We don't like dumb-looking women, we like feminine-looking women. It's nasty feminists who tell women that in order to be respected by men you have to wear an attitude on your face and flash arrogance in your eyes; that's a LIE. Ironically, it's feminine women that men respect and want to care for, and it's certainly the feminist women who men believe to be stupid (and inorganic). It takes a certain kind of intelligence to act like a natural woman , especially these days with so much feminist rhetoric in every single movie/TV show/song/magazine.Maybe women shouldn't take advice about MEN from other women. Also, most Western women nowadays are disgusting whores and intellectual midgets - and thus should be avoided like a disease.	Woman	Gender - General	1/123	0.813

How come no men like Anna the sarcastic dumb looking bitch	Dumb	Physical Identity - Physical (and Mental) Impairments	1/11	9.091
I think this study was done by a lonely woman	Woman	Gender - General	1/11	9.091
<p>Hmm, this study is intresting yet valid and invaild in a way.the wording of that study was pretty unscientific, yet I see the intention behind it.”Men find women who appear to be less witty as attractive, compared to the witty looking female” The reason behind this is that a man would find her to be 'easy' in a way of getting laid. But this study is invalid because it states that, ” A man would be looking for a women to spread his seed. The false assumption is by that very statement, firstly a man wouldn't want to spread his seed to such a women in this day in age. He would only want to have intercourse with her and sense she 'appears' to be unintelligent she would be the best target. Also my question to the person who createdd such a false assuption would be this, ”How would you tell if a women was intelligent or not by just looking at her instead of having a conversation?” Also pictures in the way women appear to look unwitty could also not be validated unless she were to be tested. Eiether way all men are pretty diffrent and such an assuption between apperance compared to intelligence is invalid and a women cant appear to be unwitty yet you chat with her and could tell.</p>	Age	Age - General	1/223	0.448
Of course men like dumb looking women.	Dumb	Physical Identity - Physical (and Mental) Impairments	1/7	14.286

Daneil Baugh Red heads are one thing. The pod people are something completely different.And I am just kidding actually I find gingers, red heads and blonds equally attractive. And one of the smartest, funniest guys I know is a ginger. Of course, he did marry a half-black girl so none of their prospective children would end up like...	Red	Ideological and Political Identity - General, Ethnicity - Native-American	4/59	6.78
No problem, I just never got the joke with gingers. But there are few not many at all African American gingers. VERY CUTE! But depends on how strong the gene is.	African	Ethnicity - Black	1/31	3.226
Daneil Baugh There are zero African American gingers. The gene that causes light hair in Africans is different from the one that occurs in whites. Both are recessive but evolved independently. There are also "blond" blacks. I wish they would call it something different. Blacks can't be blond or ginger. Those are white terms. The light red or yellow hair occurring deserves its own recognition. Rather than men liking women that look dumb , men like women. Men don't care whether or not they're dumb . There is no such thing as a " dumb -looking" person. You can't tell whether somebody is " dumb ", whatever that even means, by their appearance. It's as idiotic as a phrase like "slutty-looking" because you can't tell anything about a person's sexuality by their appearance.	Dumb	Physical Identity - Physical (and Mental) Impairments	1/43	2.326

A real study into this would be interesting (not this one!). The outcome may be very contrary to what this study suggests. I understand that it doesn't carry any statistical relevance, but, for what it is worth: All my (male) friends (and I included) are desperately looking and longing for women with intellectual substance. Nothing is as much of a turn-off as not connecting on an intellectual level. Though many men, it seems, are giving up on the whole idea and resort to uncommitted, "easy" sex .	Nothing, Sex	Age - Youngsters, Gender - General	2/86	2.326
Women want to have sex too or are people so dense they don't get this? Many smart women habe more sex and use men for sex .Are people so naïve?	Sex	Gender - General	3/29	10.345
LOL You have it all figured out, eh?! You sound like you are one of those pretty girls who sit on a bar stool who blab while guys pretend that you're interesting and smart so that they can get laid. LOL	Dumb	Physical Identity - Physical (and Mental) Impairments	1/77	1.299
i have no reason to be defensive: youve fallen for the whole "women dont like nice guys" myth, im afraid. it was invented for a reason - to protect the egos of guys who cant get girl's, leading them to believe that its the entire female gender who have the problem, not them. long story short, if a woman isnt attracted to u, its got nothing to do with how "nice" ur. (note: shaming female sexuality & referring to them as a "hoe" probably wont help)	Gender, Nothing, Woman	Age - Youngsters, Gender - General	3/86	3.488

