion to make a decision. Everyone has emotion and it would be there. That's why they train at the moment to follow the code and to trust the soldiers around you. Duty is what a soldier is all about. Feminism isn't a monolith. Neither of these two have likely tried to understand or even learn about any academic feminist theory. Otherwise they wouldn't be saying, "feminists say if you don't vote for Hilary you're not a feminist," because I know few feminists who supported Hilary, and definitely not simply because she is a woman . Then you go and expect to be accepted by "feminists" simply because you're a woman . Idiots getting everything backwards, as usual, then claiming someone else is the wrong one.Lastly, "let's get two women to come on to criticize feminists!"How transparent can the media be nowadays? June: No its not they are both linked. You can either see people as individuals who happen to be male or female, or you can go through life believing that one half of the population are evil patriarchal oppressors, and the other half are tragic victims. Simply on the basis of the gender which they happen to of been born as. Feminism is marxist poison. Basically how it works is you are told that if you believe in gender equality then you must be a feminist. However next you learn that if you are a feminist then you must also believe in all kinds of other crap. Its like a religous person telling someone that they must be a christian if they believe in god, or a communist telling others that they must be a communist if they believe in equality. Good for her. I am in total agreement. I have nothing against a woman for president but it would have to be someone highly intelligent with integrity and honesty without a sordid past. Hillary Clinton doesn't have a leg to stand on regarding character or Honor. Any respectable woman would have divorced Bill Clinton after his affairs that disgraced her internationally! Hillary Clinton didn't have the moral courage to even do that. She has no High Ground to stand upon. This reminds me of that song by Helen Reddy 'We are women hear us roar.....' It was a big deal at the time and millions of American women were all emboldened and inspired because of it. Hillary, no one cares what you have to say...that's why you LOST! Lauren is absolutely correct. I am extremely upset that Hillary thinks that I'm not an independent woman , I am and that's why I made up my OWN MIND, early on, when Hillary said she was running that I was NOT going to vote for her. So did the majority of women and men in my life. I feel we should vote for the most qualified candidate, not because they are a particular gender , or if people feel it was 'Hillary's turn'. I didn't think she was qualified, I didn't like how she ran her campaign and I felt she was less than honest. Add to that Benghazi and her email scam and you add even more reason not to vote for her. I feel like im just a person watching tv while my favorite sration is on "the world" i look at the world and think wow all this really happening how can i help how can i make the world a better place but i get too aftaid to speak my mind because of sterotypes and bullies sometime when im at school i think to my self how will i fit in how will i let people know that im different without offending them how can i make sure i do my part in the black community being mixed race with black and Caucasian how can i explain that i am mixed i know both side problems. I have never been in real trouble i have never been in the real world i have only been working on an ice cream truck doing business since i was 1 years old helping my mom there are days that go by when i dont think i belong i say am i real am i really worth being here i dont think about suicide i think about how i can make my self a better person so back to what i was saying about women and stereotypes. I respect women and anybody that i see but just saying now i dont wannw be seen as a person that abuses women or see them at just objects i wanna see them as real human beings but everyone in this world wants to prove me wrong but see i dont know how to deal with that because i was never taught to stand up for my self i was taught to ignore the problem and be a lazy stereotypical american so there is my opinion please comment if i left anything out or if i am wrong or if you just have questions please ask dont be afraid	Black, Old, Race	Age - Over 65s, Ethnicity - Black, Ethnicity - General	5/367	1.362

Yes, I totally agree! It's about women being able to make their own choices. And I also agree that the radicals are not really for equality and when they say negative things about men, like we live ina patriarchy - that's just not true and it it harmful to say things like that. There's no patriarchy in western countries so they need to stop.	Patriarchy	Gender - General	2/64	3.125
Madelaine Jones Yes, that's true. I don't understand, tho. Why wouldn't saying negative stuff about men be bad? Radicals claiming patriarchy sets everyone back. It;s not, and it just causes division.	Patriarchy	Gender - General	1/31	3.226
Progressive Resource Center So from my perspective, the problem isn't with men - I appreciate some people are quite ardent and give this impression and I'm sorry on their behalf and disagree with them.I suppose as an analogy... consider dresses. Thousands of years ago, togas and dress-like clothes were perfectly acceptable for men or women to wear. Over time, dresses became something that we associate with women and femininity. So given history, dresses aren't essentially feminine, but nowadays, if a man wears a dress, there are a lot of places in which they would be ridiculed or called a sis sy and whatever. But my perception of it is that they're only called that because it's something that's associated with being feminine or a woman in this day and age . This isn't something that's associated exclusively with dress. Things like telling someone they 'throw like a girl' implies that women are just naturally... lesser. I'm not denying there are biological differences, but my perception is that people use being female or feminine as an insult in a way that being masculine or a man just isn't. I haven't ever heard someone be told 'you're so manly' in the slightly disapproving way that 'you're so girly' definitely is.So for me, it's about these little things, because little things add up. I don't think that out in the open, people are generally against women. But I think there are a lot of things about the way our society have developed that we just haven't questioned yet, and it would be better for all of us if we do. I think all these ideas also put unrealistic expectations on men to be 'manly' instead of just being who they are and not living up to someone else's expectations.I hope you can understand my point of view, and I would be really interested to hear yours. I'm really enjoying discussing this - it's so nice to discuss opinions in a reasoned manner :)	Age, Sissy, Woman	Age - General, Gender - General, Sexual Identity - Male homosexuality	3/331	0.906

