So blackpeoplemeet.com isn't the biggest Ethnical dating site, but it's not racist either, but this is? Honestly it's just preference, I wouldn't use it lmao my wife's 'black' but honestly I don't think any of them should exist, like I think if they want preference, just say no to people of other race and regular dating sites because I understand racial preference but there shouldn't be a platform dedicated to it, it's not racist it's just pointless and things like ABC get pissy about it and I cannot be bothered with that	ABC, Race, Racist	Ethnicity - General, Nationality - Chinese	4/92	4.348

The ending of the video with the black people meet contradicts this whole video attacking these people who made this website for whites but now the website for blacks is seen as innovative. Also nothing wrong with saying you want to date someone who is white it's not racist at all it's simply a preference. And you can't blame someone for that. Maybe they want someone who has a similar background and upbringing as them. Relationships are after all built off relatability. <p>Seems like a good idea. I'm white and I don't want to meet someone who isn't white. Not because of racism, but when I find the one, I want her to be white so my children look like me. I wouldn't want to have children with a black or Asian woman because my children wouldn't have my characteristics, I mean someone who was Persian or Argentinan/Chilean would be okay (I've had a Argentinian girlfriend before) but that would be a big concern for me if I met someone that I could spend the rest of my life with. I bet a lot of people only want to meet people of their same race. I find white women the most attractive too. I don't find black or south-east Asian women attractive. So having a site where I can only meet white women would be perfect! I may sign up.The fact where white people meet is controversial is disgusting. There is black, Latino, Asian only sites that have no controversy, when white people want to have their own its racist. This is a bad sign.That woman that says that white people can't meet each other is wrong. I've had trouble finding a nice traditional woman. And it's perfectly fine to only date within your own race. I only really date within my race. I would possibly be open to a Asian or South American woman. But I don't really find certain races generally attractive, and that's fine. I'm perfectly fine with being friends with people of any races, I've got friends who are Chinese, Korean, Guatemalan, Fillipino, Malayan, Indian, Pakistani (one of my best friends is white/Pakistani mixed) and I know a black guy too. But dating and relationships is a total different thing to having friends. I wouldn't have any problem with anyone of any race only wanting to date within their own race. It's natural. Forcing people to date outside their race because of some modern progressive ideas of everything being racist is just foul. That woman that had a problem with is seems like she would have some far-out disgusting opinions on race. Definitely a member of the modern progressive far-left intelligentsia.</p> <p>Anyway God bless all of you, especially those who read my long comment. I hope everyone finds the man/woman of their dreams. I've got my hopes up to meet a nice traditional woman who would like to have a family and lead a simple life with me. But finding a woman like that is a hard thing these days! Especially a young woman as I'm 24! Most women these days just want to go out on the town, do pretty degenerate things. Especially after a drink. I love a drink my self, but I hate bars and especially clubs. Proper dens of iniquity. I certainly don't want a woman who leads that kind of lifestyle. A lot of women jump to sex way too fast too. A woman who would open her legs on the first date, and women who open their legs before your in a proper relationship are to be avoided like the plague. Where are all the nice women, with morals at?</p>	Black, Indian, Race, Racism, Racist, Sex, Woman	Ethnicity - Black, Ethnicity - General, Ethnicity - Native-American, Gender - General	26/530	4.906