My question is: are naive women stupid?	Lame, Sex	Gender - General, Physical Identity - Physical (and Mental) Impairments	2/63	3.175
I think there is a link between dumb women and women who rely solely on their human instincts. Intelligent women's logic over powers their instincts meaning they are less likely to want to have sex . Perhaps men might not want women who are aware of sex because they would be older and more experienced? Also they could have a protective male. In a club yeah, absolutely...For a relationship hell no. As if anyone wants a dumb girl asking you what's going on in a movie. sexual selection drives evolution. If all guys preferred stupid women, the human race would get stupider with each generations I know, some folks think it has.) It's an anti-darwinian argument that proposes that we want to reverse human evolution.Also, some guys prefer smart women. I do. This was obviously a flawed study but I can tell that it is attractive to me if a woman looks more likely to have sex with me. Questionable Study? I don't think so. The study said that alpha males, i.e. jerks, look for dumb women for one nights stands. And guess? They do! (Usually go together.) Very simple/true. The study said there are men who never do that: Then when women date at 27, i.e. grow up, they go for nice guys. These are the men that they didn't hook up with in college because they treated women well. Go figure? Women then feel bad, like a 'hoe, and guess what? Good men don't want 'em. Used women: no! Very true, though I wouldn't actually divide smart and dumb women sexually. A dumb woman can use sex as a weapon, as can a smart woman ; it literally depends upon the individual. I also wouldn't call them 'evil' because they're not forcing the man to bend to their every whim; those men are making their own choices to do so. I wouldn't say those women were nice either, but the guys have to take responsibility for their actions and quit giving a woman want she wants just for sex . Just my opinion.	Dumb, Sex, Woman	Gender - General, Physical Identity - Physical (and Mental) Impairments	6/92	6.522

Yeah, but this one was done by graduate students I believe, not professors. So does that mean it was her thesis for graduation? But then I don't even know how such things are funded. Well, whatever the case, reminds me of those feminist studies long past which some still hold to that evolution is man made patriarchy to make men look superior to women. Even if the study is flawed, such studies may be leaped upon to screw with evolution and/or insult men/women further.	Patriarchy	Gender - General	1/84	1.19
Men who impregnate woman with the highest likelihood of raising their offspring to sexual maturity will have the highest chance of passing on their genes. People don't realize how closely related femininity is to youthfulness—and masculinity is to age . When I was young, i used to play guitar in "shitty holes". And in those places I had a lot of girl friends, (I mean, friends that happened to be girls). Some very smart, some smart enough and some really dumb . (all sexy and poor) And they all had something in common: when a "wealthy looking" gentleman happend to enter, they played the " dumb girl routine" in an effort to conquer him. Th Q. is WHY? It's obvious that they played that routine, 'cause they knew it worked...	Dumb	Physical Identity - Physical (and Mental) Impairments	2/88	2.273
Kinda makes sense. Men, to have fun sexually or in a relationship, they want a woman who they won't fight or argue with, ruining the mood, or one who would reject him so easily, of course working against his ego. A dumb-looking woman would seemingly be the most likely candidates to that end.	Woman	Gender - General	2/53	3.774
I agree, that paradigm about women needing to guard their sexuality and men being predators is bad. A vagina is nothing like a lock, and a penis is nothing like a key.And that mentality right there does a lot to hurt both men and women. It gives men and women inappropriate feelings about their sexuality.I don't know the name of the guy in the back who spoke up, but I really appreciate and agree with that. You're all dumb . First of all, you didn't take the time to read the specifics of the study. It didn't say drunk women are dumb . It just said drunk women let their guard down more. Secondly, if a woman is producing a child, she's compromised for approximately 12 years. Men are more likely to share food with a child that is their own. And yes, women need that. Also, they can't really run at 9 months pregnant from the lion. Maybe... but a strong guy with a spear is helpful.Just calm down.	Dumb, Woman	Gender - General, Physical Identity - Physical (and Mental) Impairments	3/93	3.226
Steve Oh, you are stupid. It's not stupid to consider evolution and say men and women are different. Just calm down. "Men aren't necessarily looking to spread their seed, they are looking to just have sex ." What a ignorant statement from the viewpoint of NS and biology. Ana, please go read evolution for beginners. The most happily married men that know exactly how many children they consciously want, WANT to biologically spread their seed. Turn around and ask married Cenk. HE WANTS TO SPREAD HIS SEED. I'm perfectly aware that, as a whole, "stupider people" breed more, but that has nothing to do with what I wrote. I wrote about men. All the studies I've seen (and I read a lot) focus on fertility rates of women only – never men. If you're aware of a reliable study that shows less-intelligent men breed more, please do share. That's pretty damn depressing, but I can't really dispute that, as 90 of the relationships I've observed DO seem pretty goddamn miserable. And it's almost ALWAYS because of a lack of communication over BIZARRE made up social barriers. My parents have been married for 30+ years, and they're STILL madly in love. They are true romantics. and I'm SO lucky to say I followed in their footsteps with my girl. There is NOTHING I can't discuss with her. Most people marry for the wrong reasons. Who the hell designed this study? They say the study was designed by the University of Texas but it would see that it was designed by some idiotic Christian university. The reason why I say this is because the study seems to equate women who want have sex as being stupid, as if a promiscuous proclivity is a sign of intellectual deficiency. The only way one associates women who have sexual desire as being stupid is if you are informed by twisted religious morals. The penis does not think about the consequences of an "easy lay" no matter how "smart" a man may be above the shoulders. Ridiculous as this video appears to an intelligent person, it does make sense that a dumb penis would be attracted to a dumb female (in the cases of straight or bi males, only). Remember, all penises are exactly the same (size does NOT matter, here). Uniformly, they are all unthinking, un-caring & completely blind to consequences. That's why women NEED to be smarter than men.	Blind, Dumb	Physical Identity - Physical (and Mental) Impairments	3/88	3.409

