I honestly think that the media is stirring up racial tension just for the views. I've only ever met one <b>black</b> person that seemed really triggered about <b>racism</b> . The rest have been super laid back.Also my <b>black</b> friends never bring up <b>racism</b> unless I ask them questions, and when I do they sit down and have a mature open minded discussion about it. And they never actually blame people for anything bad in their life. The irony is that they are all incredibly successful. Gives you something to think about. Man this lady is so ignorant... I love <b>black</b> people like they are my bothers and sisters. They're amazing people, and I always have been a huge advocate for them. Sometimes I even like <b>black</b> people more than white people. Also no one benefits from <b>racism</b> is all debilitated everyone in one way or another	Black, Racism	Ethnicity - Black, Ethnicity - General	3/55	5.455

On behalf on a <b>coloured</b> girl myself ( half <b>Indian</b> /half white) this girl is delusional! Saying all white ppl are <b>racist</b> is utter rubbish. How on earth are you solving <b>racism</b> by stereotyping every white person on the planet. Secondly I don't care if you 'meant something different' the actual words you wrote are offensive and you should've owned up to them. Yes I do believe <b>racism</b> against white ppl is real come at me if you want because there is no excuse to say horrible things about white ppl. Lastly, why keep bringing up slavery?? That is in the past. Her comments were based on her experience in the PRESENT which has absolutely <b>nothing</b> to do with slavery because that was ages ago so using the slavery excuse is just weak. Slavery is a story about strong <b>Indian</b> and <b>African</b> men and women who fought against discrimination and torment based on their races and should NOT be used to excuse disgusting comments made against white ppl. I do think that the <b>racist</b> talk can be a nuisance and you hardly hear any person of 'colour' complaining about this or stressing over it. <b>Black</b> people on the other hand and mixed people that think of themselves as only <b>black</b> and that had an upbringing not surrounded by white or other nonblack cultures tend to have these extreme negative and angry feelings towards white people. However, I will say that I do agree with her on one thing: when the conversation is brought up, yes, white people need to really stop chiming in and finding a way to play the victim, or being offended by the generalization , because that in itself is selfish behaviour. When white people want to find reasons to get offended during this topic, you are basically putting the conversation and the real issue on pause, because you are stuck up on the fact that you got offended over words or an over generalization, and simultaneously forgetting that the real struggle and issue are those experiencing <b>racism</b> . I'm sure <b>black</b> people would rather get offended over minor comments as opposed to experiencing <b>racism</b> . Racism exists only in Multicultural countries, because Multiculturalism is <b>racist</b> by default. Go back to Africa then !! to the societies that were cannibalizing human beings. WTF!! Do they forget that they were living in stone <b>age</b> 100 years ago until the white men found them in the depths of the wild <b>African</b> jungles? Do they forget that they were cannibalizing each other 100 years ago? Where do they find the nerve to criticise white men societies??	African, Age	Age - General, Ethnicity - Black	2/65	3.077

Bottom line <b>racism</b> through ws is the power to control earth resources and influence the minds whether through hate or fear, it controls who gets resources. <b>Racism</b> has the option of which options it wants to use. Hate, fear or what have you and this is the power of <b>racism</b> . <b>Racism</b> through ws in which the so called elites process is power, there is no such thing as making someone <b>racist</b> you are either <b>racist</b> or not. <b>Racism</b> also had its birth it has not always been here. Seems as if someone's trying to play a Jedi mind trick on <b>black</b> people because <b>black</b> people are the main subject of <b>racism</b> . Most white people have the advantage of white privilege which is power.	Black, Racism, Racist	Ethnicity - Black, Ethnicity - General	9/114	7.895
uwaetube 1st of all learn proper grammar. And 2nd you are by far the dumbest person I have ever seen. <b>Racism</b> does NOT equal privilege + power. That is a retarded excuse to tell yourselves you can't be <b>racist</b> because you do not have benefits that white people supposedly possess. It is a belief based on the idea that one <b>race</b> is superior to the other. Quit making up some drivel about it being a power dynamic and that only white people are the only ones capable of it. This and the other 2 comments you made are <b>racist</b> within itself, because you do not realize is that you're essentially saying is white people are the superior <b>race</b> due to privilege and power. Every empire in history has enslaved and conquered others, the Ottoman empire invaded parts of europe, north africa and the middle east! Genghis