Madelaine Jones It really goes both ways- there are lots of ways that men are insultedand it's lots more common like 'don't be a d*ck". That's way more common and theres lots more too (like manspreading). It's not just radicals tho that demonize men with patriarchy slurs - thats not equality. Now it almost seems like women are getting more rights than men for how much empowerment women get nowadays. There are women in other countries who can't even go outside without covering their whole body and get abused everyday. What I don't understand is why there are women in America complaining about little things when women who are suffering more than them don't complain at all. Women are not equal to men in many ways. Men and women are just different. From carrying a fridge up up flights of steps..to the great thinkers and inventors through history. Try sport..put a woman and man in a boxing ring..same age and weight, then see who wins. Put a woman tennis star and a male tennis star at the top of their game and equally matched...See who wins. Weight lifting, cycling, etc...same conditions. In Poland, four feminists posted a video of them carrying an average sized fridge up three flights of steps. They crowed about their achievement, claiming see, we are as good as men, when in fact, it would have only taken two men to do the same thing. It then showed an average built man hoisting a fridge of the same size into his shoulders then getting on a bike and carrying it away...Try that one feminists. You are not equal..just different. A woman feminists who owns a IT company admitted that she hires only men. She admitted that she tried to employ only women, but could not find any that could do, as good as the male IT worker, nor would work as hard, nor staying way past their allotted hours of work to complete a body of work. So are men superior to women...I would say yes. History proves this to be so...accept it.	Age, Woman	Age - General, Gender - General	4/229	1.747

If they were not placed exactly where they are then life on Earth would not be possible (scientific fact). So not only are you saying that the universe somehow mysteriously created itself (out of nothing) but the Earth, Moon and Sun placed themselves at exactly the right distances from one another to support life on Earth. THEN life somehow spontaneously created itself out of nothing . There are alot of holes in your belief system there. Feminism isn't about women supporting women anymore. And it's not a celebration of what is feminine. Today's feminism is not only telling women to all act like men, but the shittiest, most entitled, promiscuous men. Traditionally, women couldn't act like that because it would be a one way trip to social suicide. This is damaging to those women's lives and to society as a whole. Feminist tend to make themselves ugly on the outside and on the inside. No one really wants to be around them because their so repellent.	Promiscuous	Gender - Female sexuality	1/90	1.111

I can't believe people sometimes. This guest is saying that feminism is about rights for all women except the ones who disagree with them. That isn't true. People who voted for Trump are disrespecting themselves, because they are not making the decision that is best for the people. Trump has literally BRAGGED about sexually assaulting women, and say what you want about that, that would be reason enough for me not to vote for him. That isn't the only bad thing he's said though. He has made SO many racist , sexist comments that I can't even count them all, and he is locking up children at the moment but no one seems to care because they're "not ours" and "the parents should have seen this coming, they came here illegally." Back to the topic of feminism though. Feminism is about living your life how you want to, with respect for yourself AND the others around you. Voting for Trump is not simply living your life how you want to, or having respect for yourself and everyone around you. You've heard him talk, you know what he's said, you KNEW what you were doing when you voted for him. You still did it. You have NO IDEA how many people's lives you have put in jeopardy, how many people you may have deprived of BASIC HUMAN RIGHTS. My hope is that you realize your mistake before it's too late. Feminists do fight for more oppressed women, but there's a system at the very top that dictates how those women will be treated and it's kind of hard to fight that system, especially in another country. Why aren't most western men fighting for them?? You don't have to call yourself a feminist to care. Probably for the same reasons.I live in America and I understand the culture here so I concern myself with the real oppression of women here....A religious woman who's been conditioned to think she can't leave an abusive husband because she must always submit to him, and divorce is a sin, is being oppressed because of her gender . Nick Babick I get your point, but what bugs us, is that It doesn't matter what the definition is, it could be the most peaceful and heartwarming definition, but if a good chunk of feminists act nothing like in the definition and hate men, then that's the image of feminism everyone has and you can't blame them for having an image that doesn't align with the utopian primitive definition. You know, when you create a definition and an image, you have to CONSTANTLY work to maintain the good image, constantly repair the bad bits and keep pushing for making the image look good and if you belong to this group, it is yours as a group RESPONSIBILITY to keep the loud minority quiet, the ones that ruin the image. Every group has that bad loud minority, but they keep them down, while feminists keep letting those badmouthers ruin the image. So when the actions of feminists and the definition alligns, that's when it's right. That's when feminism is exactly what the definition implies. You've gotta understand it doesn't matter what the definition is if more than you think number of feminists don't act it out	Nothing	Age - Youngsters	1/195	0.513

