Sexism in the Marvel Cinematic Universe (Discussion) Did you come up with this title your self or did you just put something random...im asking because you never got to the point in any way about sexism in the entire video this video according to your title was a lie all you kept on going on about is gay this and gay that homosexuality has nothing to do with sexism ...I'm number 100 on the thumbs down only because I hate videos that lie after telling us they will be discussing the issue but you never got to this point.....This video was totally pointless	Gay, Nothing, Sexism	Age - Youngsters, Gender - General, Sexual Identity - General, Sexual Identity - Male homosexuality	8/102	7.843
Because Queer is a sexual orientation, how often in real life do people talk about their sexual orientation. Especially, at work. These people are working as superheroes at shield aren't gonna talk about their sexual orientation unless there's a love scene between two people. Like any of the characters could be gay , how do you know?You can't see queerness. It's not a visible trait. The only way you will see it is if the characters have a relationship. <p>It's hard to talk about MCU as a whole since the films and the shows are poles apart in terms of diversity. On one hand, out of the 14 MCU movies released so far, 12 had a straight white man as the lead character, and 2 were ensemble movies about a group of heroes consisting of 5 males and just 1 woman. MCU has been going on for 9 years, and they are only now going to have a black lead and another one with a female lead. On the other hand, out of 2 MCU network shows and 3 Netflix shows so far, 2 have had a female lead, 1 has a black male lead, 1 has a white male lead whose character is disabled, and 1 is an ensemble show where half of the main characters are women (just like in the actual human population) and that focuses equally on men and women, and that has one of the most ethnically/racially diverse casts on TV. That's one of the reasons I prefer MCU TV shows to movies. The other is that MCU TV is generally less formulaic and less predictable and takes more risks, and all the shows have been very distinct and different from each other.</p>	Black, Disabled, Woman	Ethnicity - Black, Gender - General, Physical Identity - Physical (and Mental) Impairments	4/212	1.887
<p>You're right, DC is better in representation. However, there are two queer characters in Marvel TV series: A lesbian lawyer in Jessica Jones and a gay inhuman in Agents of Shield. There is also an Asian Elektra and a black character who now has his own TV show: Luke Cage (and there are many people of color in this show like Rosario Dawson and others). I've seen criticism towards Agent Carter that says there are few women and people of color (I agree on this, however we must remember the actress who plays the protagonist is half Native American). I have to say that Marvel TV representation is better than Marvel movies (I'm dying for a bisexual Capitan America). But: Cut the artists some slag and let them make their stories and their Movies. If they Think the charakter should be hetero black than he is . If they think This guy should look like a model is gay and white he is . If they think a woman should look sexy , it should and if they need a fat guy (I am too) or a fat lady (I am not) Then so be it . Why force them to indclude diversity . Or to break it down in a more funny way : Ultron is and should not be a female gay latina except the Storyteller decides to give him such a voiceover for one or two sentences when Tony is drilling in his Code and makes fun of him . First off, The X-Men aren't apart of the MCU. And I think a lot of people think that because black widow is the only female avenger she is the only female in Marvel. Have you forgotten The Wasp, Gamora, Agent 13, Scarlet Witch , Captain Marvel and more (even more in the comics). That is something else people forget, there are so many things that go on in the comics and people only focus on the movies. More female characters Spider-Gwen, Squirrel Girl and Ms. Marvel are in the comics.	Black, Witch	Ethnicity - Black, Gender - Female age and physical appearance	2/89	2.247

I agree that there isn't nearly enough LGBT representation in the MCU, but there is some. Jeryn Hogarth is an out lesbian in Jessica Jones and Justin Hammer (one of the villains from Iron Man 2) is confirmed as gay in an Iron Man 3 Marvel one-shot. Though with Justin, it feels like it was added in as either a joke or after-thought. There has also been a lot of talk about adding LGBT characters. Your point about Marvel not having same-sex relationships because they view them as not family-friendly still stands, because Jeryn is in the dark Netflix series, and Justin is only out in a DVD extra. We need some actual representation in the actual movies, and there needs to be at least some transgender representation. I think the planned Runaways Hulu show might be able to help on that last part, seeing as the Runaways comic had one of the most famous transgender Marvel character, Xavin. Just as an FYI, the X-Men films are not part of the Marvel Cinematic Universe. The X-Men are a Marvel Comics property but the films are produced by 20th Century Fox. The films are not part of the shared universe that includes the ABC and Netflix television shows. The decisions about what themes and characters to include in the X-Men movies aren't made by Marvel; they're made by Fox. Again, just an FYI.	ABC	Nationality - Chinese	1/73	1.37
I agree with a lot of what you've said, the only thing that I don't like is the idea that you seem to agree that the X-men are an acceptable allegory for oppression. I'm surprised that people find it okay, because if the idea of the X-men is to point out unjust discrimination against a non-threatening demographic, you can't really use a group of people with incredible powers who do pose a legitimate threat to humans as an allegory for that. Along those same lines, people seem to think that it's appropriate to use supernatural creatures as allegories for racism , and that also doesn't work because again when it boils down to it, vampires and werewolves (two supernatural monsters that are linked to animals) and other paranormal entities do pose a threat to humans and they can and do harm humans because it is an inherent part of their nature. If the purpose of a work is to prove a point that racism and oppression and discrimination are wrong and being lopsidedly utilized against a minority, the message is sort undercut when you use aggressive, hypersexual, animalistic MONSTERS or a group of superpowered beings whom parts of their identity are derived from a GENETIC MUTATION as a substitute for the LGBTQ+ and/or POC communities.It also doesn't help the fact that many of the most well known and most often portrayed characters are white or at least white passing.	Racism	Ethnicity - General	2/239	0.837

