Fam is right tho... Going up against the state is a losing strategy. Gun battles and shit would just be stupid unless we're talking about straight up self defense. The American RW is inherently violent, and I'm glad marginalized and leftist groups is starting to acknowledge that reality and defend themselves however. Don't get caught out here slipping against white supremacy and nationalism . These fools have been OBSESSED with 2a for decades. Being able to clap back is a right. Yall black people need to realise us whites are your allies not your enemy. The old "white" politicians and rich (1) are actually Jews. The Jews are the ones who are running the world and this country not regular white people, they just disguise themselves as whites so the poor and minorities can hate us and keep us fighting amongst each other instead of banning together to fight the real enemy (Jews)	Black, Old	Age - Over 65s, Ethnicity - Black	2/72	2.778

What is a black identity extremists lol? A terrorist is a terrorist is a terrorists he changed his name sympathizes with Boka Harem. Lol of course America's watching. That's like being pro-nazi in Israel and thinking the government don't know your every move. Be glad no Mossad lol one would not still be breathing to give interviews in Israel. America is divided because they want to be divided. It's why people separate into race groups. If it wasn't so there would be mixed color. Sad. I was around when Martin Luther King was preaching equality for all. I never heard him say one particular color.	Race	Ethnicity - General	1/46	2.174

So... equal rights equates to terrorism? Still? Like, I thought we as a country figured this out during the civil rights movement.Also, that white chick reporting on them carrying guns, 'lets see what the community thinks about guns pointed in their face,' is the same type of bitch that screams about her second amendment right and keeping her guns after a mass school shooting. But white people can walk around with their guns and nothing happens. RACISM in America is alive and well. It really never went any where it was just tucked until a long came a spider. Who gave white people the green light to be as racist as they want to be. But people of color still have to tip toe. There is 4 kinds of laws America-There's a rich law, there's a poor law, there's a white law and there is a black law. And if no can see that, it's because you choose not to. Or your really blind . Terrorists are terrorists....being black doesn't make you a victim. Being on a watch list means zerowhile in the military I was put on the list because I flew to the Middle East for deployments. Doesn't mean I'm a victim or anything else. It's about mindset, if it walks like a duck and talks like a duck....supporting a cop killer who killed fellow veterans is a treasonous act. If the camera wasn't around it probably would have gone different... Bullshit it would have gone the same way you seen right there... The cops are an occupying Force?... I don't want it to happen but I really wish for one year no cops in any predominantly black neighborhood let's see what would happen lol with a lot of cops in the neighborhood their still killing each other in record numbers ... really if racist white people wanted black people to have lower numbers that's exactly what they would do take all the police away from the black neighborhood ...because they would kill each other ... this has got to be the stupidest Vice documentary I've ever seen why they're not calling this guy racist I will never know... The FBI is practicing the wisdom of Dr. John Henrik Clark who said "Bury the Man and continue the plan" J. Edgar Hoover said "the greatest threat to domestic America is an economically empowered and responsible group of black people."They are combining this with the Ideology of Savagery/Barbarism, Might is Right and service to their God Ragnar Redbeard aka Arthur Desmond who wrote "Brave men must be in a state of perpetual warfare with everyone around them, real men do not have any friends because real men must always be waging war against one another in order to dominate and subdue others and take what they have using might. The slave should receive no quarter and real men should take pride in brutalizing the slave because the weak are not worthy to live."Consider the words of Ragnar Redbeard when you see the KKKops committing acts of random violence against black people. Consider these words when KKKops kill unarmed black people.In the word of Stokely Carmichael "if a white racist wants to lynch me that is his problem, rather or not he has the power to successfully carry out his wishes of lynching me, that is my problem. I hate it when my friend's and I strap up and hang out at the playground and people call the police. Worse yet, it is so oppressive when the police show up and want to know what is going on. If these phonies were interested in truth and justice then they would ABSOLUTELY WORK WITH the police instead of choosing to meet on camera at a playground with military weapons in an attempt to vilify the police.Grow up. All authority is given by God and those who oppose authority are full of evil. Black people have been murdering each other at a disproportionate and alarming rate for decades. Why aren't these guys focusing on that? If they want to see real change then