khan and the mongols invaded north china and only 1 of the population there survived, out of all these empires and kingdoms from all these races of people who abolished slavery? WHITE MAN DID! You get some of these <b>black</b> people living in a white mans democracy and calling white people <b>racist</b> and violent and oppressive, okay then let's see these <b>black</b> people go to a war torn <b>african</b> country where they are killing each other, mutilating each other, genocide, famine and constant corruption in these <b>african</b> countries, yet white people are the most violent? Wouldn't be long before those <b>black</b> people coming running right back to white mans countries! Ryan I'm not talking about nationalities of white people. I'm talking about <b>race</b> ...no one is gonna know you're British looking at you but they'll know I'm <b>Black</b> silly. <b>Racism</b> is structural whether or not you choose to agree doesn't matter to me as what I'm saying is a fact and not opinion solely based on emotions.	Black, Race, Racism	Ethnicity - Black, Ethnicity - General	3/56	5.357
Can you please explain how <b>racism</b> is structural?	Racism	Ethnicity - General	1/8	12.5
Art the Clown This is <b>common</b> sense. If you know your world history you will know <b>racism</b> is structural and how white people as a whole to this day still benefit from it to this day as <b>racism</b> isn't just something that 'disappeared'	Common, Racism	Ethnicity - General, Social Class - Working class	3/43	6.977
Kiki H Not one explanation whatsoever. First off, <b>racism</b> is the belief that one <b>race</b> is better than the other or judgment of certain characteristics like skin color. Secondly, I think you're conflating influence with power structures. Things like slavery or 3/5 compromise was because <b>racism</b> influenced those ideas.	Race, Racism	Ethnicity - General	3/49	6.122
Art the Clown something a white person would say because the structure is more beneficial to you than anyone else. Thus you dont see anything wrong with it. You think <b>racism</b> against <b>black</b> people has disappeared i bet and we get treated the same as you, I bet. I didn't explain because I don't need to. Questions like that I know the person only ask to start a tit for tat because you disagree with my original post and not because you actually care to learn anything. Have a nice day	Black, Racism	Ethnicity - Black, Ethnicity - General	2/91	2.198
Art the Clown Typical angry white tears, you can't handle the truth thus try to throw insults. <b>Racism</b> is structural like I said, that is a fact not an opinion that I'm stating solely off of emotions unlike you. You're white so you wouldn't get it nor do you want to based off your responses.	Racism	Ethnicity - General	1/55	1.818
Art the Clown <b>Racist</b> whites always get butthurt when you realize you actually know very little about the world. If you have to question whether <b>racism</b> is structural or not that's how you know you're part of the problem and live inside a white privilege box.	Racism, Racist	Ethnicity - General	2/46	4.348
Art the Clown The fact that you even replied to my original post let's me know you're triggered that I said white people benefit from the <b>racist</b> structure we live in. The world as we know was never set up for <b>black</b> people to win, just for us to be content enough to think we are because <b>black</b> people aren't in literal shackles anymore.	Black, Racist	Ethnicity - Black, Ethnicity - General	3/64	4.688
Kiki H No I'm calling it gibberish because you made up plenty assumptions about me that's one. And the second is you basically displaying your lack of knowledge about <b>racism</b> , which is very simple. I guess simplicity itself is too hard for you to understand.	Racism	Ethnicity - General	1/45	2.222

Art the Clown did your mom ever tell you to not fight the mentally <b>handicapped</b> lol	Handicapped	Physical Identity - Physical (and Mental) Impairments	1/16	6.25

Art the Clown I know more about <b>racism</b> than <b>racist</b> white people like yourself and probably know more about your history too cause I actually read unlike you who spewing emotionally charged bs and insults on the internet rather than facts. You could've simply scrolled past my comment, I don't like arguing with shit for brains.	Racism, Racist	Ethnicity - General	2/56	3.571
Pain Staker I simply stated <b>racism</b> and structural therefore white people benefit most from it and you got so triggered you left a comment, but I was telling the truth lol. How're you gonna disagree with a fact. White people have white privilege and deny it when its beneficial to whatever bullshit rant that follows lol. White people do not have racial struggles and adversities they have to overcome or adjust to unlike minorities especially <b>black</b> people. End of story. White people have their struggles too but it's 99.9 not because of your <b>race</b> because the world as we know it caters to white people for the most part. Everyone on TV is white, everyone in politics is white, I can go on but you think the world was meant to benefit us all. just call yourself a comfortable <b>racist</b> that doesn't want the world to change because it benefits you and gtfo instead of trying to make yourself seem like a victim of some attack	Black, Race, Racism, Racist	Ethnicity - Black, Ethnicity - General	4/167	2.395