Another point feminists don't hate men , they see that most men love women and support equality in fact some of them are even feminists themselves , it's only those that manipulate hurt and use women because they are female that we believe should be brought to their issues . Georgia Weston nowadays feminism is much different. You've got the actual definition of feminism mixed up with the current feminism which makes you sound stupid as hell. The definition of feminism is to see men and women as equals but today feminism doesn't look at it that way in fact it doesn't even look at woman in men as a gender . It actually focuses on a ball of string in the meaning men as those women have actually believe their own lied that same is happening to them. People who actually still support feminism and think that it's still needed in the United States or actually cringe-worthy. There are no more problems for females and no more problems for gender equality. feminism now what day has became such a joke as what they are fighting for has already been achieved by people who actually are intelligent unlike you who seems to not understand the fact that feminism has become a complete joke and it's actually ridiculously provocative and it gets the point now where people want nothing to do with you if you are a feminist. that is much different from the woman who fought for equal rights in the 1970s. Do or do not There is no try there is no doubt that there are women who claim to be feminists and are extremists or have this man hating idea, but despite what some people claim, it isn't the majority. I think that people like to focus on the few bad because it makes it easier to ignore the problem of gender inequality by claiming not to support the movement because of a "man hating" group. Almost like a propaganda against feminism. It has repeated itself throughout history, where people discredit a large movement doing good things by making the bad aspects or bad individuals seem like they are the majority or all that the movement stands for, and that simply isn't true. Feminism is about equality between the sexes, fighting against toxic masculinity so that our men don't suffer, its about race equality and general human rights because without things like that, how can women be equal? There are so many women out there, ones I know, that have dedicated their lives to bettering society and helping both men and women gain equality. Not once have I met a "pop feminist". <p>The problem with today's world is that there are no feminine (ladies) on either side.</p> <p>The liberal feminists are technically more feminine in the way they act (they're squeamish, girly, and rely on others to protect them) whereas the conservative women all think they're men and try to do everything we do. Where I live we have "country girls" who go hunting, fishing, hang out with the boys and try to do everything we do without realizing that they're making themselves appear more masculine and in turn, less attractive. A woman's place in society is to be fragile and delicate, to be motherly, loving and caring. To appear weak, yet strong enough to stand by (behind) her husband against all odds. Bottom line, women belong in the kitchen, wearing a skirt, and doing the hardest job in the world which is being a house-wife. That is what makes a woman strong, when she accepts the fact that God made her the weaker sex, and salvation is through her husband; hence the biblical reason she takes on the man's last name. It even says in the Bible that women are emotionally weaker, and are more easily tempted by the devil to destroy man's relationship with God. That they would become confused about the differences between men and women, and attempt to become men themselves without realizing that they are only destroying their relationship with their children who no longer see them as their caring mother. The end of the world is coming, you can tell just by watching the world around you, and not soon enough if you ask me.</p>	Sex, Woman	Gender - General	2/269	0.743

Exactly, she did nothing to win, in fact she expected to win so much she almost singlehandedly lost. Feminists don't even like her because she has been politically fairly right wing in comparison to feminist causes. She did little to try and win over who she thought were her biggest supporters and would follow her without question, despite her history.	Nothing	Age - Youngsters	1/60	1.667