they should be trying to unite black people and stop black on black violence and the culture of rampant misogyny . How about some black people stand up and denounce all the rap music that glorifies violence and misogyny .The real problem is not systemic Racism that is holding black people back. The real problem is spiritual in nature. Satan has powerful spiritual strongholds ruling most black Americans. One of Satan's most powerful weapons is molding people and groups to shirk personal responsibility for their sinful actions and desires.If black people want to be treated better then they need to treat others better. Stop destroying people by selling them drugs.Stop treating women horribly.Stop abandoning your children.Stop broadcasting filthy violent, misogynistic music that glorifies sin.God is opposed to the proud but gives grace to the humble.If you humble yourself in the sight of the Lord Jesus Christ then He WILL lift you up.But pride goes before the fall. interesting . we all like to think black people are not racist but we know that is not true . we would want to believe black hate groups do not exists . if they did not it would make black people perfect . it makes more sense that there are extremism in all races of people at different degrees. if you look on youtube and reference black people against white, black superiority , black is taking back authority , ect ect you will find dozens and dozens of black groups of people that feel they are the top of food chain and have hate or lack of respect for white people. you will even find black people who are republicans that contradict them self by ; pushing white narrative, feeling entitled to so called white privilege , pushing the republican white racist ways and even acting like they are a different kinda of black person. then the contradiction comes in when they want entitlement for being black , act like a victim , act like they are racial attack every day all day . there is hate on both sides and there is agenda on both sides . some people are willing to put out morals at any expense if it serves there agenda. <p>HEY! EVERYBODY! LISTEN! LISTEN! IF YOU ARE A U.S CITIZEN YOU. HAVE. NO. RIGHTS. The U.S is a corporate entity operated by a fictitious government therefore by you being a U.S Citizen who is a ward of the State you are subject to whatever rules, ordinance and policy they draw up out of thin air. They treat black people like this especially because although they took the shackles from our feet and hands, they still have us with the birth certificate i.d and social security card. EVERYBODY is in this predicament. Guns are not going to help us become safe from police terrorism because as you can see they came up, told them to put their guns down and they complied. Now what do you think they could have done afterwards. Same thing they'd do to any other so called black individual practicing the same thing after telling them to put down the gun. And probably a Caucasian or Latino too. If they can tell you to put your gun down and you have to, then what is the sense in having a gun in the first place?! They could tell you to put the gun down, you comply and they light you up like a cigar . You're not making a statement. That's facts. They're laughing because they still have you under their controll. Obviously. I'm not saying this to down you. I'm saying this because it's obviously a fact. Real power don't come with a gun. Not a bad video. Lots of different ways to view this. The FBI got involved based on the guy shooting all those cops in Dallas and I believe that was during a BLM demonstration (not 100 on that) and the praise that was given to the shooter. So it's kinda understandable that he was targeted for that. Not saying it was right. But the jail time was BS. I have more of an issue with the Police coming up to them in the park with their guns drawn like that. He didn't have to put his firearm down and I think I saw them checking his property (gun) possible without his consent. We either have 'Rights' or we don't. I also want people to see how government is not for the people. It's for power over the people. They can do whatever they want because the slap 'Probable Cause' on it. This is the same FBI that tried to frame our President for something he didn't do while the real obstruction of justice went on with the other candidate, but they turned a blind eye to that. This dude is an idiot. Made a bunch of videos training people to resist the government and expected not to be arrested? Insane. Nobody believe the Bible anymore? Romans 13 Living Bible (TLB) 1 Obey the government, for God is the one who has put it there. There is no government anywhere that God has not placed in power. 2 So those who refuse to obey the laws of the land are refusing to obey God, and punishment will follow. 3 For the policeman does not frighten people who are doing right; but those doing evil will always fear him. So if you don't want to be afraid, keep the laws and you will get along well. 4 The policeman is sent by God to help you. But if you are doing something wrong, of course you should be afraid, for he will have you punished. He is sent by God for that very purpose. 5 Obey the laws, then, for two reasons: first, to keep from being punished, and second, just because you know you should.	Nobody	Age - Youngsters	1/177	0.565

