World-wide, we live in societies that mainly perpetuates the idea of young male strength through the military and sports which dominates all cultures. From an early age , females are socialized into weak and passive roles. When they are adults, the majority are invisible to power jobs or governmental participation although a few become tokens, most often, if they inherit wealth. Ageism is practiced more severely against women because men are more prepared financially in their senior years. Also, the media and social norms generate the notion that males maintain their sex appeal and virility in that they can produce sperm to produce offspring with younger females while women of the same age are unproductive. US President Trump married and conceived a son with a woman that was 24 years younger than he was and maintains the most important job in government even though he is 71 years old . Through history and presently, wars and crimes are commonly committed by males, who unyielding dominant woman and the world, at any age . It's ironic that the females, who are restrained and devalued, outlive the males.	Age, Ageism, Old, Senior, Sex, Woman	Age - General, Age - Over 65s, Gender - General	9/183	4.918

It's interesting how White elderly folks complain about experiencing ageism . Now they understand that prejudice isn't a myth. Affects just old people ?? NO I am afraid it affects even younger people, for example in my case young people who are 5 or more years younger than me avoid having anything to do with me.	Old	Age - Over 65s	1/37	2.703
Ageism doesn't just apply to physiologically old people it also applies to young people as well i would say more so even than older people, many young people are far more intelligent than their older counterparts but are dismissed because of age without anyone ever having considered their arguments. Ageism happens to younger people too. Particularly people age 18-20. They're quite demonized by laws and regulations. (Harsh DMV punishments on youth, can't drink, can't own handguns, can't adopt, can't rent a car, can't rent a hotel room, can't go to a casino, can't be public officials or police officers, BUT they can die for their country). I'm 27 and when I told a few teens my age , they said I was old , which made me feel bad, because I don't feel old . I think that's probably a common experience throughout life, when people just label you that way. It's a terrible mentality. I never felt that way about anyone when I was younger. I hope as we go forward people realize the narrow-mindedness of the way they treat people, and change their ways. This is good stuff! I intend to share this with the paramedic class I teach. Over 30 of our patients in EMS are over the age of 65 and I believe we make far too many assumptions when we deal with different age groups.	Age	Age - General	2/44	4.545