I love what you say in this! (I did a Fandom Forward video today so that's how I found this). You brought up some great points - I do feel like diversity could be extremely up-played in the x-men films. The comics do have queer characters, major female characters, people of color, and other marginalized characters that don't make it into the films (or are sidelined/diminished when they do). I also liked your discussion on "male vs female" ways of expressing fandom - I'd never thought of that before, but you're right - it seems like men dominate the collecting, trivia, game night side of fandom while females dominate fan-fiction, fan-art, etc.	Queer	Sexual Identity - General, Sexual Identity - Male homosexuality	2/112	1.786
Are you for real?The MCU reeks of Feminism and a stupid one i might add.They have the mortal and skinny Black Widow who destroys an army of androids with one hit and now they're about to have Netflix live action series about a short little girl who's about to become a super agent and has nothing to do with her muscular and athletic comic book counterpart.Also in the All New Marvel Comics Spider-Woman is fighting crime while being heavily preagnant so where exactly do you see sexism with the exception of Mystique of course whose cinematic incarnation is owned by 20th Century FOX? First of all I totally relate to the lack of out queer characters in the Marvel Cinematic universe because I also feel like its more difficult to relate to the characters and would love to see an out gay character. (Fun fact: Mystique is queer in the comics and raises Rogue with a female partner, but Marvel comics couldn't directly say that she was queer at the time). Second, have you heard about/read The Fangirl's Guide to the Galaxy? Its seriously amazing, and I think you would love it.	Gay, Queer	Sexual Identity - General, Sexual Identity - Male homosexuality	8/89	8.989
And to add, it's not just the marvel fandom because queer characters are totally underused in most things. There are of course great shows/books/fandoms that have great queer characters (Cosima, Delphine, Felix and Tony from Orphan Black , Tiny and Will from Will Greyson Will Greyson by David Levithan and John Green, etc) but there's certainly room for improvement especially in the more mainstream fandoms	Black, Queer	Ethnicity - Black, Sexual Identity - General, Sexual Identity - Male homosexuality	5/64	7.812
And of course a problem with heteronormativity other than lack of relateable characters is that queer people exist so ignoring that in media is just ridiculous.	Queer	Sexual Identity - General, Sexual Identity - Male homosexuality	2/26	7.692
"is it important to see characters that reflect your identity." i mean yeah that's a no brainer, but its not a necessity. The fiction should not have to conform to a checklist of diversity just for the sake of diversity. The reason there are no queer characters in marvel is because the majority of known established characters are not queer . its as simple as that, its not to do with thinking queer people are inappropriate. im not here to shoot down all the points you make but youknow. theres not as much sexism around as you'd think	Queer, Sexism	Gender - General, Sexual Identity - General, Sexual Identity - Male homosexuality	7/97	7.216
FJaypewpew You need to ask yourself WHY there aren't many queer characters in Marvel to begin with. That answer is alot about a history of queer characters being seen as inappropriate or taboo, and although we've made strides in representation, it's still got a long way to go.And why shouldn't we have "diversity for the sake of diversity"? We've had white straight guys for the sake of white straight guys for most of cinematic history, and diversity does so much more than just tick boxes.	Queer	Sexual Identity - General, Sexual Identity - Male homosexuality	4/86	4.651