Christopher SmallThe statistics I presented are modern day data. The only thing I hear in argument to this is, "look what you did to us 150 years ago!" "Can you swim with 20 people on your back?" I most certainly cannot swim with 20 people on my back, but I can get a job, maintain employment, and take advantage of the upward mobility within my company. Black Americans are by far and large inherently capable of this as well, but there are many in the black community who see this career path as sucking up to the white man or just flat out being an Uncle Tom. The masses idolize rappers for their lifestyles and their alpha male demeanor, while people like Neil DeGrasse Tyson and Barack Obama are overlooked and considered white-washed. It seems that most other prominent black Americans identify as black first, then an actor, an athlete or a journalist second. They want to be treated equally while at the same time making sure that we acknowledge that they're different. How about we judge people based on their character, and not the color of their skin. If people want to make wide swathing comments about what the white race is doing wrong, like the dipshits in this comment section, then I'll just find some statistics counter what they're saying by showing how moronic other races can be too. All in all, every race is capable of committing horrible acts. I'd rather see it as a human issue and not a race issue, but if people on here want to point out how violent whitey is then I'll go scour FBI crime statistics and show them otherwise. All of them testified that they do not even know who would put this false information out. They were asked what black organization or group is responsible for mass shootings of police or white ppl" They replied "none". Then they were asked how many mass shootings by white extremists just this year. The only reply was "I don't have that information with me, but there gave been many. Dude.... If the cameras were not there that shit would had gone so different! That's the shit cops don't get, is that them just asking people questions about other people can fuck up some ones reputation. How many landlords are going to rent to some one that the cops pull a raid on? Even if the cops find nothing , which can often be the case, the cops have still fucked off that persons name and reputation in the community. What I don't get is why are they called " black identity extremists?" Is it because the group themselves are identifying as black survivalists, or is that the FBI's deal. Cause this group is not doing anything that every other Oath Keeper or militia group is doing, other than getting jammed up by the cops for practicing their First Amendment rights. If cops are worried about people talking shit about them on-line, then maybe they should be nicer, less over intrusive assholes, and respect peoples rights. Maybe just be normal. If you're having a hard time finding some one is a big time criminal, just admit you're wrong and leave them alone. As opposed to planting evidence, twisting facts to fit your narrative about an individual as opposed to how they actually live their life, and stop viewing the communities and people you're supposed to protect and serve like they are enemy combatants and you the occupying forces! Watch... Now cops will all start watching me for commenting here..... Like I'd be that lucky. Lol. What's the going rate on a false arrest or harassment suit these days? Siberian Goose post a link. Gang shootings are not the same category. But show me where gang members killed 10 people in a public place randomly. They kill other gang member someone innocent may accidentally shoot a bystander, not go to mall, school, restaurant, concert and open fire with nobody owing them or for revenge only insane pinkie angry killing folks at church, schools whatever. Domestic terrorism and gang violence is two different circumstances I am waiting for the link to your proof of what you said..... please help your people from dying on opioids and leave us.....help your men that keep killing themselves selves get help. Why has the suicide rates increased with Trump supporters.	Nobody	Age - Youngsters	1/116	0.862
the police are an extremist group...the police department was founded for the protection of white people and their property once slavery was abolished and the slaves were set free...the white folks were afraid the freed slaves were going steel from them or worse than that they feared a slave revolt...so the trusty boys in blue swore to protect and serve their own.. ya'll know there were no black police back then... This proves government and law enforcement is racist and corrupt because they leave the KKK alone and don't arrest them for being white identity extremists. I'm white by the way and sick of the mainstream media saying all white people are racist . The democrats whole plan to get elected is to give minorities more free money. Anyone that thinks that's a good idea needs to realize they are doing that to keep you down so you live life barely getting by on the money they give you rather than getting a job and making more money and getting into a position of power. Liberals are the real racists. And I'm not a Democrat or a Republican so don't argue with me over that.	Racist	Ethnicity - General	2/123	1.626

