Honestly I was born in Canada but my family is from russia I'm not afraid saying I was born in Canada but my family is fromRussia because everyone in Canada and America are immigrants let's be fair if we are truly Canadians and Americans we would be First National people the Aborigines. But no our ancestors are immigrants from Asia, Europe, etc but we are not true Canadians and Americans we are still immigrants and why not that man go back where his ancestors were born before they moved to Canada. Because Canada and America belonged to the First Nation people the Aborigines. I don't care what the rest of you guys say because if you need to go back in your family tree to understand better of your family and read the history and understand how the lands was taken over and how the first nation people were treated. Let me tell ya a little story about my town. There is a gas station that used to be owned by a white family, they sold it in good standing with an Indian family. The previous owner went back with his then 16 year old son to see if he could get his first job there, they flat out said 'we don't hire white people here'. No Asian would want a bunch of outsiders coming into their country in droves. They wouldn't stand for it and yet they expect whites to put up with it. They are in a constant line to get into Europe or any country that has been built by white people. Indians are indeed intelligent and could build a wonderful nation but their problem is, is they have completely over-populated their country. It might sound harsh but if they were to stop a generation or two from being able to produce, except for their most brilliant people, then, I have no doubt that they would be a force to be reckoned with and their country would boom, meaning that they wouldn't have to infiltrate others to survive. The same goes for places like China. It's been proven that Asians are smarter than whites but they cannot build great societies because of their constant populating. I find it vile and appalling that some people, the videographer in this instance, don't seem to understand that in Canada, people have a legal right to privacy yet the man being verbally assaulted seems to think it was his right to stick his nose into another person's business which he should have been smart enough to stay out of. He brought the verbal abuse upon himself yet now he is acting like Mr. Innocent when his interference in another man's business simply begged the white guy to tell him off. The videographer was told before this yelling ever started, to mind his own business and stop filming him. The videographer refused. Charges in this instance would be a travesty of justice but guess what the police just did.....Disgusting!!!!!! This is Canada and we have laws concerning people's rights, behavior and interaction but most people don't know nor understand those laws and they surely don't respect them. I hope our judges do, but recent history has proven that they don't either as they ignore legislated law and change them to suit what they think rather than substantiating what law states. We are one sick nation of little God wannabees, making up our own rules as we go along and flaunting our long legislated laws as antiquated nonsense. I wonder why nothing has been said about how this altercation started. It seems the owner of a parking lot decided he had the right to charge for parking and had his employee block this man's truck to get his pound of cash when the abuser was simply using his driveway to turn around on a busy street. In other words, if you step foot on my property, you owe me money. That too is a breach of Canadian law unless there is a obviously visible sign at the entrance stating that "entry constitutes a minimum parking fee". YouTube seems to be becoming Canada's new legislature for all the little God Wannabees and money worshiping idolaters. If this supposed Asian man was born in Canada, his ignorance of our laws should be grounds for removal of his citizenship.	Nation, Nothing	Age - Youngsters, Nationality - General	2/355	0.563

Yeah I agree what he did was wrong and racism shouldn't be anywhere. We are all humans first. But what about racism in India with Africans, to the level that they even beat them. Indians never raise their voice for those Africans. I am an Indian but I get very disappointed over this hypocrisy of Indians. Even Bollywood movies are full of racism , yet everybody enjoys them(don't even start with the fair color obsession of Indians). Anyone with dark complexion is considered bad in India and called names like kalu and blah blah. We should call out the wrong things even if our own people are doing it. Even I got familiar with the word racism while being the west (never faced any racism though, even felt more equality), then I realized oh ok what people do in Indian and take it as a joke that's racism . In our planetary history, what we have both commonly and highly uncommonly come to recognize as all levels of terrorism is in fact coming from one single ancient and highly unfortunately extremely ancient, highly militant, highly fluid and totally inconceivably resilient culture that has both ruthlessly and relentlessly struggled for global conquest for longer than there is recorded human history. For example, in hemispheres like North America, that basically have no recorded history beyond American **Indian** hieroglyphs, we, like much of the rest of the world, had never known, heard of, or even remotely conceived of terrorism until we experienced "Huge Influxes of Indians and Pakistanis." And exactly the same is true of the rest of the global populace, with the exception of India, which was divided into India and Pakistan by British Colonists and is in act the true source of totally relentless global terrorism. In direct parallel with all of human history, Indians and Pakistanis are behaving this way because in previous human civilizations, that few of us presently remember, places like Africa, specifically, East Africa, and The Entirety of The Middle East were once **Indian** Colonies and the Indians and Pakistanis, who are in fact one highly sneaky entity, are covertly warring and using white people (who become highly vicious when they are combined with and inevitably totally controlled and use by Indians and Pakistanis whom they in fact totally unknowingly worship in every way) relentlessly to regain possession of those former colonies in their relentless quest for any form of global conquest. It is extremely important to understand that, the core primary reason that people of **African** Descent have had totally relentless problems with poverty, prejudice and bad press world wide is because other people of **African** Descent, whom we **black** people no longer