There are no queer characters on Marvel because those characters were created on another time. Also I agree with him art should never have to follow an agenda art should be free. If you want queer characters well there should be another fiction created for that.	Queer	Sexual Identity - General, Sexual Identity - Male homosexuality	4/46	8.696
+FJaypewpew I'd like to point out that agents of SHIELD put an established queer character in their show (agent Hand), and then I'm pretty sure said she wasn't queer for their show (I think due to bad press after killing her). And (again agents of SHIELD because that's what I know) they change characters ALL the time. Look what they did with Hive! That is NOT the original Hive. But it's also totally cool. And what the other comment said. Maybe it's harder for people who are constantly represented to understand, but it means a lot to have a more diverse set of characters, includes more people's ideas, and opens up many more stories and perspectives so that (I for one) feel a lot more a part of the stories. They are putting themselves in a box with the cis, straight males being the only thing they tell stories about. It's enriching not limiting. :) I think you just need to stop thinking of it as bad thing or a chore. It's just making the world more realistic/improving the story and including more fans in it on a more personal level :)	Queer	Sexual Identity - General, Sexual Identity - Male homosexuality	4/192	2.083

As a female I honestly don't feel like I'm able to even wear anything themed otherwise I could be regarded as being fake and would have to defend why I'm wearing that particular item. I didn't grow up with access to comics. It is insanely hard to know where to start when it comes to comics if you know no one who has any to lend you. I LOVE X-men. Have I read all the comics? No. I have the first 2 omnibuses, I have seen all the films, I own all of them - DVD and bluray ((The exception being days of future past). I love the 90's X-men cartoons, X-men Evolution, Wolverine and the Xmen. I know more about Xmen than anyone else I actually know. So why do I feel uncomfortable identifying as an X-geek when I so clearly want to? In fact, the only two Fan Tees I could ever wear were my pink Storm one - the only pink thing I have ever loved wearing, BUT I always coupled it with a waistcoat so obscure the image a little (Also waistcoats are awesome) and my Hufflepuff Tshirt - because I actually grew up with Harry Potter and I like to defend Hufflepuff. I feel Solidarity with Hufflepuff. (Also I did a lot of Text based RPGs that were HP themes from the ages of 12- 16. Although I was into Ravenclaw back then).I own SO MANY Fan Tees. I even had one made for my friend and I saying "Get the Cheese to Sickbay", a relatively obscure Voyager reference. I can't even find them anymore. They are probably in storage despite me loving them. Everything online has basically told me that if I can't recite all the facts about something then I'm not a true fan. That I haven't earned the privilege of wearing those clothes. This is, of course, ridiculous. I can go out without makeup, looking like a complete scruff and I don't care. As soon as I wear a tshirt showing something I love I become super aware of it and super shy. I know this is a minor point, but it links in to the "fake Geek gamer girl" image. I don't feel like I can call myself a gamer, just like I don't feel like I can call myself a geek because I feel that as a female I suddenly have to represent all females and if I fail a test of knowledge/skill I have let all females down.Of course, this isn't true, and it is SUPER insulting to everyone around me. But this is a huge voice yelling at me from the internet telling me that I'm not geeky enough or good enough at games to identify as anything.I Love the Marvel Films. Have I seen every film? No. I didn't see The Hulk for example. I haven't read any of the comics. This is another thing I see a lot online: If you've only seen the films then you're not a true fan. I want to tell people to shut up - if you enjoy something you're a fan. These attitudes exclude people, even if you know how silly those standpoints are.I suppose you could say that because things like Marvel, X-men and DC are decades **old**, back when comics were stereotypically a male thing, it feels as though you have to have Hard fandom evidence to support yourself and know all the facts to be considered a "true fan". This is lesser (though still exists) in more modernly created fandoms like Harry Potter. Seen the films? Liked them? You're a fan! Read the books? bonus! Not read Magical Beasts and where to find them? No problem! Perhaps that this is because there were more females around who could enjoy them in a way seen as socially acceptable in those fandoms to help shape them, whereas stereotypes back in the 70's (eg when the Thor comics