No one wants to mention the obvious, which is that women that think along the lines of Hillary Clinton are the equivalent of Racist Bigots. Anyone that votes for someone because of their gender and the color of their skin is by definition a racist bigot. That unfortunately includes almost 98 of Black Americans that voted for Barack Obama. We live in a dishonest manipulative and corrupt hypocritical double standard country. Women can be the equivalent of Racist Bigots and get away with it. Black Americans can do exactly the same thing and get away with it. But if a White male did the same thing as these two groups did, they would pillory Him as a racist Bigot. These groups get a free pass. I'm looking for women who crush feminists because as a woman , I think feminists make women look like retards. Just because we have periods doesn't man it's the end of the world, pop an Advil in your mouth and bounce. Also, nobody's forcing you to have kids. Just because we are able to give birth, doesn't mean we're stronger. And NO, feminism isn't about equality, if it was, then it would be called EAQUALIZM. Listen to me feminists, I am a functioning, independent, strong, WOMAN , and I AGREE with the wage gap. I think fathers should also have custody rights rather than the woman automatically getting 80 yes, I believe sometimes a woman must pay child support. And no, just because you said you were raped, I'm not freaking out until you prove it. Too many times have you assholes ruined people's lives because you were being dramatic. Feminists shouldn't try to get men banned from the streets. Stop with your shit.	Woman	Gender - General	4/162	2.469
Intelligence, knowledge, discernment, understanding, etc. come from above the shoulders. These women with an appeal to truth & logic melt my heart at a time when I have made resolve to stay as far away from their gender as possible because of all the crazy ones. Every time Kati Hopkins speaks, for example, I want to passionately kiss her. This brunette is no different. Her soft voice with reasonable words. That's where beauty is at. Their words come from a contented heart as well, which is a small step to a smile or a laugh. I desire time with their sort... and kisses. I don't think a woman with zero self respect should be proud of herself how many time has Bill disrespected you by cheating yet you still have the nerve to keep your head held high when your still with that pile of garbage face it you married a frat boy who doesn't respect you and remain with him because his last name gives you mileage. I found this page because I just read the article by Lauren Debellis Appell regarding the special election between Conor Lamb and Rick Saccone. It's hard to know where to start when discussing how damaging Appell's views are to Pennsylvania. Because fracking companies are now considered, "energy," companies and are exempt from mining regulations, the water table of the entire state is being poisoned. There are entire towns going without water. The idea that Trump is helping Pennsylvania with his coal rhetoric is absurd. The only thing Trump has brought back is black lung. We have seen cases of black lung surface for the first time in decades. At the same time, the fracking lobbyists have waged a war against education in PA. All of the fracking money goes straight to Texas. PA is the only state which does not tax resources going out of the state, and these fracking lobbyists have taken over PA state government to keep it that way. This may be the first year in remembered history in which the Universities are not funded. The University of Pittsburgh alone generates over 3.5 billion dollars a year for the region, but conservative rhetoric attacks education to such an extreme extent that I have heard Trump supporters say they want universities to fail. Why do you think Pittsburgh is still a powerhouse long after the decline of steel when other manufacturing centers have failed? It's because of high tech industries, scientific research, medical centers and universities. But Lauren Debellis Appell doesn't think that is important. Just this past month, a bill sponsored by republican Stephen Bloom passed making it possible to furlough teachers. It gets really frustrating when people like Lauren Debellis Appell complain about being called stupid, then go out of their way to push the most stupid policies imaginable. <p>I didn't vote. But if I had to vote I would choose Trump because apparently Hillary helped a r*ist r** a child when she was 12. So, basically, she 'sort-of' committed a crime, but they let her off the hook, since1. They don't think she directly took part in it.2. If she did directly take part in it, there was no proof of it, and there is just a mere hint that she did in-fact help the r**ist.3. She is only 12, and probably didn't know what she was getting into.Someone who is capable of doing this, but not getting into trouble for it (if you search it up by the way there's not that much evidence you can find) is definitely capable of lying straight to the audience, and winning the whole election, just to go on and do something completely idiotic and dumb.They have also found that she had tried to cheat to win the election, however they didn't let her cheat that much because then it would look un-realistic.I am not saying Trump is amazing. I honestly think Bernie Sanders should've won the election. It's just that most people accuse him of the wrong things.For example, A LOT of people accuse him of the wall, however, all he is doing is stopping countries under there from getting there illegally. People think: "blah blah oh no trump built wall no one can come through blocking people from families" but basically, he is not doing any thing wrong.If you think about it, they are entering ILLEGALLY which means that basically, there already WAS a law that said they can't come through. All Trump is doing is making this law realistic, even if it might be in a pretty stupid way. The real problem is how much money that will cost, which is why he was trying to get Mexico to pay for the wall. Now, this isn't the best idea, but a lot of bad things were happening if he hadn't done something to stop it. So he decided, since basically what they were trying to stop is Mexico coming in, and in order for this to work, Mexico has to agree. Otherwise the wall would be vulnerable as h***, so he asked Mexico to pay for the wall.And, yes, Trump has made some awfully stupid remarks before on *live TV!*, but listen. 1. <p>Okay I'm just going to be honest here I am not really against the idea of feminism there's a lot of countries in the world that really needed badly and I'm in full supportive of it because I think every country in the world deserves the same equal treatment as the west so no I wouldn't call myself an anti-feminist however there is a problem when your ridiculing people like when I hear these morons say screw white feminism what is white feminism supposed to be????? Oh I know it was something that happened a very very long time ago where feminist at the time did not care about people of color until the second wave came around and now it's the third wave and everything is a disaster I honestly have a bad feeling it's going to take a long time for feminism to come to the countries that really do in fact need it because since we're nearing the end of the third wave which my prediction would be 2020 until the 4th wave starts who knows what's going to happen there but feminism is not about obsessing over this gender binary shit it's not about being a man-hater even though the third wave makes it look like that even I can admit that and feminism should not be about complaining about sexist video games it's supposed to be about equality and sadly the third wave have destroyed it also let's not forget to mention this male feminist I'm woke shit because we're already seeing all those male feminist harassing women I'm looking at you matt mcgorry with your rapey looking stare that nobody seems to realize because they're too blind on how woke you are and my mom was a single parent and I'm sick of them trying to glorify it being a single mom isn't really horrible but boy was hard not to mention my father was a drug addict and an abusive asshole but it was pretty hard for her to do it on her own so my grandparents had to help out so I really don't know how a third-wave feminist would honestly responded to that last paragraph because they would immediately react to the whole domestic violence thing but they would expect a single mother to raise her child on her own without any help that's honestly how I see them glorifying single motherhood I honestly would not glorify it even though I am proud to have a great mother honestly I would just be a feminist for the right reasons by defending other countries that need it then the west because we already have the freedoms in the west I'm honestly hoping the fourth wave cares about these issues instead of making a big deal of what gender they are</p>	Blind, Drug addict, Gender, Nobody	Age - Youngsters, Behavioural Addiction - Drugs, Gender - General, Physical Identity - Physical (and Mental) Impairments	5/468	1.068