recognize as people of **African** Descent (i.e. Indians and Pakistanis who now call themselves Brown People) totally hate us for evicting them from The **African** Continent numerous times over again; Idi Amin's Uganda being the most recent. One thing in the global history of people of **African** Descent that is an extremely telling and totally unmistakably ominous pattern is the longevity and precision of the problems of people of **African** Descent... **Black** people invariably have problems all over the world with prejudice and poverty, no matter where we go, however, extremely ancient cultures of totally relentless predators know that, people only have problems from themselves and can only be highly precisely tracked and targeted by people who are exactly like themselves... In this case, by Brown People, whom we no longer recognize as **Black** People. In my research of human geographical history, it has become crystal clear to me that, at some point in human history there was a great ideological divide that occurred among Africans Over Tyrannical, Iron Fisted Control Over Humanity or Total Human Freedom that occurred in The Horn of Africa Region of The **African** Continent at some point in human history, that still rages on today. Indians and Pakistanis have been expelled from The **African** Continent many times over again throughout both known and unknown human history and not only do these former Africans want access to The **African** Continent, they want total control of it, even if it takes Religious Indoctrination,

Unless you are a native, member of six nations, ojibwe etc etc. Your are an immigrant .2. I dont care if youve been in this country dating back to some of the first settlers ,like my family or you got sworn in yesterday. We are equal and all citizens of this great country and all it has to offer. Both my grandparents and both my great grandparents fought in both world wars, does that mean im more entitled than a family from Syria that emigrated last year. NO, My grandfather believed that this country needs to be a beacon of hope for those oppressed around the world, a safe haven, a second chance at life and all the rights and freedoms that come from being Canadian + hockey. .this guy is anti Canadian he is the exact opposite of what this country represents. This is Julian Jamm the singer of RockStar Reggae band from the Caribbean community in Toronto. I am appalled and disgusted by the vile, disgusting garbage coming from this man's mouth. He is clearly a failure within his own multicultural Canadian society. I wonder if he has hateful thoughts when he is biting into a tasty Jamaican beef patty or ordering delicious Chinese food or wolfig down a Falafel. This man represents the worst of human intolerance. His behavior is unacceptable and exposes him for what he truly is deep down in the bowels of his soul. <p>The problem is that in Canada, the government brings refugees by millions...i respect this idea but they dont ask to the population if they are agree with that. So i can understand why he is angry. But i never insulted somebody and i respect people. Bring people like 50 000 from a country when you dont have any indian citizens, or Muslims, or black, or chinese or others in your country i can understand. But there are too many strangers in the country and it is the destruction very slowly but surely of what the canada should be. For example, in canada, i find chinese people are too many. When i was in canada in 2001, it was great. The repartition was correct. Now, chinese people are everywhere. They are buying everything they can. And more and more and more are coming. A lot of refugees or nationalities dont talk english or french. Not at all. It brings communication problems and stress. Some of them dont want to accept the life style and live like if they were in africa....or with tradition of the native country in question..... Just here for money. So now they are here ok. We have to respect them because we are humans but multiculturalism brings absolutely nothing except people living in group. They dont mix them and they create "clans" in the city. Its totaly crazy because its like if they wanted to say....hey canada, i want to be citizen but finaly, they stay together talking together, living together...and just mix for the job...thats shit.</p> <p>Its like a state, in a state. If i want to see indians...chinese, arabs, black or other people, i pay a travel and i go in holidays. The worst is that all government accept them and bring them in the country because"main d'oeuvre" is needed and reproduction. But for me, i prefer 30 000000 people in a country than 38 000000. Most not all of non European based people do not have the values of European based people. Canada the US are European based people created countries and they just do not want to give away their country. These so called racists or more true to there nature,"rebels", know that there country has been prostituted out by there own politicians. Many European based immigrants over the history of Canada and the US had to go through grueling immigration practices; non European based people do not.The US is going through H-1B visa, the lie here is that the US citizens are not intelligent enough to do the work, but in reality these people work for much less, so they come here and steal the jobs. The H-1B visa is about to come to an end in the US; its about time.The liberal liars out in the socialist world would say this man hates, in this case, the India based man because of the way he looks. This is not true they do not like this invader not because his aesthetics but because he knows his own politicians hav3e sold out their own people. Even now, we see the knuckle-dragging troglodytes in America electing remedials who clamor for menial labour jobs that have no place in higher civilization. Most of you sit on your fat asses acting superior to people with a different skin colour and never think to humble yourselves by coming to know the extent of your own insignificance. Since you are capable of nothing greater, it will be a WASTE to keep you alive. The way you treat them is the way YOU will be treated in due time. No, worse. And it will be glorious. I can't wait until your inferior minds are culled from the actual productive masses so we can finally recognize our common humanity and move forward regardless of race or creed, united under a higher intelligence, with none of the baggage of you lesser scum anchoring us to mediocrity.I'm already working towards a future where all such menial tasks are completely wiped out by automation. <p>This guy is an idiot but all you un-Canadian trash in the comment saying European families are immigrants. Our Forebears were immigrants here. We are generational