Kiki H Funny how you're saying that we're the ones that's triggered, yet all you do is get upset when either one of us or anyone else calls you out on your stupidity. Also, it's hilarious how you desperately try to pretend you're smart, but you wouldn't know what <b>racism</b> is even if I had to simplify it for you. Which, funny enough, I did, and I also did mention it acted as an influence. I even provided two examples to back the latter part up. And in typical SJW way, instead of providing something that would contradict my arguments, you decided to throw a temper tantrum. Examples include making stuff up about me and making multiple replies when called stupid. So, not only are you <b>mental midget</b> but you make so easy to dance circles around that tiny brain of yours. In other words, you are too darn predictable.Edit: The reason there are more white people in practically everything is because they make up the majority of the population. Like, seriously, I know you're stupid and all, but you can't that retarded.	Mental, Midget, Racism	Ethnicity - General, Physical Identity - Physical (and Mental) Impairments	3/184	1.63
Art the Clown How retarded are you to actually think the majority of the world is white?? Did you graduate? I'm laughing but this is sad...I bet you've never left whatever predominantly white country you're from...there's significantly less white people in the WORLD than people of color as a collective everything is just colonized by white people and when people say something about it y'all get mad rather than understand it...that's the <b>racist</b> showing have a blessed 1	Racist	Ethnicity - General	1/80	1.25
Kiki H I was wrong. You are really that retarded lol. Even to the point you'll see anything that isn't there like the word world in my previous reply. Either that or you're just can't over the fact we pointed out how intellectually deficient you are but afraid to to admit it. So, you decide to strawman what I said. You know what a strawman is, right? You know it's when you argue against an argument that was never made. Thus making look desperately stupid in the process. You know, that strawman aka an easily noticeable logical fallacy. Either way, you got <b>nothing</b> to stand on at this point. In short, you lost this argument so much that you're desperately trying to cling on to something that isn't there. At least show some dignity while you're at it okay?	Nothing	Age - Youngsters	1/139	0.719
When white people don't stand up against <b>racism</b> which is prepatrated on <b>black</b> people and stand by and say <b>nothing</b> yes they are <b>racist</b> and there is a lot of white people who take advantage of white privilege by being <b>racist</b> towards blacks. <b>Black</b> people have no time to figure who and who's not a <b>racist</b> so as far as some blacks are concerned all white people can be <b>racist</b> . Colonialism is an irritating word. Colonialism comes from colon. Colon means Colonie. Which means to build SMT. Well what they did wasn't building anything we all know that they destroyed Africa,cultures,traditions, knowledge, lifestyle,nature,and tribes of ppl by separating or even genocideing them. But none of it will they admit. Colonialism sound great and imperial so they will never call it SMT else. As I said colon means to build ....What they did was raid,rape,theft murder,genocide.....I know no one and **nothing** in word and action that white ppl in larger numbers did ever anything against injustice against others. They pointing u out an Abraham Lincoln which is the most ridiculous and poor story to make those ppl and us believe that he really really really fought for the rights of others then White's???? Whoever believes such degrading lies is it not worth to live in this planet. White ppl ARE very very comfortable with **racism**. Any other talk that white ppl suffer with those others or hate **racism**,or feel what one is going through....well that's ridiculous and an insult. As **racism** was invented by whites in the last century and it gave them advantage,a feeling of being something superior,it have them money, richdome,and power. They established sciences on it ,build entire civilizations, and put out some very interesting philosophical subjects. Now if u wanna believe that whites aren't **racist** from the earliest day of their birth due to their parents,that person is really really really a daydreamer. They don't realize what it means to build a entire civilisation on that so if they're bout to understand what will happen when this situation changes and others are the majority,others who really build the country then they get scarf. And when they face all this,they rather try EVERYTHING to maintain the status of theirs. What means when confronted to the two options; stay in Ur **racist** world structure,or face the loss of power if u leave the **racist** system trace.....it's so clear what is going on