All assets owned by men prior to marriage will be excluded from divorce proceeding regardless of reason.Men will no longer put wife into matrimonial house. They BOTH buy the matrimonial house or the wedding is off.They both pay equally for every expense that directly affects the union. Nice one, my turn, here's my 7 COUNTERS to those. 1. A big myth, specially now in the Democratic world, where the white male can't even get a job causes he's not the following: a female or a person of diversity. Let me use a quote from a 2013 article by Hanna Rosin, she was the author of The End of Men. : "The official Bureau of Labor Department statistics show that the median earnings of full-time female workers is 77 percent of the median earnings of full-time male workers. But that is very different than '77 cents on the dollar for doing the same work as men.' The latter gives the impression that a man and a **woman** standing next to each other doing the same job for the same number of hours get paid different salaries. That's not at all the case. 'Full time' officially means 35 hours, but men work more hours than women. That's the first problem: We could be comparing men working 40 hours to women working 35." -Slate Magazine, 2013 article.2. Is this really an argument, there's a difference between correctness and DECENCY! Also sun exposure to the breasts is not good for them, you gonna breast feed your kid cancer? But that still hasn't stop women from going topless during spring break or any other wild collage party.3. Now that a bold statement, people like Danica Patrick, Serena Williams, Maria Sharapova, Hope Solo (unless you count that incident with the Swedish team), would say otherwise. Also there's women's basketball, softball, women are a big part of the track and field events, Yes there's no women's football team, rugby team, or Ice Hockey(?), but it doesn't take a moron to know why, high contact sports, like Roller Derby are ROUGH, something most women can't handle physically.4. You can thank the new wave Feminism for that, before during the 20's-60's, yes it was legit, voting rights among other things, but nowadays new wave feminist want EVERYTHING to be **Woman** owned, they want to get rid of the MALE, period. Plus the recent thing with Cosby doesn't make women look too good to the **Black** Community right now, so start by fixing that.5.Women CAUSE the **sexual** culture in America, first by **race** mixing, then making men do all the work and taking their paychecks as part of the "child support" deal you forced on him, when you cried to the court that he "beats, and abuses you and your kids" and some sad Liberal Judge feels sorry for you, then when you get the kids, fuck them they're just another asset you got, and daddy is fucked for life because of a big lie mommy told.6. Really? Both have to wear outrageous uniforms as it is, I don't see how this is also so when the PE clothing is the SAME THING, shirt and shorts. Maybe it's cause of those small skirts and thongs, or maybe those "gangsta" culture clothing that makes her look like a **ho** instead of a young lady. Dress codes wouldn't be needed if the parents stop being lazy asses and make sure their kids dressed decently, NOT IN THONGS, TUBETOPS AND SAGGING PANTS.7.Two words: Wonder **Woman**, yes she was created by a man, but the idea came from a **woman** who the man saw inspiration for the creation, and just cause the female is tied up in ropes by the badguy, shes being sexualized? If that was the case then EVERY HERO would of been sexualized, specially Superman and Batman.The truth is this, **woman** are know for destroying civilizations, how is this