Canadians. We built a country here. I'm sorry Native Americans for bringing our diseases, that sucked but no one knew the science of diseases and it wasn't ever intentional, the "blanket giving" myth has been debunked a billion times over by credible historians. Europeans didn't steal your country from you, YOUR FOREBEARS signed treaties with ours in order to set up colonies, there never was one Native American group, they were seperated into tribes, most of which were completely isolated from each other. You can't say that the natives of Haida Gwaii (Queen Charlotte Island) have any claim to Moosekudoboogwek (Nova Scotia) they were completely different tribes with different dialects and different cultural customs, albeit they came from the same genetic stock. Just goes to show what happens when people don't fully educate themselves and they get spoon-fed information their whole lives.All I want is a Canada that takes immigration and borders seriously and for my countrymen to be well educated so we may prosper and overcome our own tragedy, so we may adequately help others overcome theirs. Letting in the whole world doesn't solve any problems, it creates them. People are the problem solvers and we need to have a country that isn't so confusing that no one inside it can understand it. We need to feel like we are part of something bigger than us, not something intangible but something within our grasp, something we can hold onto and say; "this is where I draw the line" my family, my home, my community, my neighbourhood, my city, my province, my nation, these are the things I have within my grasp and these are things that I must hold onto so that my family, my brothers and sisters and countrymen are not beset by the tragedy. The last generation was beset by tragedy, not this one. We learn from the mistakes of forebears and we shoulder the responsibility. I have a country here of generational Canadians, we have Polish and Ukrainian, Native American, French, Scottish, English, Irish, German and Dutch and many other European, Asian and East Asian denominations, if you took the time to go through the properly established methods of obtaining citizenship than you ARE my countrymen, we are a European Nation in our philosophy, we strive to overcome the suffering of life. Native Americans are our countrymen and any of you un-Canadian traitors who want to tear apart our relationships with our countrymen in the workplace, at home, in public, YOU ARE A DISGRACEFUL GIT. No this is your Canada you're just an ignorant liberal sipping your Starbucks latte and singing cumbaya with everybody around you. This is exactly your Canada. Canada has a deeply rooted racism that is festering underneath like a volcano waiting to erupt. People are not allowed to discuss these feelings openly for fear of social labelling and ostracizing, but you can rest assured that the majority of Canadians discuss these feelings at home in small towns, in doughnut shops, at hockey practice what is becoming of their country. Indians have every legitimate right to be in Canada as Canada is just one of the many British Colony’s. Since India was part of the British Raj, logically inhabitants of that country should have the freedom to immigrate to Britain’s other colonies. There was a time where Indians were able to freely immigrate to other British colonies all across the world because they were citizens of the British Empire. Furthermore, Indians have shed blood and fought tooth and nail for Britain during the East India Company era and during both World Wars. Historically speaking, they have proven their worth as trusted comrades. The people here talking shitt about indians clearly don’t know history and are just racist just like this guy in the video who openly called a dark skinned many derogatory insults such as ”shit-skin.” You don’t see Indians going around and calling white people racial names. But it is the responsibility of that person to become a Canadian. There can be no divided allegiance here. the HIndu guy he was yelling at is a softy, he took advantage of that and verbally abused him, repeatedly. But it shows how White people really feel about our race . i think he said "shit skin." +samyajyoti de What's ironic is that European immigration laws make it virtually impossible for a white person from USA, Australia or Canada to immigrate back to Europe.But if you're an undocumented non white person and can make it into any western European countries and claim fake refugee status, you can easily become a citizen. <p>mike brink how about a 5th generation lebanese Canadian? My family's been here since 1897, went through heart breaking hardships and struggles but was able to successfully integrate with society quite nicely, worked very hard, persevered and not only made it but were able to flourish and thrive in a country with beliefs, morals and values much the same as ours! Contributed a great deal to our local community and Canada at large!</p> <p>My family has produced doctors, lawyers/judges, cops, athletes, a few politicians, served and died in both world wars, Afghanistan and still serving how about me can I emigrate to Europe?</p>	doctors	Nationality - General	1/104	0.962
<p>mike brink I figured that your comment wasn't meant to be hateful or racist. I just get upset when people place other people in one big group according to their stereotypes. I guess what I'm trying to say is that of any people anywhere there are good people and there are bad people! I used my family as an example of what can happen when people are given a chance to flourish and grow with their newly adopted country! Like I said I am a 5th generation Lebanese Canadian. Although I'll never forget my roots I consider myself to be 100 Canadian and if worse ever came to worse I would gladly lay my life down to protect and defend this peace loving, responsible and welcoming nation that has given me and my family all that we ever wanted! what also really makes me down right angry are the people coming in from the middle east and Africa who just want a free ride! What's wrong with working hard and integrating with society the way that my family did? What pisses me off even more are the free loaders (economic migrants) who are taking advantage of the Syrian epidemic and "piggy backing" on them to try and come in to my country, undocumented as u said and immediately go on welfare and take advantage of anything and everything they can! These people are crippling my local economy and who are the ones getting screwed? That's right the hard working Canadian tax payer! are these are exactly the people who give the majority of these immigrants who just want to work hard and send their kids to school a very bad name and are making it very hard for them!