<p>Lexi B I grew up with games in my house. My mum played Tomb Raider. I didn't always actually get to play, and I had a few years of depression where I don't think I really played at all. But in my 23 years of life I have mostly been surrounded by games which I have enjoyed, yet because I haven't played X Game or because I don't play Y hours a week or have Z skill level I don't acall myself a gamer. There are no rules so it feel ridiculous. Again, I feel like I have to represent all females for some reason and I don't want to do that (I actually made a video on this June 2014).Also, there were 2 reasons that I know of why the publishers wanted Max to be female: 1) Her name is based on a Male Character from Catcher in the Rye (Yet Thor as a female seems to be working out pretty well so why is this a problem?) 2) They seem to think that Female protagonists don't sell well (I am more likely to buy a game if I think that there is a decent female protagonist. Also At least BloodRayne was deemed good enough to make a series. Oh. Who am I forgetting? Lara Croft? Nah, it's not like she is super successful or anything.What I like about Don'tNodEntertainment (Who also made Remember me and got a load of Crap about Nilin being female) is that they don't make characters female to make a point. Their protagonists are female because that was their "vision".</p> <p>To me this signifies reduced sexism more than adding females to make games more representative. Games reflect society - or at least gaming society. So I do believe that as a whole, games are becoming less sexist. Also, Chloe and Max being so different both physically and in personality - YAY! WE HAVE VARIETY PEOPLE. (Although I can't recall much ethnic variety).What I HATE is when guys say "So, I'm a Dude and I don't mind playing as girls. There are loads of games you can play as a girl!" I think this is because when you are adequately represented then you don't feel the need to be represented. When you're not, you want to be. Only 15 of playable characters are female. 15. Yeah, there is a BUTT load of games out there, so 15= a buy load of games is a lot of games you COULD play. But 15 representation isn't great, especially when females are at least (but I think more) 50 of the world's population.One excuse is that "We can't work out how female's walk and display it well". This is a weak excuse. For one thing you've had more practice with guys. More female characters would result in more practice and you'd work it out! Girls don't walk THAT differently to guys. Oh, look, Sony figured it out ages ago with LARA CROFT. Hmmm, the Resident Evil series do seem to be doing well (although these games seem to have breast wobble size... indicators as to the developer's preferences, so I suppose females are seen as sexual objects still).Don't people consider it a problem that off the top of my head I can only think of a few female protagonists, and I had to recycle my examples?</p>	Ethnic, Sexism, Sexual	Ethnicity - General, Gender - General	3/563	0.533
---	------------------------	--	-------	-------

Lexi B I have been super lucky in life knowing all the people that I know.The Resident Evil series has generally been really good at having a good male:female ratio (Usually each person has a partner of the opposite **sex**), but they also have diversity within their women. Jessica is flirty, for example, Jill is a bit more business like (but can still have fun). I'm a little torn on whether they still seem to indicate that women are **sex** objects. Jessica's personality is flirtatious, but SOME WOMEN ARE, so that's fune. Jill has big boobs, Moira, Claire and Jessica have smaller breasts. YAY DIVERSITY! it makes sense that they are wearing wetsuits which are form fitting. But their costumes don't make sense. The BSAA CAN AFFORD TO GIVE THE UNIFORM AND FITTED WETSUITS! There is no reason why Jill wouldn't be able to do hers up over her cleavage. But then, wetsuits are probably annoying to have all they way done up. She could have undone it a little for comfort. Jessica has an entire leg out. I don't know how that thing didn't freeze off! BUT she was trying to seduce Chris and she IS flirty and both of those probably had an impact on her choice. Rachael though. Rachael. In what world would anyone on a mission to fight bioterrorists undo their wetsuit to below their bellybutton? Now, she was ill, so it is possible that she undid it to cool off, to make herself feel better, but it's still undone when you can play as her in Raid mode. They did treat Sheva awfully. Always zooming in on her boobs or breasts with some excuse such as her gun or she is "infront of the imaginary camera". Do they do this to Chris? No. But they DID super beef up his arms to alarming levels. So, guys are sexualised alittle too, but NOT as much as females, which is why I regard Chris and Jessica as sexualised, which means it is at an acceptable level, but Rachael is oversexualised, It's too much. Although she is great in Raid mode. Now, I know a lot of this only makes sense to people who have played Resident Evil, and I do seem to bee focusing on revelations 1 here, and that's because I don't think the previous games were TOO bad. Ada was sexy, but not overly so. Jill has big boobs, Claire does't - variety is good. But I do have another point here: Christ gets a sailor outfit with short shorts. On a female this would be considered as sexy. On a guy, it has a comedic effect. Why? Because society has conditioned this. And that is NOT RE's fault. But it does make me wonder if they put Rachael in specifically to show the contract of what they could have done with female characters (though I doubt it).If you're looking for a good Free to Play game, Neverwinter is excellent. You seriously do NOT have to pay to win. The best armor and weapons you EARN. The only better things that you get that you pay for are FASTER mounts (You can still get mounts) and some companions - although you can save up for some of the best companions with in game currency. The Cat is my favourite. And the Dragon. I had to be SUPER stingy with my astral diamonds to get them! It has to make in game sales so it can afford to run, but it still does it's best to keep things fair and balanced. Also it is a super accepting community. It's no big deal if you're female. If you make a mistake no one says that you're entire **sex** is a failure. You know why? 1) plenty of females play. YAY! 2) I have a theory that the more female

What I’d like to add to what you said about the PoC representation (or lack thereof): A person of color doesn’t need to have a storyline that includes struggle against oppression or discrimination because of the color of their skin. I’m not against storylines like this but I also like to see characters who don’t just struggle with this. Thus, because we are all also smart people who are aware that statistically the actual default is neither white nor male, we need to include non-whites on purpose whether the story is about racism or not so we can shift our view of the "default" and move on towards a better world.