They are still stuck in the middle ages what have you where women def are oppressed. As for American men and women, it's far from, but neo feminism wishes for you to think they are. Islam as a religion I think is ok, but Islam as a law is what kills the faith itself. Im not Islamic but I have had Islamic friends, and In getting to know them, they have never shown to where they agree with Islamic extremism. Many seem to follow ever similar paths to christians. (Please read the entirety of this comment, Thank you.)Too the people in this comment section, I'm going to go on a bit of a rant here, about BOTH political party's, but bear with me here,EVERYONE is entitled to respect, what is respect you ask?Respect is NOT something that is earned, ADMIRATION IS EARNED.We always put respect on these giant pedestals, and hold their opinion above EVERYONE else's, that's not respect, that's admiration, because you ADMIRE their opinion the most because you like what they say. You can admire and respect someone's opinion, but what about BASIC respect? Respect at a down to earth level,as in, let's say I share a political opinion on something and then people start telling me to eat shit and die, that's not basic respect.Basic respect is allowing someone to have their political beliefs and you have yours, and you can both discuss your opposing views on something civilly, that is basic respect, the Golden rule.I am starting to think that the term 'SJW' is also being used to shut people up,here's a scenario:A man starts screaming and berating a person who believes there are 2 genders scientifically, but you can identify as anything among a group of friends or people you talk too, but does that mean we should throw them against the wall and beat into their heads that their are only 2 genders, and not let them identify as anything else socially? No.Now, if someone screams at you something like this, 'DID YOU ASSUME MY GENDER ?!' When you first meet him/her and don't know what they want to be called yet, just walk away.But if they correct you like this,'Oh...I'm sorry,but, is it ok if you call a (blank) instead of boy/girl?' (Or something similar to that)I think you should just call them what they want to be called, as long as they aren't screaming at you like a banshee.Unfortunately, I'm told by republicans that I'm an 'SJW' or 'facts don't care about your feelings' although that, to an extent, is true, but it shouldn't be used in a manner to shut people up. People have been silencing me using these phrases. There are SJW's on both sides of the spectrum, because BOTH sides use terms and phrases to shut people up. If you want to identify as something other then boy girl, I really don't care ok, you do you, I don't care.I don't know, are all republicans like that? I've had a pretty bad experience with all of the ones I've meet so...are there any republicans who just like civil debates anymore?	Gender	Gender - General	1/445	0.225

And the people who knock trump and his supporters are crazy , too. Trump gets way more people at his rallies, is NOT a politician, and has brought back ten times more jobs in his presidential terms than Obama did. The economy is better than ever, and the wall is already in the process of being built. He has stayed true to his words and promises made during the 2016 election. He even recently halted a war between America and Iran because he was concerned about how many people would be killed as a result of it. (Yet the media still had negative things to say about him. Nothing he does is righteous in their eyes.) He is mostly rational with his decisions. These modern democrats are not in the slightest. Trump has done all of this and more in only 4 years. If in fact Mr. Manafort is guilty of collusion, or breaking any laws of our Nation , I then hope that he gets everything that he deserves in a court of law.I would hope that every American citizen would feel the same, no matter what party they represent. Time will tell if there are more indictments for people in either party, as I expect will happen. But remember in America we're innocent, until found guilty in a court of law, not the court of public opinion.	Monkey, Nation	Ethnicity - Black, Nationality - General	2/95	2.105

Keep It Real, will actually, innocent until proven guilty, is still the law of the land. Look I hate the Clinton's, even though I voted for Bill twice. But that was before I started to follow them, and in my mind, I'm sure that they are guilty of many misdeeds. But in fact, my feelings don't count for much of anything, I know that the Clinton's have been found guilty for corruption, and far worse crimes, by a huge amount of the citizens of this Nation . In all honesty, probably more than the Clinton's should be. But neither Bill or Hillary has ever been found guilty of a crime in a court of law, except for Bill's misdeed while in office.While I hope that changes. and soon, they're both free to live their lives as they wish. Which I believe proves my point.	Nation	Nationality - General	1/144	0.694
Keep It Real, while what you state is a different argument, it is one that I can agree with you on. I believe that there is at least a two tier justice system, more so now in our Nation , than ever before.One for the wealthy and powerful, and one for the peons, and maybe even a three tier system. If in fact, our black citizens are treated differently as they claim.I know, or at least it is the appearance, that Obama's DOJ, and F.B.I. were corrupted. Like you I want answers, as all Americans should want answers. Democrats should be as eager to expose corruption on the left, as they are to expose corruption on the right, and vice versa.And we as citizens of this Nation , should demand that both parties do so post haste. Deee S There's plenty of evidence against the shrew and her dirty dealings. Call me what you like because I don't care. The more you hate Trump the better I like it. Keep It Real, will to our discussion on innocent until proven guilty, I guess maybe we could just agree to disagree?I don't belong to either party any longer. I'm a registered Independent but I'm personally conservative in many things, I absolutely hated Obama, and his administration, and will NEVER vote for another liberal with the mindset of Obama.I voted for President Trump, even with all his bumps and pimples. What the left is doing now has hurt our Nation . And in doing so, in my belief, have destroyed themselves in the eyes of the citizens of our country. No matter what happens now, the liberal left as a viable force, will no longer hold a great amount of influence in our Nation . They can still be destructive, but that's pretty much all they have going for them.	Nation	Nationality - General	2/139	1.439