Jeez have you ever thought *why* sex feels good? *why* we get aroused? These physical and emotional cues are come from our BIOLOGY specifically for procreation. We didn't "invent" these things. Being thirsty was a basic analogy, but I figured it was enough for you to understand the difference between biology vs society or culture. However If you cannot see behavior in terms of biology vs "things I like doing" or "things I want to do" then you'll never get it.	Sex	Gender - General	1/81	1.235

Woah woah. "Being thirsty" isn't what induces our need for water. Our bodies NEED water. Thats a biological fact. People drink water for more reasons than thirst. Men never wanted to spread their seeds. Before, men just didn't have condoms and didn't know much about birth. It's about subconsciousness. Men want to have sex period. The study was poorly worded and executed, but the basic premise has some truth to it. Human sex drive exists as an incentive to procreate, and recreational sex is a byproduct. Males have no mandatory obligation after sex (besides culturally affixed ones). Females risk getting pregnant, which is a 9 month ordeal that requires years of commitment after birth. Men who are simply trying to satisfy a carnal urge will pick who is most likely to satisfy it. But there are always exceptions in nature.	Sex	Gender - General	3/85	3.529
Men and women want to have sex , but they don't necessarily want to reproduce. The intelligent parts of our psyche can't really reconcile the animal parts, can they? wtf, what if the "society" sides of our brains kept in lock step with the "animal" parts of our brains and we ONLY had sex with intent to reproduce, that'd be the only instance we did it??? Yeah, this study is quite flawed, but you are correct that if females are selective, and there are cues males can use to target the least selective ones, then it makes sense to do so. The general point that I'm trying to make is that evolutionary biology sometimes mixes up nature & culture. Often, EBists assume that culturally ingrained behavior is hard wired. I find this topic fascinating and reading Sex at Dawn really opened my mind to new ways of looking at things. I highly recommend it.	Sex	Gender - General	1/88	1.136

I don't know much about prehistoric sex , so I'll take your word on that. But I do know about sperm competition - this is different from sexual conflict. Sperm competition is great for the males who are good at it, but not necessarily great for the females. For example, it would become a dominant strategy to be just good enough to survive, get laid, and pump the rest of your resources into super sperm. However this may not reflect what the female wants, so there is still incentive to be choosy.	Sex, Sexual	Gender - General	2/91	2.198