<p>Finn Wraith my friend let me tell u SMT. First of all there are scripts from the Greeks for expl. The Greeks were the first euro civilization. The Greeks came to Africa,Kemet,which is now called egypt. Homer and Herodotus wrote bout the ppl they saw and their knowledge and especially their appearance. None of them mentions Arab like or even white ppl! But how come its drawn and shown everywhere as Caucasian? The next thing is; Slavery and Service! Slavery known as what it is not today comes from the white ppl. It is quite unimaginable what this ppl did to human beeings!!! Africans ,Arabs, Hindus,Chinese, Japanese ppl etc. were used to this service labor. Never u had the right to treat ppl like tht. Even when one was captured as war prey it was never ever ever comparable to that satanic bs the White's committed!!! To point to other parts of the world and trynna make others as guilty as whites are only works on stupid idiots! The level of inhumanity and satanism of those ppl,Ur forefathers is just ways beyond imagination so there are two options; 1. Play Ur story down if thats not possible coz of too much evidence and proof, then do the second thing; Level up the others crimes,so I don't stand alone!!! U say others hot on Africans before? Who? Who? Tell me,I wanna know. As I know the prophet s.a.s said told the prophecy tht the shepherds,the barefooted,shoeless, none having Arabs,will build higher n higher skyscrapers..... Those,who have <b>nothing</b>!!!! Oil was found in the begging of the last century. Islam started 1400 years ago. Before Islam came ,there was <b>NOTHING</b>,NOT ONE SINGLE THING FROM THE ARABS!!!! Swords,body armour,any kind of technologies all came from abroad to them,while in Africa empires like the malinka,Kush, Nubia, punt, Ge'ez,Karthago etc was thriving! And now for all those who think bout Arab like or Berber northafricans.....Those ppl aren't the indegenious ppl of northafrica. Those northafricans today came from the Balkan region. Of course there took place mixings so some of them look darker skinned. As we go on. Even the Romans saw,interacted and breed with any type of human beeings!!!! The fact is that modern white ppl started this <b>racism</b> in modern times! Never was there One conquer of for expl. East Africa by Arabs! Also West Africa! The Arab ppl came as refugees to Africa ,to Abessinia! White man stole , HISTORY, identity, conscious, heritage and life's!!! Now this is even visible in his history books,he teaches his children,he made LAWS to discriminate human beeings and called them OFFICIALLY 1/3 OF HUMAN!!! NOW U WANNA REALLY TALK ABOUT OTHERS????He made up fake sciences and is still doing tht collective mindrobbery by Media for expl. Brainwash u white . Hollywood embarrassed themselves as <b>black</b> artist denied the Oscars Clearly to see the whit agenda thts pierce thru Ur head and u not able to get it And that's the case. Whites Never admitted,never excused,never rehabilitated anything! No no no! Instead they tried to fight those surpressed ones by keeping them silent. Why would I try to keep one silent,why would I come up with fake sciences ? Just to preserve the fake I established and to cover up the truth. What is the truth? Well if all what I say makes sense to u, start tracing from the result. The result of white mens actions is that</p>	Black, Nothing, Racism, Racist	Age - Youngsters, Ethnicity - Black, Ethnicity - General	5/643	0.778

First of all everyone nowadays are judge because of their color I'm white and I believe every life matters and yeah there are some <b>racist</b> ass white people but there are also other races that are just as judgemental and are just as one-sided to be honest I try to ignore this shitt because I'm tired of hearing it this is the type of shit that causes more drama in more division between races in these are the type of people are the reason why we're still divided not everyone benefits from it everyone has a different perspective and I wish on God that color wouldn't matter it pisses me off so much that i have to go to class and hear a kid next to me say that "someone got shot and killed because of their <b>race</b> ". I get racially profiled all the time I'm the only white kid in my class and people use that as an advantage to say stuff and I'm not going to lie it is kind of mostly white people that are making <b>racist</b> shit happen the most but I'm tired of it I'm only 15 in this affects me so much I can't imagine how it's going to be when I'm 20, I didn't we all have cultural differences and we all have problems from the past but that doesn't give us an excuse to be just like they were back then. Jon Munoz27 Hey Jonathan. My original post had me specifically commenting on this <b>woman</b> in this video who clearly gave up on life at one point and then realized that she could get her second wind by blaming others for her shortcomings in life. I'm speaking of this one specific <b>woman</b> . That's clearly what she's doing here and we accept that as truth. Enter you. You came in with your words of wisdom and life knowledge claiming that an entire <b>race</b> is <b>racist</b> . I, as well as you, know that to be false. So I guess my question to is: Did you have a bad day that day Jonathan? Why do you make a false projection onto an entire