Right right.. don't look at the russia investigation.. focus on the brain dead bimbo who's eyes are trying to fight each other... lol, sorry kiddo.. I don't live in your echo chamber.. I'll say whatever I want and whether you like it or not, IDGAF :D	Bimbo	Gender - Female intelligence	1/46	2.174

By the way, Trump's tax plan is awesome.	Monkey	Ethnicity - Black	1/49	2.041
Sidney Monkey Diatribe is not an actual argument.. Your writing is horrid. lol I am not whining, by the way. I am calling you out on your bullshit.If you really want to about a scandal, how about the Trump Dossier where Hillary and the DNC paid around eleven million to create false stories about Trump? That's a very interesting little topic..	Monkey	Ethnicity - Black	1/62	1.613

1. You're not using "diatribe" right... My opinion was not an "attack" nor was it bitter or vicious... if I wanted to write a diatribe about you, I'd say, "when you think being called spoiled brat is a 'diatribe'... your existence is the definition of 'snowflake trumpkin'"2. Please show me the indictment on Hillary... considering conservatives run the entire government now, if they really thought she did something wrong, wouldn't they immediately initiate a long and costly investigation that produces no results.. like Benghazi...right? I think your argument about Hillary should be directed at the government run by YOUR party... not little ol me who doesn't give a squat what grandma saggy tits does... 3. Since you obviously care SO much about scandal.. lets talk about the 2 trump staffers CURRENTLY under indictment... you know... things that are actually happening.... or are you simply resolved to ride Capt. Trump's swiftboat until it runs ashore?	Brat	Age - Youngsters	1/155	0.645
Sidney Monkey Number one. I don't live online, so whether I comment to you 5 mins later or 4 hours later should not be an issue. Number 2. I was watching stuff on Manafort all weekend so it was way before your genius kicked in. Number 3. This video/clip/segment has absolutely nothing to do with Manafort. Maybe try to actually go to one and comment there. Who is off topic now?	Monkey, Nothing	Age - Youngsters, Ethnicity - Black	2/71	2.817
Sidney Monkey You posted 14 hrs ago. They started longer than 14 hrs ago. Like more than a whole day and a half before. Right there, I'm going to leave it. We knew Friday night.	Monkey	Ethnicity - Black	1/35	2.857
Sidney Monkey Sorry but I heard nothing actually saying it was Hillary who was being indicted. I heard jokes about her only and speculations of who it could be, with special attention to Manafort. If you can't tell either of the two apart from the facts, then it's a personal issue you need to sort out yourself. As for 'y'all', who is y'all? The mischief maker trolls? The alt-right and alt-left idiots who make over the top comments that maybe only a few agree with? Who is this y'all? It's a generalization of a large group of people who happen to have the occasional nut job lurking in the corner. We all knew it was Manafort as far as I can tell. Trump both fired him in 5 months and then put distance between. He was being investigated for years before the campaign. We knew it was coming for him eventually. You aren't looking for the news hard enough. And I somehow doubt you have even looked for it since, once again, this video clip has nothing to do with the price of tea in China. I saw it live on Friday, not in a YouTube clip.	Monkey, Nothing	Age - Youngsters, Ethnicity - Black	3/197	1.523