Racism is real, but this isn't it. I'm sorry if someone likes red heads or females with natural hair, or if women like tall guys..... that is just what they like. Most black people are attracted to black people and the same goes to whites. Most Nigerians marry Nigerians, most Polish marry Polish. So are they wrong for not seeking love outside of the ethnic groups they come from also. Dating is hard and most people who are serious about finding someone for a real relationship what to cut through all the people online who just want to hookup and play games. They get laser focused on what they want, what works and get aggressive. Look at 'Out Time' those people are looking to meet people the same age . They aren't saying they hate you g people. Most people have tried to date outside of their race , age and religion. Sometimes it works and sometimes they find out they want what they're parents had so to speak. God Bless mixed relationships and I've got total love for the love they found, but it's ok for blacks to want blacks and that doesn't mean they hate whites and the same for whites. <p>You have a lot of WP saying 'leave the past in the past when it comes to racism'. It's so easy for them to say this because they are STILL BENEFITING from what their Ancestors did to our Ancestors. Why do you think White Supremacy and White Privilege STILL exist? Look at the media, movies, magazines, marketing and advertisement. Who do you see them PROMOTING more than anyone? They still make it seem as though being a pale face is the 'be all to end all'. Why do you see so many BM thinking of WW as a trophy and their own women as the booby prize? When in actuality, truth be told, they may be a CONSOLATION prize but BW are the GRAND PRIZE. We have survived and been through things that would have destroyed MOST of them. Like I said they are STILL BENEFITING from the pain, misery and suffering OUR Ancestors went through. They still get way more and Better OPPORTUNITIES and PRIVILEGES that they did NOT EARN, they still dominate the world, they are accurately represented in the media and movies, whereas as BP are depicted as criminals, drug addicts, trashy, etc....Think about the political arena. One Black President in comparison to how many White ones? Other races don't control the Government, Federal Reserve, IRS, Congress, States, Banks, schools, or the legal system. Look into the Fortune 500 Companies and tell me who are the MAJORITY CEO's, CFO's, Presidents, etc.... It's the ones who are STILL Benefiting from what was done to MY ANCESTORS. When WP see a police officer they see someone who is on THEIR side. Can BP say the same? WP have the privilege of not being judged, white kids can be outside playing with a gun and not get shot, if WP were in a time machine, they can go anywhere in time and it would be awesome for them. It is EASIER in America to be white. Do WP benefit from the color of their skin....Of course! Why? Again, because of our Ancestors. This is why it will NEVER be left in the past. When you see more brown, dark and black skin women in the media, movies, magazines, etc. being represented ACCURATELY...and I'm not talking about average looking Ebony women...I'm talking about our FINEST and most GLAMOROUS Ebony women, then the healing will BEGIN. That's just a part of the RESTITUTION they OWE EW. Just because WW layup with black men DOES NOT mean they like black women. BM are already receiving their RESTITUTION from the WW. You don't see them swinging from trees and being castrated for parading around with WW. That is their RESTITUTION.</p>	Black	Ethnicity - Black	4/446	0.897

<p>RACIST? Time to take a look at LIBERAL AMERICA. A black only, Asian only or any other non white only dating site is OK. It's only a problem when WHITES want to date their own race. Black women are pissed black men aren't marrying them and too many can't find a relationship or a husband It isn't Latinos or Asians complaining.TODAY when successful black men date or marry white women it is black women who complain. SHOULDN'T THESE BLACK WOMEN BE BRANDED AS RACISTS? When white fathers and brothers complained they didn't want black men dating their daughters or sisters (they were stuck raising and supporting the bastard children) were branded as RACISTS. These white fathers and brothers didn't want white men leaving their daughters or sisters pregnant either but in the white community a man who got a good woman pregnant was suppose to married her.If black men married the women they got pregnant there would be far fewer black women to complain. WHY do so few black men MARRY the women they get pregnant? Why are almost 3/4 of blacks born to single mothers? It has been MOSTLY black single mothers who raised these black boys to be men for the last 3 generations. Could it be that these boys saw their mothers, aunts and older sisters get pregnant by black men who DIDN'T marry them? Black women need to take responsibility for how they raised their sons and not expect white men to fix THEIR PROBLEM.</p>	Black, Race, Racist, Woman	Ethnicity - Black, Ethnicity - General, Gender - General	17/251	6.773

Nobody has ever questioned somebody's taste in hair color, tallness or variety of other factors. The color of one's skin says a lot more about their personality than any of those things. Very often we see black people are blaming white people for stuff they didnt do and are angry at them for no good reason. How can you blame some white people for wanting to avoid this entanglement and baggage? Nobody wants to date people who so often differ in so many ways. They want to narrow down their selections to people who most likely are compatible. Politics, musically tastes, pastimes, kinds of friends, and so on are just so different among races. Also, divorce and breakup rates among mixed couples are among the highest.The left wants to make it look like if you don't want to date who they want you to date that you hate their kind. I see all of these comments about preferring your own race over other races not being racist . Because of that I would have to assume that these people must know what the words ' racist ' and ' racism ' mean. The whole premise of racism is to view a race as superior to other races. It can be your own race or another race . It does not matter in which way you seem them as superior whether it be as romantic partners, employees, students, etc. It is still racist . Perhaps romantic and general social preference of a race is one of the types of racism people aren't comfortable with looking at because it may feel so natural and insurmountably hard to change to them but it is racism none the less. White people have just as much right to have sites that cater to what their community wants as any other outfit: Black , Asian, Latino, certain religions, etc.The notion that every demographic EXCEPT white people can have special websites and groups is racism against white people, plain and simple. We can't claim to have equality if white people can't have the same things as other groups.It is perfectly OK for white people to want to only date other white people, just as it is OK for any other race to prefer to be with their own kind.
