Bro Travis laugh is so weird	Weird	Physical Identity - Physical (and Mental) Impairments	1/6	16.667
This game is rigged for the younger generation!!! Their questions are way easier! Plus they get educated in school about the older times! But old people don't get educated on modern culture! Plus, like I said, the questions for the younger people are always WAY EASIER than the ones for the old ! It should be the other way around!This just rubs me the wrong way for some reason! Idek why I care! Bruh I was raised in Ukraine until 14 years old , and I still know almost all the answers that Travers is asked in any of the videos, BUT I don't know almost any that the old people are asked!Super unfair toward the old people! Here so Simon Huck and Jonathan Cheban can be the P.R. Guys for Justin Massler/Jesus Christ:On the stalking story the angle is the media will label a guy a stalker even if the girl likes him if just The System doesn't want them to be together and the system may force the girl to lie so Lenora Claire and Ivanka Trump are both into Justin Massler but the system is trapping them and labeling him a stalker but he can see the truth because he has The Shining so he knows the system is forcing Lenora to lie so he's a superhero stalker who's a hero to these girls rescuing them from a media system trying to unjustly control them against their will.On the mental illness story it was just a misdiagnosis over he said things like he's Jesus Christ and they thought he was delusional but really he is Jesus Christ so it wasn't a delusion and he's not mentally ill. The Jesus Christ in The Bible is a metaphorical image of The Christ God like Neo or Harry Potter or Star-Lord and Justin Massler is The Avatar of The Christ God so he is who they call Jesus Christ.On the "What does he do?" angle he's just a Rogue Warrior in The Red Cell Program which is like a real life A-Team Concept created by SEAL Team Six Founder Richard Marcinko to deal with things like how Israel's Mossad was behind 9/11 but a Zionist Conspiracy in the media is suppressing the truth.On The Kardashian Connection he's what black girls call Kim Kardashian's baby daddy as the baby daddy to black girls is the love father who the mother loves who the child takes after rather than the genetic father who the DNA comes from where like that's O.J. Simpson for Kim Kardashian.I think that's pretty much all the main stuff!!!NICE! We got it all nailed! The woman was 82 so I was picking questions that would have been significant to her at about the same age as the teenage boy. The game, as I understood it, is to "see how much each knows about the other's era". You did make me smile by answering "The Pointer Sisters" which I guess is a correct answer. However, I was picking a band name from the 1940s so the answer to my question would have been "The Andrew Sisters". I can see that my question wasn't original enough. zulu. .inc I think "European" usually refers to a person in Europe of any race , while "Asian" usually refers to people who have East Asian roots but could live anywhere in the world. I guess it's a little more polite than calling the Asian race " yellow ", y'know? Then you have black people, who are often called by both (African-Americans and Afro-Europeans).Culturally speaking, Israel doesn't really fit in to the rest of South-East Asia, and I'm pretty sure most Jews are white. But I don't think that we consider Russians to be Asian, I live in the EU and Russians are usually just considered their own people... "Russian"... not European or Asian. The line is not blurred at all. Israel is in Asia. It's a geographical fact. The reason of Israel competing with european countries a s nothing to do with geography. Can you imagine the tension of an Iran vs Israel game in Teheran ? So not possible to play with asian teams.	Nothing	Age - Youngsters	1/52	1.923

You don't call everyone who lives in countries in Asia continent 'Asian' just like you don't call people who live in countries in America continents American. It's kinda complicated and depends on what are you referring to RACE or ETHNIC and Asian can be both but in this case I don't think she would identify herself as Asian racially or ethnically. "Wikipedia is easily editable and not always correct."You sound like my teacher from elementary school! Everybody knows the chance of wikipedia being wrong is minimal, regardless landmass and geographical placing has nothing to do with Asia being a continent or not!Monaco is 2 km², and it is still refered to as a country! Humans has put (new and old) names on places, we refer to them as such, regardless of the fact that their respective geographical placing is namned! Nobody uses names like New World (to all of America) or Galia (a bunch of countries in Europe) anymore!I study history! Asia is a continent, and I have never heard any history teacher say that it's not!	Nobody, Nothing, Old	Age - Over 65s, Age - Youngsters	3/119	2.521