<p>Ok Jennifer... The second the story broke on CNN friday night, every right wing propaganda site started spewing hours of clinton bashing and speculation, including your beloved FAUX... If you missed that, maybe your fingers aren't so much on the pulse as they are plugging your ears.. "Ya'll" is FAUX and King Cheeto's white knighting, alt-righting, alternative facting, bible thumping, gun toting, flag waving AND wearing, tea-partying, neo-nazi-ing, science denying, homophobic, nationalistic, misogynistic, greedy, angry, selfish, jealous, deplorable miscreants whom instead of taking responsibility, want to swiftboat every single trump scandal... (perfect example... you believe weinstein's accusers, but not Trumps? convenient, no?..)If you don't fall into any of those categories, don't stand shoulder to shoulder with them and you wont get caught in the cross hairs... Blaming it on a "few nutjobs" when trumps loudest and most prominent supporters are white supremacists and corporate America is not only some form of denial, it's recklessly delusional... The shitheads know what they stand for and what the party is about... You're the nutjob in the corner if you don't believe obama is a Kenyan Jew/Muslim born on mars and hillary doesn't run a child sex operation.... again... if you don't want to be lumped in with these people, don't stand shoulder to shoulder with them... simple as that...Furthermore, I have explained repeatedly why this comment is here... but since you missed it over and over and over again, I'll repeat it for you... FAUX took an hour longer than any other outlet to break the story Monday morning... they needed time to figure out the spin and they dropped the ball... had they not, I'd be talking about the cackling hens in the FAUX echo chamber spouting the Murdoch machine's talking points about how the national feminist movement is just evil Hillary and the democrats trying to take away your precious right to be a stay at home bimbo; when the reality is that domestic violence is a major issue in rural (ie. trumpland) America.. and libs believe getting beaten and harassed to be part of a backward, future-less culture shouldn't be women-of-the-rights only option... It saddens me conservatives see things differently.. but that's what this is all about, right? Out with the old, in with the new... progression, ya'll... winter is coming :D</p>	Homophobic, Old, Sex	Age - Over 65s, Gender - General, Sexual Identity - General	3/384	0.781

Sidney Monkey Maybe so. Maybe we are all nuts for arguing while both parties fuck all of us over. And over, and over. That's starting to sound like the definition of insanity. Frankly, I've had enough of all of them.	Monkey	Ethnicity - Black	1/40	2.5
Sidney Monkey No. I think you missed the point. You are so steeped in leftist politics that a fair and honest conversation with you will always turn into insults and denial. That's just too bad. But, MAGA! Good as it gets I'm afraid and, if justice exists, the Clinton/Obama crime families along Don Soros will indicted and imprisoned before all is said and done. Good day to you sad man.	Monkey	Ethnicity - Black	1/70	1.429
Sidney Monkey I don't mind your arrogance. I expect it. But you overlook, most conveniently, the filthy, criminal, and evil that covers your party end to end. You don't know me or much about conservative people in general. That's evident. You speak like most liberals with a phony air superiority and one can almost hear you yawning as though everyone is beneath and boring to you. In short your an ass who thinks he can defend horrid policies like abortion on demand at any phase of pregnancy. That's what your party's platform is bedrocked upon. Your party is sick and pathetic. And, they not only lost the last election, they will most certainly lose the next. Your Obama kingdom has come down and your Clinton one will never rise. Good luck. 1. Arrogance, confidence, indignantcy, and martyrdom all sound the same when perceived by opposing viewpoints...2. I know enough about conseratives to know die hard trump supporters aren't regan's conservatives.. they're bottom feeding jackal supremacists, literal thinking morons, and 7th day evangelicals praying for an apocalypse. (ie. ben carson... look it up)... (edit: sorry, I was being dismissive... how about, I know that every time someone is getting less than they've earned, a rule made by a republican is behind it... 3. Our party's platform is: if you need something to live, you should get it if nobody else gets oppressed in the process. 4. No progressive is defending clinton or obama... we dont care about them... maybe at one time we did, but we learned from that... why didn't you? why do you still care what THEY represent? why are you so unwilling to recognize what current events are leading toward?	Nobody	Age - Youngsters	1/152	0.658
Sidney Monkey What They represent is the reason someone as unlikely as Donald Trump was able to defeat a career politician on the heels of the most divisive presidency in history. We have to care to prevent it from ever happening again.	Monkey	Ethnicity - Black	1/42	2.381

Please lol.. sanders would be president if the DNC hadn't stacked the deck... their activity acknowledged, it was the modern manifestation of the republicans/tea-party/alt-right/waaa i'm scared, that got trump elected... not anything Hillary did or represented... (keep in mind she's not under public investigation and republicans control every branch of the government...) When you look at how the electoral college works, sophomoric bumpkins can recognize how undemocratic it is.... If America made a 1 voice 1 vote rule today, republicans would never win another nation election... and if you know your history, you know that could be said for 4 of the last 5 republican presidents... Sidney Monkey Lol. You are delusional. Or on some heavy duty meds. Sanders? Wow. Glad Clinton torpedoed him while she was shooting herself in the foot. As for the electoral vote. I think I'm going to go with the forefathers on that one. I've a feeling they knew a bit more about protecting the people than you. Genius though you believe you are. Thanks for playing but, frankly, you are boring and not much of a contributor to true and relevant conversation. Hang tough, however. Feminists are saying vote for the good candidate. Hillary is just saying don't vote for a pig. Why would a woman vote for a pig? It's not about male vs female, Trump is a pig who hates women. His wife can't speak English fluently. English she's reading from a teleprompter. They don't speak. Melania speaks with her relatives. She does not speak with Trump or any other Americans.