class? Because, you know, that sounds kinda <b>racist</b> Jonathan. It's almost as if this exchange is somewhat representative of what's going on in today's politics. A bunch of screaming people with no basis for truth,n o backbone to actually do anything about, and proceed to the next step of crowning yourself victim. Wow! Where have you been for all this time? By now you should've figured it out. White people often complain about being victim's of <b>racism</b> , complaining that they feel dicriminated and can't prosper because of affirmative action. They say <b>Black</b> people take away their jobs and education,even though blacks still remain the most unemployed,our schools are underfunded, not enough resources,not enough teachers,the Least qualified teachers,just a crappy education. After all your complaints you still get the best education,the most employed,the best housing, controlling all three branches of government. <b>Black</b> people don't control society through laws and resorces,we don't hold positions of power that have been historically destined for white people. Here's a perfect example of white priveledge: A blonde hair blue white man tried to sell me a T.V. He said "I steal from stores and sell for a higher price". I asked him if he was ever caught and he said "no,the security guards and cops watch your people,they don't expect this from a blonde hair blue eyes white man,I get away everytime". If this is not good enough for you,I don't know what else to tell you. Who gets the best and fastest service in all aspects of life while everyone else is on back of the line? Who worries less about discrimination in all aspects of life? White people are not being pushed to the back of the bus,denied voting rights,denied human rights. You don't walk while white,shop while white,drive while white,live while white. You cruise through life going untouched by all forms of discrimination. Did you hear about the white guy that was realeased from jail after picking up and throwing a kid on your ground for not removing his hat during the national anthem? That's white priveledge, Anyone else would have been giving a high bail,he could've killed that kid. How about Eric Garner,if he was white he would have been sweet talked into submission. " How are you today?" "Are you hungry?" " Want some coffee?" This is another form of white priveledge.White people call the cops and zoom!!! Withing a heartbeat,the cops are on the scene. racism doesn't effect white people, it effects people of color. I'm pretty sure white people as much as any other <b>race</b> has dealt with some <b>racism</b> its not a world of every <b>race</b> vs white people. That's stupid, every <b>race</b> in their own way or form has dealt with <b>racism</b> . some maybe more extreme than others in their own individual cases, but there has defiantly been attacks on everyone of every <b>race</b> . But I don't see how whites people benefit from <b>racism</b> if the system does not allow racial discrimination to play a role in society's function. Just because im white doesnt mean im privileged. This <b>woman</b> cant claim shes being discriminated against because she probably hasnt experienced some of the terrible trash humans are capable of. One of the most recent and horrific <b>racist</b> acts taken against an <b>ethnic</b> group was the holocaust, which by the way mainly targeted European Jews, who were predominantly white. And acts like this still take place today in much smaller proportions all over the world, so claiming that racial violence is a crime all white people are guilty of in our first world society with our hate crime laws and diversity quotas really makes her look a bit square and uninformed. <p>As an Asian, it appears to me that blacks harbor the greatest vocal animosity, and without much merit. However, regarding this issue, I believe it originally lies in the deterioration of our education system. For over a millennia, Trivium and Quadrivium had produced a long line of some of the wisest, virtuous, and intellectually competent men in history. From Emerson, Schiller, Goethe, Kant, Descartes, Spinoza, Swedenborg, Carlyle, Nietzsche, Addison, and so forth. This tradition, and the intellectual atmosphere it created was what enabled and propelled mankind out of the medieval ages, into an era of enlightenment and innovation. But in the 1800s, the industrial revolution changed the entire dynamic of progress of Europe and the Americans. Education previously was a long and difficult process, requiring many years of strict cultivation. It is no exaggeration to say that the middle school equivalent back then was what post graduate degrees would be today. Despite this, it was greatly beneficial. However with the industrial revolution looming and booming, many families sought the promise of better pay and employment in the city. They moved in droves, crowding the streets and amplifying the financial and political power of big companies. Most families did not see the pertinence of spending money for an education, when they could simply send their young children to factories, often with dangerous machinery. This became the popular trend. As families became somewhat more