**Title:** Are our perceptions of age distorted?

- Table 1: Summary of the results per comment;
- [Table 2](#): Summary of the results per sociolinguistic variable;

Table 1: Summary of the results per comment

Comment	KeyWords	Sociolinguistic variables (Hiper - Hipo)	Hate Speech Frequency	Hate Speech Fre- quency(%)
What would these idiots say about people in their 90s and over 100 if they think people in their 50s and 60s are <b>old</b> ? OMG, they are so stupid.	Old	Age - Over 65s	1/29	3.448
OMG, those younger (for now) people are fXXXing morons. Apparently, <b>ageism</b> is rampant in Australia.	Ageism	Age - General	1/15	6.667
It would be interesting to see in the future what these young people look like when their <b>old</b> .	Old	Age - Over 65s	1/18	5.556
If you want to change attitudes about <b>age</b> then you need to control the media who exploits youth to make money.	Age	Age - General	1/21	4.762
Loved this. No surprises. But a reminder that we need to avoid discriminating based on <b>age</b> stereotyping. Not just youth against older generations but vice-versa as well. :)	Age	Age - General	1/28	3.571

Table 2: Summary of the results per sociolinguistic variable

Sociolinguistic variables (Hiper - Hipo)	KeyWords	Number of occurrences	Frequency	Frequency(%)
Age - Over 65s	Old	2	2/331	0.6
Age - General	Ageism, Age	3	3/331	0.91

## Result analysis:

- Taking into account the words that were detected, we can reach the conclusion these comments are associated with : : Age - Over 65s;Age - General;
- The percentage of hate speech related words is 1.5106.
- Considering that the variable **Age - General** has the most occurrences in the post, we can interpret that this is the predominant hate speech.
- Overall there were 5/12 occurrences of hate speech related comments.
