Title: Ageism: A short documentary

- Table 1: Summary of the results per comment;
- [Table 2](#): Summary of the results per sociolinguistic variable;

Table 1: Summary of the results per comment

Comment	KeyWords	Sociolinguistic variables (Hiper - Hipo)	Hate Speech Frequency	Hate Speech Fre- quency(%)
These women look amazing! I pray I look as good as they do at their age . It helps people see that just because you become older doesn't mean your looks fade away	Age	Age - General	1/32	3.125
The prejudice against age is in government jobs, the military, sports, businesses, and school systems. It is more so with females since the media projects the male image as never getting old like Donald Trump who can have a wife whose age is equal to that of his daughter, and he still can have the most powerful job as being president too. Globally, it is a male-dominated society, and it gets worse since women are expected to put her children in day-care to earn an income equal to her husband when prejudice in the job-world exits against not only her age but her gender too.	Age, Gender, Old	Age - General, Age - Over 65s, Gender - General	5/105	4.762
I love the concept of this video! And the ladies are fierce. thanks for taking a step forward toward awareness of ageism .	Ageism	Age - General	1/22	4.545
I love the lead-in songs for each woman . Mimi is hilarious. I can't believe how comfortable she is in front of the camera.	Woman	Gender - General	1/23	4.348

Table 2: Summary of the results per sociolinguistic variable

Sociolinguistic variables (Hiper - Hipo)	KeyWords	Number of occurrences	Frequency	Frequency(%)
Age - General	Age, Ageism	5	5/209	2.39

Gender - General	Gender, Woman	2	2/209	0.96
Age - Over 65s	Old	1	1/209	0.48

Result analysis:

- Taking into account the words that were detected, we can reach the conclusion these comments are associated with : : Age - General;Gender - General;Age - Over 65s;
- The percentage of hate speech related words is 3.8278.
- Considering that the variable **Age - General** has the most occurences in the post, we can interpret that this is the predominant hate speech.
- Overall there were 8/7 occurences of hate speech related comments.