financially stable, their numbers grew, increasing the world population. Few generations in, quality education was dying, while general ignorance was extremely <b>common</b>. As it happens, ignorance and cultural shifts go hand in hand. We enter the early 1900s and we see the "party generation" aka the roaring twenties, and subsequently more and more people, raised in the cities, who support materialism and sensuality more than spiritual and intellectual growth. It wasn't until the 1950s that people started dealing with civil rights, women equality, and other social matters. Along with the rise of "hippies". But these people, intellectually speaking, understood little of such affairs, much like today. Ironically, Trivium and Quadrivium was legally pushed out of the curriculum in the 1900s as well. As you may know, education in the modern era is commonly the rote memorization of facts, the crowding of the intellect. An education that does not instill critical thinking, but "what" to think, aka indoctrination. Not to mention "Tests" were often similar to trivia. How does this all tie in to your original post? Well today, such circumstances have set the foundation where there are increasing controversies and issues that revolve around social causes. From <b>racism</b>, to politics, to <b>gender</b> equality, to <b>gay</b> rights, etc. But majority of people do not have an education that sufficiently enables them to think logically. They move towards emotions, and habits that result from being emotionally biased. As you know, <b>racism</b> is commonly a heavily misappropriated term that's lost all logical significance. It's become a buzzword/scrapgoat to deflect and blame another <b>race</b> or party, putting them under social scrutiny and avoid serious and rational discussion, especially given most of them are incapable of doing so. This is but one example. But above all... "democracy dies in darkness", in other words, the quality of a</p>	<p>African, Common, Gay, Gender, Race, Racism</p>	<p>Ethnicity - Black,  Ethnicity - General,  Gender - General,  Sexual Identity - General,  Sexual Identity - Male homosexuality,  Social Class - Working class</p>	<p>8/739</p>	<p>1.083</p>

Minorities cannot be <b>racist</b> simple., bc we cannot affect or effect a white persons( or any other persons) stature, economical or societal, or physical well being or "liberties". To be <b>racist</b> in the true definition you have to be able to affect one of the three or all three. We do not Run or head or hold majority the job sector (employment). federal or state gov, or real estate, banking or financial sectors. So if i cannot affect any of these (meaning give or deny) economics, land, or job placement or physical( prison, judicial, policing any gov. Agency) then i cannot be <b>racist</b> . To be <b>racist</b> "one" must be able to be able to affect and effect those things.so "you", bc your a rep of said <b>race</b> , speaking in general, are a part of a <b>race</b> that does hold these things ( liberties) in concordance with this caste system and are TRULY <b>RACIST</b> . Race, Racist	Ethnicity - General	5/44	11.364

Republican Channel lies. Everyone beliefs their <b>race</b> is superior. Beleiving ones <b>race</b> is superior is called prejudice. <b>Racism</b> is actually acting on that belief so like i said since blacks can not and have not affected any other races well being, i.e economy, real estate , buisness, neighborhoods, social economic, justice system, jobs & careers or any other God given liberty they cannot be truly <b>racist</b> . Blacks dont have any social structures to affect i.e. (banks, walk street, real estate, agrictural, or mass production companys) other peoples lives in a mass or large scale. Its also worth mentioning blacks have been enslaved, raped, murdered, lynched, shot down, unjustly prosecuted, stole from, exploited and alientated from economic inclusion while providing the country with 400 years of free labor to jump start the economy that was critical to make the country what it is. That free labor laid the foundation of the country when the founding fathers were penning out the pillars of this society. It also lead to the industrial revolution wchich led to even more economic growth while the people who did the work were left with no land, severance pay, could not get loans, jobs, proper education, skill sets, all while fighting for civil rights and in wars to be left out in the cold with little to no assistance from society, or the federal gov while at the same time the federal gov was giving out millions of acres to whites and sending agricultural wards to treach them to farm the land. I was born in a white Christian country in Eastern Europe, NOT in some <b>African</b> jungle with Islam as religion, therefore I am lucky & blessed...7 billion people on earth of which around 1 billion are white and I'm one of the lucky ones, mostly because of Christianity...being white makes it easier to be a Christian cause blacks mostly turn to Islam cause they don't want "white man's" religion. It's not privilege to be white since we are a minority and were tasked with White Burden, especially spreading the gospel to the four corners of the earth. We practically carry the world like Atlas on our shoulders.	African	Ethnicity - Black	1/107	0.935