Exactly. Black People (extremist or otherwise) are not sending pipe bombs to politicians houses or shooting up public events. The only articulated fear so far is their willingness to kill an officer if necessary, which like you said is always 100 retaliation, not a conflict initiation.	Black	Ethnicity - Black	1/46	2.174

Darkside Dragon make it harder for police to do what they’ve done over the past few generations. Make new laws that make it harder for police to profile black and brown people. Have police focus more on real crime such as rape and murder as opposed to petty traffic enforcement, which is responsible for upwards of 80 of unjustified violence towards black and brown people. Let black and brown people work good jobs and start businesses to become economically viable instead of blocking them from getting loans and other financial means of economic independence. Start keeping a track record of EVERYTHING police do from traffic stops, on foot stops, phone calls, texts.... everything and anything police do should be under microscopic surveillance and publicly available so that when they lie, cheat and steal it will all be seen. No cop should be against this unless they have something to hide, which is the same reasoning they use against citizens for unlawful searches.And as far as what to do about these folks shooting Up public events and sending pipe bombs and things of that nature, how about listening when someone says they plan on causing harm 1st either in person or on social media.... and how about actually investigating these folks who clearly show an extreme and violent mentality towards people who don’t look like them.These are all good places to start	Black	Ethnicity - Black	3/233	1.288

Darkside Dragon And people like me. The issue lies in a lack of integrity and character. Upstanding Black men and women need to bare the mantle of the cause and flood this country’s ”injustice system” in waves or raise their kids to. If a system is against a group the best thing that grouo can do is infiltrate, annihilate, and remake it to better serve their interests.	Black	Ethnicity - Black	1/67	1.493

It's sad to see how African Americans doin stuff i guess white Americans feel all Patriotic about doin theirselves scares the shit out of the white dynasties controlling wealth arms production legislation and music-tv-networks.i mean seriously if the people behind the MLK Assassination arrest you on suspicion You're doing something right. and it's alrming that cops expect people to sympathize with them when they get shot on the job, that 1 who shot himself in scandal managed to frame inncocent black men even in his moment of dying. R we really expected to sympathize with him and his blubbering whore-wife who described him most as a god a god ironically bcuz he was obviously an exceptionally flawed and mortal man. But there's such a thing as free thought and Freedom of Speech. And a broad difference between that and funding arming terrorists and dissident factions. Also America LOVES Vigilantism in theory. AND when cops are running amuck killing people of all ages and races on the daily, the attacks described against them don't seem like an act of terrorism but retaliation. Also if a camera-crew hadn't been there those cops would've shot them dead. That's a huge problem in America, local cops killin people out of prejudice never facing any consequences besides unflattering publicity. Meanwhile they're just moles appearing on the surface of systematic cancer which includes judges mayors (corrupt-without-exception-grand-juries) running roughshod over these poor murder victims and their families.No Law says i have to sympathize with any1 i might watch some1 get eaten by a bear and LoL about it. Why should any1 be expected to sympathize with remorseless killers and a system which protects them (and any1 who can afford to buy absolution from the State)Hopin i'll start seeing Rakem Balogun's name on ballots in Dallas and The Friendly State. Everyone complaining about the us not going after the KKK. The democratic party (aka government) created the KKK in 1921 and that's no conspiracy. That's why at KKK rallies the police never spray the KKK and usually stand next to them. But Black Panthers is on a terrorist watchlist and considered terrorist BC they fight back again the us gov, racism , and violent attacks. They scare the us government BC they are an organized group that focus on building brothas and sistas and they all work together to better themselves and the community. This could mean a possible revolution so that's why they are a threat BC the have the power to influence people to wake up from the matrix and fight back verbally and physicallyAnd yeah even white supremacist aren't considered terrorist and I live in Texas been in the incarceration system. Man I tell ya these mofos are all hate but never once considered a terrorist orginaztion. They hate blacks and jewsAlso Antifa be running round here beating up people (usually those who don't agree with them) and destroying government property. A lot of times they get away with it or can push it till the cops FINALLY arrest them for jumping one guy.