Steve Oh, please read a little about evolutionary biology before you go spouting nonsense. Just because some cultures had permissive sexual roles for women doesn't mean that women aren't biologically programmed to be more discerning with their sexual partners. A man can get as many women pregnant as he wishes without many negative ramifications. A women can only bear so many children and needs care during pregnancy/child rearing, and therefore needs be more selective in her mate.	Sexual	Gender - General	2/77	2.597
Yes.... Our genes pre-date "society", they predate "humanity", they predate "conscious thought" and self awareness. Your biology gives you sexual urges and attraction in the first place.Humans are constaintly battling our innate or instinctual behavior with our conscious behavior we create daily as part "society".The fact that half of all pregnancies are unplanned should tell you show much we are ruled by our biology despite the availability of various forms of contraception. I really like Ana but much too often she seems to not really have a grasp on the concepts discussed on the show. I swear to god if I hear someone use the phrase YOLO one more time... I'm in a really fucking bad mood right now.	Age	Age - General	2/91	2.198
Your premise is the conventional wisdom many evolutionary biologists recite, but much research shows that prehistoric women had sex w/numerous men & had the sperm of multiple men inside them at once. In fact, many sperm serve as "blockers" that prevent other sperm from fertilizing, which tends to show that sperm of different men competes inside the uterus. Thus, women are not necessarily more 'selective' b/c the strongest sperm inside her wins out. Read Sex at Dawn, a great book on this topic.	Sex	Gender - General	2/83	2.41
Even for those who consciously use birth control? Conscious decisions, I would have to argue, do matter in this day and age . "Spreading one's seed" once mattered for the very survival of one's kin and therefore there was once imperative. Now, that is not the case, and sex is minimally a pleasurable act. Pleasure may have originally been to increase the likelihood that human's reproduce, but now, it is mostly the main concern for sex in my opinion.	Age, Sex	Age - General, Gender - General	3/78	3.846
This is horrible, I only have so many eggs I DONT WANT TO HAVE SOME IDIOTS KID. Further more women and men want the best possible genes. Men like dumb-looking women, because there is no evolutionary advantage to having a smart woman . We don't need a smartass, who thinks she is better than us and tries to run things. We seek a companion, but us men claim the dominant role in the relationship. If evolution has favored that model, there is a reason for it. Men are stronger, more reasonable, smarter than women. That was the dumbest point ana made in this segment. The reason why scientists state "to pass on their seed" because biology drives both men and women to have sex to biologically reproduce. I find that when people "cite" numerous articles, documentaries and lectures, they are probably just pulling made up facts out of thin air.Exactly, Louis puts it well. Fresh out off Texas. Poor Diane Tran. Genetically speaking we look for physically developed women that can bare children, ie the difference between Christina Hendricks and anorexic Nicole Richie. Big hips, big breasts, curves, etc. are all visual signs of "fertility". This is also the reason that artifacts depicting fertility have shown disproportional curves in such areas. While people's disgust over the perceived 'disrespect' of the notion is understandable, it is also irrelevant to the facts. There is a dissonance at the core of our nature: the id versus the superego, if you like. Also, nothing in evolution says any human CONSCIOUSLY wants to "spread his seed"; men merely have the urge to engage in intercourse, as do women. The only point this supposed study seems to make is that men unconsciously identify certain behaviors in women as indicators of sexual availability or that certain other behaviors point out a woman as one that the man can have sex with. Rape is not uncommon, sad though it may be. As long as a trait leads to more offspring, that trait will survive.	Nothing, Sex, Sexual	Age - Youngsters, Gender - General	3/88	3.409

In fact, it sickens me that your stupid religion can take something like sex , a perfectly natural, incredibly awesome, absolutely necessary act, and turn it into something evil and vile. Your religion needs to be removed from this planet, and you need to stop drowning in your sea of delusion and stop ruining civilization for your ingenuous, overbearing, nonsensical faith. And if you choose not to, then at least stop pretending like your religion is everyone else's as well.	Sex	Gender - General	1/79	1.266

Fornication isn't wrong. It's just a sin, which by definition is a transgression against God. If you don't believe in God, then suddenly, fornication is just something that's perfectly natural but turned into a taboo by your stupid, unintelligent, ancient, masochistic, fascist religion. So if you're willing to accept fornication, you're also willing to accept prostitutes (what you would call whores and harlots) also do nothing wrong. It's just been perverted by your ridiculous faith.	Nothing	Age - Youngsters	1/75	1.333

I agree that this is a silly study, though I disagree with Ana and Steve about why it's silly. Ana: it's perfectly reasonable to assume that some hardwired behaviour is geared towards reproduction, even if we have no desire to reproduce. Why else would we enjoy sex ? There are plenty of extant non-agricultural human societies and their attitudes towards sex vary.	Sex	Gender - General	2/77	2.597