Burning Pipe the only reason they can criticise anything is because of Christianity...they can blame the Vatican and Catholicism all day, but they have <b>nothing</b> on our Heavenly Father for he has all the knowledge and he is the One who should be governing mankind...man can't govern himself. Man turns to satan for knowledge and pays dearly for it. If all of humanity accepted Christ and lived according to the law, we would have peace and prosperity on Earth...are there other peaceful religions on Earth, sure, but they don't have the Law nor the Truth, therefore they will be condemned without the law...those who have the law will be judged by the law. Law of God comes first, no need for tradition or culture if you have the law.	Nothing	Age - Youngsters	1/129	0.775

<p>Burning Pipe Maybe we both have problems understanding each other. The only way an atheist can seem to be more Christian than an actual Christian is by works alone, for he does not believe in the one &amp; true living God and therefore has no faith or love for him.</p> <p>Even if the atheist' love for other people is true and sincere, it is meaningless, because faith for our Father comes first; how can you know what love is if you don't know love - that's why Christ will say "get away from me I never knew you". What good is it to be more Christian than an actual Christian if you going to be condemned without the law anyways? You can't earn righteousness or be more righteous, you can't do anything to be saved, you are helpless; all you can do is believe that Christ took away the sins of the world and that He has the power to cleanse you from your sins and have faith that He will keep his promise for He made the promise - "who ever shall believe in me shall have everlasting life". This is what pissed the Pharacees off so much, but it was they who broke the covenant, not God. Phrase 'the law' refers specifically to the compilation of decrees found in the first five books of the Bible, called Torah; it was given by God to his people. We would not even know the difference between good and evil(says Paul), without the law telling us what to do and what not to do. But above all, Paul makes clear that God's love fulfills the law. The law tells us the kind of life that our love for God and our neighbor would require. Obviously all those laws about sacrifices are finished in the one and complete sacrifice of Christ. All the dozens of laws about the land, foods, and rituals of Israel don't pertain to us either. Nor can the keeping of any set of laws give us eternal life.I wrote about the law, because I'm studying the book of Romans at the moment where Paul teaches that we don't just toss out God's commands and become a lawless gang. Every believer is a new person in Christ, therefore he or she loves God and his/her neighbor; the timeless law of God is written in our hearts now and obedience is our joyful adventure. Disobedience to God is our rotten failure. This is why an atheist who acts more Christian than an actual Christian is doomed; it's impossible trying to merit forgiveness, inherit the Kingdom, or evolve spiritually by works. It is only through forgiveness by sheer mercy because of Christ's sacrifice. An actual Christian, can repent for his or hers sins and be filled with the Holy Spirit, because they believe in Christ; which is something an atheist cannot ever do, for an atheist does not know God not believes in His existance. Christ is the new covenant, the new law. We are to be like Christ, even more, we are told to be perfect. Baptism is actually a funeral where we die with Christ and our <b>old</b> bodies get buried with Him and we become new thanks to His resurrection. As God's new creation we actually want to obey His law, not because it gets us anything, but because of our love for Him. "I desire to do your will, O my God; your law is within my heart.' No you just don't give a fuck. White people just want history to go away but these types of conversations are important in order to stop the unequal wealth that whites have historically benefitted from. The point being made is white people are the only <b>race</b> truly benefitting from the bloodshed and corruption of their ancestors, they know this but don't care to change it, talk about it or anything and ultimately very dismissive. This is because most white people inherently think they deserve it and honestly believe they work their ass off from their wealth when historically it's incorrect and white people generally keep all their wealth within the white community. Anytime you see big business that have blown up lie Amazons and Facebooks it's not because they were just better than other races its because all that wealth that has historically been in the white community is invested into white businesses. If my family has historically been rich like say the Rothschild I and since the beginning of the Americas I can influence an entire <b>Nation</b> by who I choose to invest my money into and what companies I decide will get big. It's definitely not the same as the Asian man down the road who just opened his own business.
